Aurora Ave Project

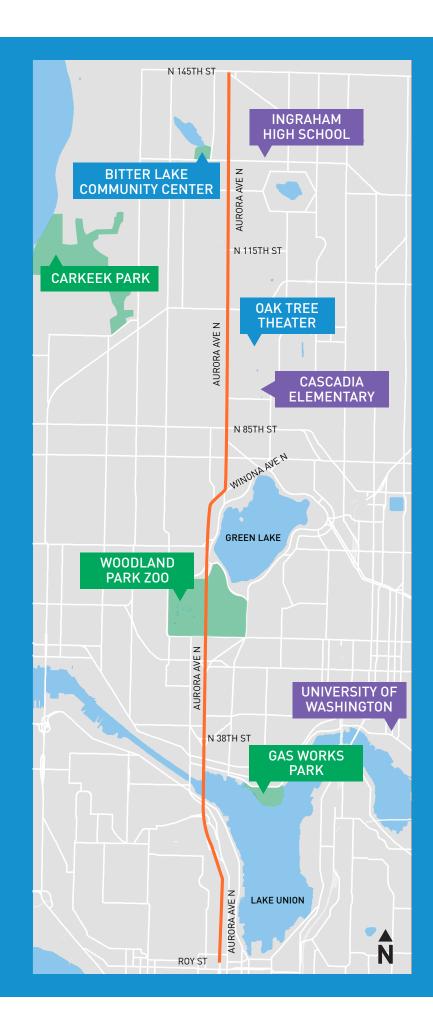

Let's make traveling on Aurora safer and easier for everyone!

Aurora Ave Project Overview

The Seattle Department of Transportation and King County Metro are working to develop a refreshed planning and design study for Aurora Ave (from Harrison St to N145th St)

Project Goals

- Design improvements for people who walk, bike and take transit along Aurora
- Reduce collisions for all users
- Engage community members in the area on shared vision for Aurora

Project Concerns

Aurora is the deadliest street in the city.

People who walk and bike are more likely to be seriously injured

17%

of all traffic fatalities citywide occurred on Aurora

People who walk make up a disproportionate number of fatalities - 5% of all collisions, but 75% (15 out of 20) of all fatalities

Project Benefits

- Develop a design vision that enhances safety, mobility, and accessibility for all travelers
- Identifies transit service improvement and connection needs
- Develop a strategy for improvements as resources become available

Timeline

Survey#1

Summer/Fall 2022

We will gather community input on key concerns to inform design

Survey #2

Summer 2023

We will present design options to community and gather feedback

Design and Planning

Winter 2023

Community members and the design team will incorporate feedback and draft design options

Share Outcome Fall 2023

We will finalize design and announce it to community

Take our Survey!

Tell us how to improve

Pedestrian & Bicyclist safety

General safety

Public transit

Welcome!

Thank you for your participation in our survey. Your input is very important to us.
