

FACT SHEET

GREEN LAKE AREA PAVING PROJECTS

April 2017

PROJECT DESCRIPTION

Starting as soon as 2019, we'll pave arterial streets in the Green Lake and Wallingford communities. Paving projects create opportunities to improve street safety and move people and goods more efficiently in a growing Seattle.

See map on reverse.

PROJECT BACKGROUND

Arterial streets are primary routes for moving people and goods through the city, and connecting neighborhoods and business districts to one another and the regional transportation network.

Each year, we pave arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a good state of repair helps lower the cost of future maintenance.

We prioritize paving based on pavement condition, traffic volume, geographic equity, cost, and opportunities for grants or coordination with other projects in the area.

SW AVALON WAY & 35TH AVE SW PAVING PROJECT

April 2017

PROJECT DESCRIPTION

Starting as soon as 2019, we'll pave SW Avalon Way and a short segment of 35th Ave SW, following completion of the Fautleroy Way SW Boulevard Project.

Paving projects create opportunities to improve street safety and move people and goods more efficiently in a growing Seattle.

See map on reverse.

PROJECT BACKGROUND

Arterial streets are primary routes for moving people and goods through the city and connecting neighborhoods and business districts to one another and the regional transportation network.

Each year, we pave arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a state of good repair helps lower the cost of future maintenance.

We prioritize paving based on pavement condition, traffic volume, geographic equity, cost, and opportunities for grants or coordination with other projects in the area.

Paving location as early as 2019

FACT SHEET

SW ROXBURY ST PAVING PROJECT

April 2017

PROJECT DESCRIPTION

We're scheduled to pave SW Roxbury St as early as 2019, pending funding availability. To be ready for the project, should funding become available, we are seeking feedback on current street operations.

Paving projects create opportunities to improve street safety and move people and goods more efficiently in a growing Seattle.

See map on reverse.

PROJECT BACKGROUND

Arterial streets are primary routes for moving people and goods through the city and connecting neighborhoods and business districts to one another and the regional transportation network.

Each year, we pave arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a state of good repair helps lower the cost of future maintenance.

We prioritize paving based on pavement condition, traffic volume, geographic equity, cost, and opportunities for grants or coordination with other projects in the area.
