RE: Organizational Support of Cheasty Greenspace Trails and Mountain Bike Park

There is great value to restoring, reclaiming and reimagining Cheasty Greenspace for the Rainier Valley. Neighbors and community members have vocalized their support and pledged over \$400k in volunteer hours over the next five years.

In addition to this outstanding citizen support, neighborhood and regional organizations have come alongside this transformative proposal based on its impact on the common good for our community. The following organizations have all agreed to be listed as supporters for this vision to reclaim this forest and turn it into something extraordinary for SE Seattle: a landmark for ALL of Seattle and our community would be one of the nation's leaders in creating neighborhoods with visionary holistic recreational opportunities in our urban forests.

deep listening.
creative liberation.
radical hospitality.

Over 250,000
volunteer hours
pledged to this
project to date
and GROWING
daily!

MAP OF SUPPORTERS

The Cheasty Greenspace Trails and Bike Park (aka Beacon Bike Park) will transform our community by removing barriers of privilege from both nature and a fun and relevant sport.

We believe this pilot project will transform the social health and wellness statistics of the Rainier Valley by providing a variety of ways to engage Nature.

This project will create a GREAT PLACE that informs and sustains urban living.
