Development Capacity/Environmental Review

PAO: Tree Preservation

- Previous/Existing conditions: high canopy cover due to small footprint of buildings
- 40+ Exceptional or valuable trees initially identified. Several had been damaged or were in poor health as of 2010
- Planned Action Ordinance categorized trees as:

Tier 1 (similar to Exceptional, 32 total) or

Tier 2 (low preservation value/candidates for removal, 346)

Replaced at either **1:10 (Tier 1)** or **1:1 (Tier 2)**

- Clarify timing for reporting on replacement/mitigation - will occur at the completion of the redevelopment

- Create option to mitigate/plant off-site and, if allowed by SMC 25.11, use fee-in-lieu of replanting

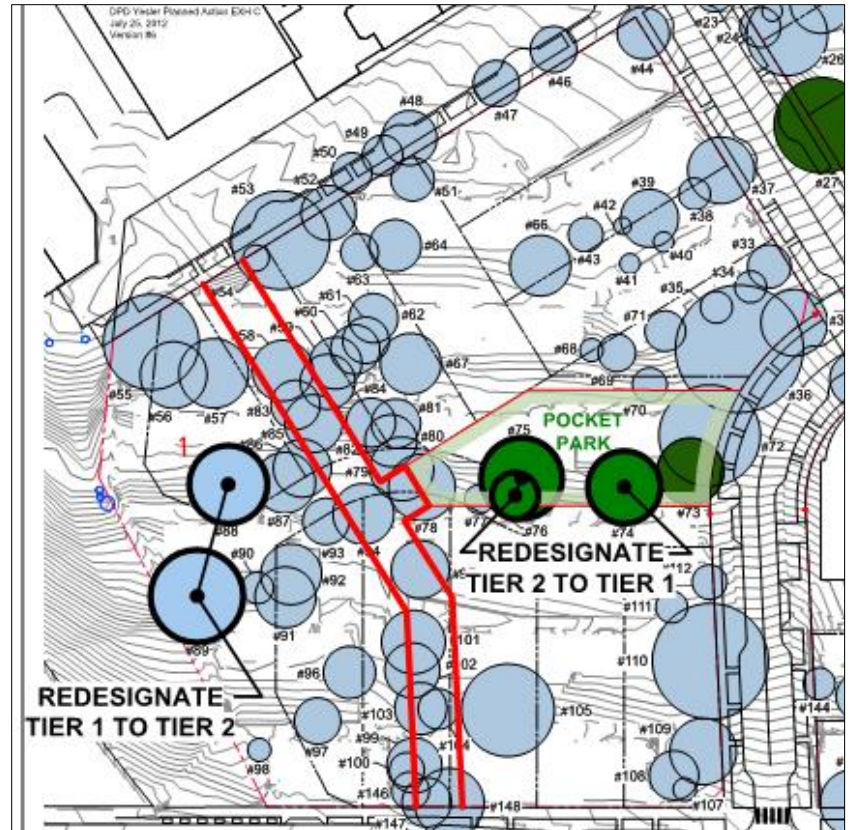

- Revise Tier 1 tree designations in Block 7 to correspond to plat approval
 - Tier 1 tree designation based in part on site/parcel location (perimeter of site or in pocket park)
 - minimize conflicts w/development potential
 - so as not to be compromised by adjacent structures &

Proposed Legislative Change

Block 7 PAO Adoption

Block 7 Plat Approval

- Redesignate three Tier 2 trees as Tier 1
- Redesignate two Tier 1 Trees as Tier 2
