### **General Subfund Balance Forecast**

The City's financial policies do not require a fund balance to be maintained in the General Subfund. Instead, the City funds the Emergency Subfund to the legal maximum each year and maintains a variety of dedicated reserves funds. Thus, General Subfund balances usually are carried over and spent in the following year.

The General Subfund is projected to have a negative balance of approximately \$4.4 million at the end of 2002. This shortfall is due to a delay in receiving property sale proceeds that will now be received in 2003. This temporary shortfall will be covered by use, and subsequent reimbursement, of the Emergency Subfund.

General Subfund revenues for 2002 are substantially below budgeted figures due to the continued economic slowdown. This shortfall has been offset by mid-year cuts imposed by the Mayor in February and September.

### **Cable Television Franchise Subfund**

The City of Seattle entered into cable franchise agreements in 1996 with TCI and Summit Communications, Incorporated. These agreements establish a new franchise fee as compensation for the right to locate in the public right-of-way. The Cable Television Franchise Subfund (created by Ordinance 118196) shows the anticipated revenues from the franchise fee and related expenditures in the Department of Information Technology and in the Library. The subfund reserve will be retained as a hedge against future revenue shortfalls.

<sup>\*</sup>An advance payment of \$2,800,000 was made by AT&T to the City to support Public Access TV in lieu of smaller multiyear payments and will be held as subfund balance until slowly drawn upon over the next four years.

#### **Cumulative Reserve Subfund**

This subfund is a reserve fund authorized under State law and is used primarily for maintenance and development of City capital facilities. The subfund is currently divided into two accounts, the Capital Projects Account and the Revenue Stabilization Account. The purposes and uses of these accounts are described below.

The **Capital Projects Account** provides funds for a wide array of capital projects. For the last few years, the vast majority of the expenditures from the Capital Projects Accounts have been devoted to maintaining and rehabilitating existing City facilities.

- The account is divided into four subaccounts that reflect different revenue sources.
  - ♦ The Real Estate Excise Tax I (REET I) Subaccount is funded by a 0.25% tax on real estate transactions. A portion of these proceeds is used to pay debt service on bonds issued in 1992 and refinanced in 1998 for low-income housing and recreation facilities. REET I revenues are also used to defease 1994 bonds and to pay debt service on \$6,751,000 in councilmanic bonds that will be issued in 2003 to pay for Seattle Center roof replacements. The subaccount continues to earn interest on the balance that would have existed without the defeasance. The remaining REET I funds are used for other capital projects.
  - ◆ The <u>Real Estate Excise Tax II (REET II) Subaccount</u> is funded from an additional 0.25% tax on real estate transactions and is kept separate due to different state requirements regarding the use of these funds. REET II revenues are used for a variety of capital projects.
  - ◆ The South Lake Union Property Proceeds Subaccount receives funding from sales of certain surplus City property located adjacent to South Lake Union, investment earnings attributable to the subaccount, and other associated revenues. \$13,759,000 was transferred out of this subaccount in 2002 into the defeasance account established as part of a refinancing plan of outstanding councilmanic debt issued in 1994. The City will issue councilmanic debt in the future to pay for projects that would have been funded otherwise from the subaccount. The subaccount continues to earn interest on the balance that would have existed without the defeasance.
  - ♦ The <u>Unrestricted Subaccount</u> receives funding from a variety of sources, including street vacation revenues, transfers of General Fund balances, investment earnings (net of investment earnings attributable to the South Lake Union Property Proceeds Subaccount), and other unrestricted contributions to the Cumulative Reserve Subfund. The Unrestricted Subaccount includes the Street Vacation Compensation Fund which dedicates a portion of revenues earned from street vacations to transportation and open space capital improvements.
- ♦ The Revenue Stabilization Account, created in the 2000 Adopted Budget through Ordinance 119761, provides a cushion from the impact of sudden, unanticipated shortfalls in revenue due to economic downturns that could undermine City government's ability to maintain services. The account is limited by ordinance to 2.5% of the prior tax year revenues. The entire account fund balance was used to balance the 2002 budget through the adopted 2002 budget and subsequent supplemental legislation. The 2003 Adopted Budget allocates \$2.4 million in General Subfund resources to this account to re-establish this reserve.

## 2003-2004 Proposed Cumulative Reserve Subfund: Sources/Uses of Funds

## 2003 Adopted and 2004 Endorsed Cumulative Reserve Subfund

Appropriations shown below from the Cumulative Reserve Subfund (CRF) are for special purposes such as debt service payments and the City's Tenant Relocation Assistance Program. Department CRF and Street Vacation Compensation Subfund summaries are shown for informational purposes only. Actual appropriations for capital projects funded by the CRF are made in the appropriate department's section, with the exception of the Special Projects shown below. Department capital projects are fully described in the 2003-2008 Proposed Capital Improvement Program.

<sup>(1)</sup> Includes Street Vacation Compensation Subfund allocations.

## **Emergency Subfund**

Under the authority of state law, RCW 35.32A.060, the City maintains a financial reserve called the Emergency Subfund of the General Fund. This subfund is the principal reserve for the City and is available to pay for unanticipated or unplanned expenditures that occur during the fiscal year.

City policy (Resolution 30379) directs that sufficient resources shall be appropriated to the Emergency Subfund so that its balance equals the maximum permitted by state law (37.5 cents per thousand dollars of assessed value in Seattle). The most recent estimates of assessed value (developed in October 2002) indicate that the maximum balance for the Emergency Subfund will be \$29.8 million in 2003 and \$31.1 million in 2004. These estimates reflect current laws governing the appraisal of real property values for property tax purposes.

In 2002, \$6.0 million of General Subfund resources are transferred to the Emergency Subfund to ensure that its balance is at the maximum amount permitted by law. This transfer is an increase of \$3.3 million relative to the amount projected to be transferred in the 2002 Endorsed Budget.

- (1) A premium holiday will occur for the employer portion of the group term life expenditures in 2003 and part of 2004.
- (2) A portion of the subfund balance was used to support administrative costs of the Health Care Subfund in 2002.
- (3) A portion of the subfund balance that was being held in reserve pending completion of negotiations with labor unions was paid out in 2002; further negotiations are pending in 2003.

### **Health Care Subfund**

The Health Care Subfund contains the revenues and expenditures associated with the City's medical, dental, vision insurance programs, Flexible Spending Account, Employee Assistance Program, and COBRA. Health/Dental/Vision Expenses have increased significantly compared to 2002, reflecting a nationwide increase in health care costs.

### **Industrial Insurance Subfund**

The Industrial Insurance Subfund captures the revenues and expenditures associated with the Worker's Compensation and Safety Programs for City employees. Since 1972, the City of Seattle has been a self-insured employer as authorized under State law. The Industrial Insurance Subfund receives payments from City departments to pay medical claims, preventative care, workplace safety programs, and directly related administrative expense. The State Department of Labor and Industries requires that the Subfund maintain a minimum cash reserve level of at least 25% over the estimated total medical claims and time loss expense for the budgeted period in the Industrial Insurance Subfund.

- (1) Medical care claim costs are paid from the Industrial Insurance Subfund; City departments reimburse the fund for claim costs.
- (2) Per State Labor & Industries, the Fund reserve requirement must be equal to 25% of the total cost of claim and time loss expense estimates. The reserve must be cash, in a dedicated and designated fund. The State required reserve amount is included in the Industrial Insurance Subfund Balance.

### **Judgment/Claims Subfund**

This subfund provides for the payment of legal claims and suits brought against the City. The subfund receives appropriations from the General Subfund and the utilities to pay the judgments, settlements, claims, and other eligible expenses expected in the following year. Unused balances, if any, may reduce the contribution required in succeeding years.

Beginning in 2003, premiums are charged to General Fund-supported department for Judgment/Claims Subfund costs. The premium costs are transferred from Finance General to General Fund supported departments for departments with 2% or more of historical Judgment/Claims Subfund costs. Finance General covers premiums for departments with less than 2% of historical Judgment/Claims Subfund costs. Utilities pay their actual expenses as incurred.

### **Police Support Facility Subfund**

This subfund shows revenues and expenditures associated with the Police Support Facility at Park 90/5. The existing complex of buildings on Airport Way South was acquired in August 1996 as a future location for Police Department functions including evidence storage, parking enforcement, and other support functions that are currently located in the Public Safety Building. The facility also includes the Seattle Public Utilities' Water Quality Lab, which was completed in 1999. It will also house the FFD Maintenance & Operations Center, now located in the Public Safety Building, in 2003. Private tenants continue to occupy a portion of the facility. Police Department occupancy is expected to be completed by late 2004. The subfund balance will be held to cover future expenses. In 2002, FFD transitioned the operations of the facility from a private property management firm to FFD property management and maintenance staff with no staff additions. Also, in 2002, the sum of \$225,000 was appropriated to complete a new roof on Building "A".

## **Special Employment Subfund**

The Special Employment Subfund captures the revenues and expenditures associated with the Special Employment Program, which includes temporary employment, work study, and internship programs.

<sup>(1)</sup> The Special Employment Program (SEP) service fee was reduced from 3.7% to 1.85% in 2002 to utilize fund balance that had accumulated from previous years. The service fee will be recalculated for 2003.

<sup>(2)</sup> Outside agency use of SEP in 2003 and 2004 is anticipated to fall considerably due to budget reductions.

<sup>(3)</sup> In 2002, a "payroll float" of \$600,000 was established in order to provide cash flow for payroll purposes. The fund balance will be used for this purpose in 2003 and 2004.

### **Unemployment Compensation Subfund**

The City is a reimbursable employer (self-insured) with respect to the payment of unemployment compensation, which means the City is responsible for the payment of actual unemployment claims. The Unemployment Compensation Subfund contains the revenues and expenditures associated with the City's unemployment insurance costs for employees. This program is centrally administered by the Personnel Department. Since 1997, benefit eligibility and claims management and administration have been contracted out to a third party administrator.

<sup>(1)</sup> Unemployment claims are expected to increase substantially in 2003 and 2004 due to layoffs occurring throughout the City at the end of 2002 and the current state of the region's economy. As provided by state law, the City pays a portion of these unemployment claims.

### **Key Tower Operating Subfund**

The Key Tower Operating Subfund shows all revenue and expenditures associated with Key Tower, which was acquired by the City in January 1996 as a future location for many of the City's offices. The 2003 and 2004 budget assumes that private tenants will continue vacating and that the City will incrementally take occupancy in the years 2003 through 2006. The Subfund balance will be used for building improvements and maintenance, and to balance the loss of private tenant revenues as the City occupies more space in the building.

## **Municipal Civic Center Fund**

The Municipal Civic Center Fund was created through Ordinance 119304 as a capital fund related to the Civic Center. The Civic Center is comprised of a number of projects that implement the Council-adopted Civic Center Master Plan and are grouped into four projects within the Fleets & Facilities Department's Capital Improvement Plan: "City Hall," "Justice Center," "Arctic Building Seismic," and "Civic Center Plan - Key Tower, Park 90/5, and other projects." The Municipal Civic Center Fund, through Ordinance 119919, is also authorized to pay: (i) certain debt service obligations related to Limited Tax General Obligation Bonds issued for the original purchase of the now privately-owned Dexter Horton building, as well as (ii) a portion of rental payments charged to City departments that will remain in the building until 2006.

### **Parking Garage Operations Fund**

The Parking Garage Operations Fund receives the revenues and pays the operating and debt service costs for the parking garage located between Sixth and Seventh Avenues and Pine and Olive Streets in downtown Seattle (Pacific Place Garage). The City took over responsibility for the Garage in November 1998. In this biennium, garage revenues and subfund balance are estimated to be sufficient to cover operating and steadily increasing debt service costs without requiring General Fund support. In 2003, parking equipment in the garage will be replaced.

### 2000 Parks Levy Fund

The eight-year 2000 Neighborhood Parks, Green Spaces, Trails, and Zoo Levy (2000 Parks Levy) was approved by Seattle voters in November 2000. This page displays actual revenues to the 2000 Parks Levy Fund for 2001 and anticipated revenues for 2002, 2003, and 2004. The page also displays expenditures for the Levy program's three capital program categories (Acquisition, Development, and Opportunity Fund) and one operating category (Environmental Stewardship, Maintenance, and Programming).

Appropriations from the 2000 Parks Levy Fund for the operating category of the Levy program are made on this page. The appropriated amounts are available for transfer to the Park and Recreation Fund as reimbursements for operating expenditures that are initially made from that fund source. The amounts appropriated from the 2000 Parks Levy Fund for operating purposes thus also appear as revenues to the Park and Recreation Fund in the Revenue section of the Department of Parks and Recreation's portion of this Proposed Budget.

Per City ordinance 120024, which approved the 2000 Parks Levy, all amounts appropriated from the 2000 Parks Levy Fund are available until they are expended (i.e., carry over to future years).

### **Help the Animals Fund**

The purpose of this fund is to promote animal welfare. Contributions are used for activities promoting responsible pet ownership, purchasing toys and treats for animals in the shelter, providing animals carriers for low income and elderly persons, or providing special veterinary care from animals that have been subject to cruelty. While this fund has not been budgeted in the past, accounting rule changes now require a budget be approved by the Mayor and Council.

### **Pet Population Control Fund**

The purpose of this fund is to promote pet population control through Seattle's low cost Municipal Spay and Neuter clinic. Contributions may be used to pay for the spaying and neutering of pets owned by low income and elderly persons, to promote public awareness about the benefits and importance of spaying and neutering, or to purchase new spay and neuter technology that would help benefit the animals. While this fund has not been budgeted in the past, accounting rule changes now require a budget be approved by the Mayor and Council.
