# Cable Television Franchise Subfund Cable Fee Support to Information Technology Fund

#### **Cable Television Franchise Subfund by Budget Control Level**

#### **Cable Television Franchise Subfund Overview**

The City of Seattle first entered into cable franchise agreements with TCI beginning in 1996. This agreement included a new franchise fee payable to the City as compensation for cable television providers locating in the public right-of-way. A new franchise with Comcast (formerly TCI) was approved in 2006, and a renewed franchise for Broadstripe (formerly Millennium Digital Media) was approved in 2007. Revenues from the cable franchise fees are deposited into the Cable Television Franchise Subfund (created by Ordinance 118196). Revenues from this fund are transferred to the Department of Information Technology (DoIT) to cover the expenditures supported by this revenue source. Allowable expenditures for cable franchise fee revenues are established in Resolution 30379. Allowable expenditures include costs associated with the administration of the Cable Customer Bill of Rights. In addition, the funds may be used to support the public, education, and government access costs the City is obligated to fund under the terms of its cable franchise agreements; support of the Seattle Channel, including both operations and capital equipment; programs and projects promoting citizen technology literacy and access, including related research, analysis, and evaluation; and use of innovative and interactive technology, including television and the Web, to provide means for citizens to access City services.

#### **Budget Overview**

Cable Television Franchise Fund (Cable Fund) revenues are generated by franchise fees from cable television providers and these funds support limited activities provided by DoIT. Over the last several years, the Department has used Cable Fund revenues to support additional, qualified technology access programs such as the portion of email support previously funded by the General Fund. The 2012 Proposed Budget continues previous uses of the Cable Fund as well as supporting additional activities such as project management for the Web Team, web application support service to City departments, administrative support for Community Outreach and staffing in the Seattle Fire Department and Seattle Police Department for public safety department web pages.

The Cable Fund recently received a small bump in revenues as Comcast raised its rates on home television and internet service. Aside from this one-time bump, the Fund is only projected to grow minimally in the near future. The Department expects that the Fund will begin to see expenditure pressures as it is called upon to fund major technology overhauls like the upgrade of the Seattle Channel to High Definition. Therefore, the SPD and SFD web positions are not included in the Department's long-term financial plan for this fund. In the future, DoIT may have to propose cuts to existing programming paid for by the Cable Fund in order to keep the fund in balance.

For further details regarding the use of Cable Television Franchise Subfund, please refer to the Department of Information Technology budget.

# **Office of City Auditor**

#### David G. Jones, City Auditor

Information Line: (206) 233-3801 http://www.seattle.gov/audit/

#### **Department by Budget Control Level**

#### **Department Overview**

The City Auditor is Seattle's independent auditor established by the City Charter. The City Auditor is appointed by a majority of the City Council to a four-year term of office.

The Office of City Auditor seeks to promote honest, efficient management, and full accountability throughout City government. It serves the public interest by providing the Mayor, the City Council, and City executive and management staff with accurate information, unbiased analyses, and objective recommendations on how best to use public resources in support of Seattle's citizens.

The Office of City Auditor conducts audits of City programs, departments, grantees, and contracts. Most of the Office's audits are performed in response to specific concerns or requests from City Councilmembers. The City Auditor also independently initiates audits to fulfill the Office's mission. If

#### **Office of City Auditor**

resources are available, the City Auditor responds to requests from the Mayor, City departments, and citizens.

Through its work, the Office of City Auditor answers the following types of questions:

- Are City of Seattle programs being carried out in compliance with applicable laws and regulations, and is accurate data furnished to the City Council and Mayor on these programs?
- Do opportunities exist to eliminate inefficient use of public funds and waste?
- Are programs achieving desired results?
- Are there better ways to achieve program objectives at lower costs?
- Are there ways to improve the quality of service without increasing costs?
- What emerging or key issues should the City Council and Mayor consider?

#### **Office of City Auditor**

#### **Budget Overview**

The Office of the City Auditor provides information to the public, Mayor, City Council, and City executive and management staff on City programs and activities. Because over 95% of the Office's budget pays for staff, the available budget reduction options would reduce the level of auditing services that it currently provides.

The Office offers a way for City leaders to assess various public programs objectively to ensure the most efficient and effective service delivery options are being employed. It also offers the public a way to hold the City accountable for how public resources are used. The Office would need to reduce staff to achieve budget savings in 2012, and the value of the services it provides outweighs the relatively small budget savings gained by such a reduction. Therefore, the 2012 Proposed Budget does not reduce the City Auditor's budget.

#### **Budget Overview**

General Fund budget pressures in 2012 and future years require that the City Budget Office (CBO) make budget reductions. The 2012 Proposed Budget for CBO reflects the results of prioritizing functions and services as well as the identification of efficiencies in the provision of those services. CBO is responsible for a variety of core functions, and provision of those core services will be sustained. In particular, a focus on increasing budget transparency and accessibility remains, existing capabilities for fiscal oversight and monitoring are retained, and resources needed to execute the annual budget process and related tasks throughout the year are preserved.

The office's ability to respond to lower priority requests for analysis will be somewhat reduced, although CBO will continue to prioritize work as the situation may require.

As part of the Mayor's initiative to deliver better services with limited resources, CBO will be working with HSD, OFE, and DON to pilot an outcome-based program focused on youth education in 2012. This pilot will evaluate how the City can transition from 'funder of programs' to 'investor for results'. The pilot will utilize measurable metrics and will verify the success of an investment. The project will begin this year, in 2011, and focuses initially on at least some clear rise in achievement in the 2011-2012 school-year. Its focus is third grade reading, a key indicator of high school graduation. This work is intended to help the city transition to more outcome based decision-making, resulting in more effective use of public funds in the long term.

#### **Incremental Budget Changes**

#### **City Budget Office**

|                      |   | 2012 Dollar | 2012   |
|----------------------|---|-------------|--------|

| 2012 Endorsed Budget |   | \$4,131,913 | 28.50  |
| 2012 Proposed Change | s   |             |        |
|                      | Prioritization of services and efficiency savings | (\$89,994)  | (1.00) |
|                      | Outcome-Based Consulting                          | \$30,000    | 0.00   |
|                      | Technical Adjustments                             | (\$35,531)  | 0.00   |
| Total Changes        |   | (\$95,526)  | (1.00) |
|                      |   |             |        |
| 2012 Proposed Budget |   | \$4,036,387 | 27.50  |

**Prioritization of Services and Efficiency Savings - (\$89,994) / (1.0) FTE.** The City Budget Office (CBO) has reprioritized services and identified efficiencies allowing for the elimination of an executive position. In order to accommodate redistributed workloads, CBO will increase funding available to support additional hours for part-time staff, temporary support, or other resources that may be required.

**Outcome-Based Consulting - \$30,000:** CBO will support development of an outcome-based pilot project in the Human Services Department. The project is intended to allow the City to develop practices and procedures to more effectively direct its dollars and create better outcomes for the community.

**Technical Adjustments - (\$35,531).** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

#### **Department by Budget Control Level**

#### **Department Overview**

The Seattle Office for Civil Rights (SOCR) works to ensure that everyone in Seattle has equal access to housing, employment, public accommodations, contracting, and lending. SOCR investigates and enforces City, state, and federal anti-discrimination laws, and provides public policy recommendations to the Mayor, the City Council, and other City departments. The Office develops and implements policies and programs promoting justice, fairness, and equity. It also administers the Title VI program of the 1964 Civil Rights Act and Title II of the Americans with Disabilities Act, which relates to physical access to governmental facilities, projects, and programs.

Since 2004, the Office has led the City's Race and Social Justice Initiative (RSJI). The Initiative envisions a city where racial disparities have been eliminated and racial equity achieved. RSJI's mission is to end institutionalized racism in City government and to promote multiculturalism and full participation by all city residents. The goals are to :

- end racial disparities internal to the City;
- strengthen the way the City engages the community and provides services; and,
- eliminate race-based disparities in our communities.

SOCR also develops anti-discrimination programs and policies, and enhances awareness through free education and outreach to businesses, community groups, and the general public. The Office works closely with immigrants, people of color, women, lesbian, gay, bisexual, transgender, and queer communities, and people with disabilities and their advocates, to inform them of their rights under the law.

The Office publishes a wide array of printed materials, many of which are translated into other languages.

SOCR keeps civil rights issues before the public through articles in the local media and sponsorship of events such as Seattle Human Rights Day. As part of a broad race and social justice movement, SOCR challenges Seattle to eliminate discrimination in all its forms.

SOCR staffs five volunteer commissions - the Human Rights, Women's, the Immigrant and Refugee, the Lesbian, Gay, Bisexual, and Transgender, and People with Disabilities Commissions - which advise the Mayor and the City Council on relevant issues.

City of Seattle—2012 Proposed Budget - 541 -

#### **Budget Overview**

General Fund budget pressures in 2012 and future years require that Seattle Office for Civil Rights (SOCR) make budget reductions. SOCR reviewed all program areas and in doing so, was able to preserve direct services to the greatest extent possible. The 2012 Proposed Budget provides resources for SOCR's RSJI enforcement and outreach functions, prioritizes staffing to fit division workloads, and reduces consultant spending.

SOCR's mission to implement and enforce policies promoting the City of Seattle's values of justice, fairness, and equity remains a priority. The 2012 Proposed Budget reflects this commitment by providing additional funding and staff support for implementation and enforcement of the recently passed Paid Sick Leave legislation. Applying criteria defined in the Racial Equity Toolkit to this issue, SOCR, the Women's Commission, and City Council Central Staff identified a clear alignment between enforcing paid sick leave policies and increasing social equity. SOCR staff will create the administrative rules that will guide the processing of potential cases of violation of the Paid Sick Leave legislation.

SOCR works in conjunction with the Equal Employment Opportunity Commission (EEOC) and Housing and Urban Development to investigate discrimination in housing and employment cases as well as enforce anti-discrimination laws for the City of Seattle. In order to maintain these partnerships, SOCR has monthly case processing related performance measures that must be met for both EEOC and HUD. As department workloads and case processing schedules were reviewed, the Department prioritized staff reductions to ensure that its ability to meet these performance criteria would be preserved. SOCR will continue to prioritize the Department's work with existing staff resources to account for work plan commitments and high case processing periods, while still maintaining federal performance measures for case resolution timeframes.

Continued support for City's Race and Social Justice Initiative (RSJI) is a priority for the Mayor and the City Council. In addition to working to end institutionalized racism and race-based disparities in City government, the next planned phase of the RSJI is to work with community organizations to promote the Initiative externally. In 2011, SOCR has expanded the RSJI focus by providing educational materials and technical support for community partners such as the Race and Social Justice Community Roundtable. The 2012 Proposed Budget reduces this external support, but still maintains the City's ability to participate as convener of the Roundtable.

#### **Incremental Budget Changes**

#### **Office of Civil Rights**

|                       |                                | 2012 Dollar<br>Amount | 2012<br>FTE |
|-----------------------|--------------------------------|-----------------------|-------------|
| 2012 Endorsed Budget  |                                | \$2,248,477           | 21.50       |
| 2012 Proposed Changes |                                |                       |             |
|                       | Paid Sick Leave Implementation | \$186,000             | 1.00        |
|                       | Commission Staffing            | (\$100,141)           | (1.20)      |
|                       | Consultant Contract Reductions | (\$28,000)            | 0.00        |
|                       | Technical Adjustments          | \$9,030               | 0.00        |
| Total Changes         |                                | \$66,889              | (0.20)      |
| 2012 Proposed Budget  |                                | \$2,315,366           | 21.30       |

**Paid Sick Leave Implementation – \$186,000 / 1.0 FTE.** In response to recently passed legislation establishing minimum standards for the provision of paid sick leave and safe time, this change will add sufficient funding and ongoing staff resources for implementation, outreach, and enforcement of the Paid Sick Leave legislation. In addition, these resources will provide for outreach efforts such as a strategic media outreach plan.

**Commission Staffing – (\$100,141) / (1.2) FTE.** This reduction in Department staffing resources will result in decreased SOCR staff support to the five volunteer commissions. The five commissions, previously supported with 2.5 FTE of planning and policy support, will now be supported with 1.5 FTE. In addition, less staff resources will be available for citywide outreach, as well as internal administrative support. To mitigate these effects, workload will be prioritized and distributed among existing staff.

**Consultant Contract Reductions – (\$28,000).** This change will reduce external support for sponsoring and convening community training and events and may delay progress towards moving the RSJI externally. The remaining professional services budget of \$17,000 will be prioritized for key training and events in 2012.

**Technical Adjustments – \$9,030.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in SOCR's service delivery. Citywide technical changes reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

#### **Appropriations by Budget Control Level (BCL)**

#### **Civil Rights Budget Control Level**

The purpose of the Civil Rights Budget Control Level is to work toward eliminating discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. The Office seeks to encourage and promote equal access and opportunity, diverse participation, and social and economic equity. In addition, the Office is responsible for directing the Race and Social Justice Initiative, leading other City departments to design and implement programs which eliminate institutionalized racism.

### **Civil Service Commission**

#### Steven Jewell, Chair of the Commission

Information Line: (206) 386-1301 http://www.seattle.gov/csc

#### **Civil Service Commission Overview**

The Civil Service Commission serves as a quasi-judicial body providing fair and impartial hearings of alleged violations of the City's personnel system. Employees may file appeals with the Commission regarding all final disciplinary actions and alleged violations of the Personnel Ordinance, as well as related rules and policies. The Commission may issue orders to remedy violations and may also make recommendations to the Mayor and City Council regarding the administration of the personnel system.

In addition, the Commission investigates allegations of political patronage to ensure the City's hiring practices are established and carried out in accordance with the merit principles set forth in the City Charter. The Commission conducts public hearings on personnel related issues and may propose changes to Personnel rules, policies, and laws to the Mayor and City Council.

#### **Civil Service Commission**

#### **Budget Overview**

The 2012 Proposed Budget recommends the consolidation of the administrative functions of the Civil Service Commission and the Public Safety Civil Service Commission under a new administrative unit – the Civil Service Commissions – in order to achieve operational efficiencies and cost savings. The workload of the two bodies makes this consolidation a viable option, and results in a net savings of \$66,618.

#### **Appropriations by Budget Control Level (BCL)**

#### **Civil Service Commission Budget Control Level**

The purpose of the Civil Service Commission Budget Control Level is threefold: 1) to provide employees and departments with a quasi-judicial process wherein they can appeal disciplinary actions and alleged violations of the City Charter, personnel code, or other personnel rules; 2) to submit legislation and recommendations to the Mayor and City Council intended to improve the City's personnel system; and 3) to investigate allegations of political patronage so the City's hiring process conforms to the merit system set forth in the City Charter.

#### **Civil Service Commissions by Budget Control Level**

#### **Civil Service Commissions Overview**

The Civil Service Commissions (CIV) is the administrative entity serving both the Civil Service Commission (CSC) and the Public Safety Civil Service Commission (PSCSC), quasi-judicial bodies charged with providing fair and impartial hearings of alleged violations of the City's personnel rules. Each Commission is governed by a three-member board, with one member appointed by the Mayor, one appointed by the City Council, and one elected by and representing employees. The term of each Commissioner is three years. Previously each Commission was supported by separate administrative units. The 2012 Proposed Budget contemplates a new administrative structure, overseen by an Executive Director, selected jointly by the CSC and the PSCSC, and two staff assistant positions. The governance structure of the two Commissions would remain intact.

The *Civil Service Commission* provide fair and impartial hearings of alleged violations of the City's personnel rules. Employees may file appeals with the Commission regarding all final disciplinary actions and alleged violations of the Personnel Ordinance, as well as related rules and policies. The Commission may issue orders to remedy violations and may also make recommendations to the Mayor and City Council regarding the administration of the personnel system.

In addition, the Commission investigates allegations of political patronage to ensure the City's hiring practices are established and carried out in accordance with the merit principles set forth in the City Charter. The Commission conducts public hearings on personnel related issues and may propose changes to Personnel rules, policies, and laws to the Mayor and City Council.

The mission and purpose of the **Public Safety Civil Service Commission** is to implement, administer, and direct a civil service system for sworn personnel of the Seattle Police Department and uniformed personnel of the Seattle Fire Department. The Commission provides sworn police and uniformed fire employees with a quasi-judicial process for hearings on appeals concerning disciplinary actions, examination and testing, and other related issues.

City of Seattle—2012 Proposed Budget - 551 -

#### **Civil Service Commissions**

#### **Budget Overview**

General Fund budget pressures in 2012 and future years have required all departments to identify efficiencies, new ways of doing business, and creative savings. Up to now, the Civil Service Commission (CSC) and the Public Safety Civil Service Commission (PSCSC) had separate administrative offices charged with administering their programs. Each office was staffed with an Executive Director. The CSC also employed an administrative staff assistant.

Based on input from the Chairs of both the CSC and PSCSC it became clear that the workloads of these two bodies could be handled with less staff if the administrative structures were consolidated into a single unit. The new unit will be overseen by an Executive Director and will be supported by 1.6 FTE staff assistants. This results in the reduction of .20 FTE and saves \$66,618.

While this reorganization will reduce total staffing levels, services to the Commissions and City employees will not be compromised. This reorganization in no way alters the responsibilities, duties, makeup, or scope of the two Commissions. Rather, this is streamlining the administrative support services the Commissions rely on.

As Executive Director for both Commissions, the incumbent in this position will be jointly appointed by the CSC and the PSCSC, and subject to removal, by both Commissions. The Executive Director's appointment is subject to Council approval. If there is a tied vote regarding appointment or removal, the Mayor is tasked with casting the deciding vote.

#### **Incremental Budget Changes**

#### **Civil Service Commissions**

|                      |  | 2012 Dollar<br>Amount | 2012<br>FTE |
|----------------------|--|-----------------------|-------------|
| 2012 Endorsed Budget |  | \$0                   | 0.00        |
| 2012 Proposed Change | S  |                       |             |
|                      | 2012 Endorsed Budget of former CSC and PSCSC | \$390,760             | 2.80        |
|                      | Reorganization/Operational Efficiences       | (\$66,618)            | (0.20)      |
|                      | Technical Adjustments                        | \$5,085               | 0.00        |
| Total Changes        |  | \$329,227             | 2.60        |
| 2012 Proposed Budget |  | \$329,227             | 2.60        |

**Consolidation of the Former CSC and PSCSC – \$390,760 / 2.8 FTE.** This change represents the combination of the 2012 Endorsed Budget for CSC and PSCSC and serves as a starting point to make the staffing and funding adjustments creating the Civil Service Commissions (CIV).

**Reorganization/Operational Efficiencies – (\$66,618) / (.20 FTE).** The 1.0 FTE strategic advisor position in PSCSC and 0.80 FTE strategic advisor position in CSC are abrogated. A new 1.0 FTE Strategic Advisor position is created to perform the program and financial management as well as serve as Executive Director for both Commissions. The administrative staff assistant position from CSC is transferred in and a new 0.60 FTE administrative staff assistant position is added to address the administrative duties related to PSCSC. The net result of this reorganization is an FTE decrease of 0.2 and a dollar savings of \$66,618. The savings are generated not only by a decrease in total FTE, but also paying an Administrative staff Assistant to perform the administrative work previously performed by a Strategic Advisor.

**Technical Adjustments - \$5,085.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in the Department's service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

# **Appropriation by Budget Control Level (BCL)**

#### **Civil Service Commissions Budget Control Level**

The purpose of the Civil Service Commissions Budget Control Level is to provide administrative support to the Public Safety Civil Service Commission (PSCSC) and the Civil Service Commission (CSC). The PSCSC provides sworn police and uniformed fire employees with a quasi-judicial process for hearings on appeals concerning disciplinary actions, examination and testing, and other related issues. The CSC directs the civil service system for all other employees of the City. It investigates allegations of political patronage so the City's hiring process conforms to the merit system set forth in the City Charter. These commissions will at times improve the City personnel system by developing legislation for the Mayor and City Council.

## **Employees' Retirement System by Budget Control Level**

## **Employees' Retirement Overview**

The Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the System. Approximately 8,600 active employee members and 5,400 retired employee members participate in the plan. The provisions of the plan are set forth in Chapter 4.36 of the Seattle Municipal Code. The plan is a "defined benefit plan," which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options from which to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration. The Board is chaired by the chair of the Seattle City Council's Budget Committee. Other members include the City's Director of Finance and Director of Personnel, two elected active employee members, one elected retired member, and one selected by the other board members. The day-to-day operations of the Retirement System are run by an Executive Director who is appointed by the Board.

2012 Proposed Budget - Revenues By Category

(\$ amounts in thousands)

2012 Total Proposed Revenues - \$12,260

### **Budget Overview**

Like many other state and local pension funds, the Seattle City Employees' Retirement System (SCERS) faces significant financial challenges. Each year, SCERS receives contributions from the City and active members, and distributes benefits to retirees. For example, in 2010 SCERS received contributions from the City and covered City employees totaling \$92 million, while paying out \$128 million in benefits and refunds. The difference between contributions coming into the System and benefits and refunds paid out of the System must be covered by investment earnings or existing asset balances.

In years when the economy falters, investment earnings may not meet anticipated levels. During severe downturns the SCERS asset portfolio, as with most other retirement portfolios, may experience investment losses instead of gains. This was experienced in 2008. At the beginning of 2008, SCERS held net assets worth \$2.1 billion, which amounted to 92% of the reserves needed to pay all promised retirement benefits. This is considered to be a relatively healthy funding level. In 2010, following sharp, worldwide financial market losses, SCERS net assets fell to \$1.6 billion which amounted to only 62% of the reserves necessary to pay promised future benefits.

Given the total size of the SCERS portfolio, the System has ample resources on hand, in addition to future contributions, needed to pay all near-term obligations to retirees. However, the decline in asset value described above must be made up over time in order to ensure full funding of retiree benefits in the long-term.

This shortfall can be made up in different ways. The easiest way to make up the gap is to have a better -than-anticipated investment returns on the SCERS portfolio. This was the case experienced in 2009 and 2010. However, the better performance experienced here was not sufficient to address the short-fall driven by the 2008 losses. Additionally, SCERS cannot rely on better-than-anticipated investment returns every year, as some future years will again yield a lower return.

Therefore, in order to proactively address the system shortfall, the Mayor, City Council, and Retirement Board, working with the City's labor unions, took several important steps.

**One:** Beginning in 2011, the combined contribution rate paid by the City and by City employees enrolled in the retirement system increased from 16.06% (of covered salaries) to 18.06%, which increased total contributions to the Retirement System by \$12 million.

**Two:** The same legislation, passed in 2010, authorizes a further increase in both the City and City employee contribution rates beginning in 2012, raising the combined rate from 18.06% to 20.06%, which would bring in another \$12 million. This will be implemented in 2012, as authorized by the agreement reached in 2010.

**Three:** In addition to the contribution increases described above that are shared equally between the City and covered employees, the Mayor's 2012 Proposed Budget provides additional City funding to the Retirement System. In the Mayor's Proposed 2012 Budget, the contribution rate paid by the City increases from 10.03% to 11.27%, which will add \$7 million per year to the Retirement Fund.

Taken together, these contribution rate increases will generate an additional \$31 million per year for the Retirement Fund beginning in 2012 relative to 2010 levels. The combined rate of 21.30% is the full actuarially determined contribution rate recommended to meet Retirement System obligations for 2012 and is designed to fully fund the System over 30 years.

In addition to improving the Retirement System's financial strength, the System now employs a common five-year asset smoothing policy under which portfolio gains or losses occurring in each year are recognized evenly over a five-year period, thereby smoothing out volatile year-to-year swings in asset values. This policy results in gradual changes in actuarially recommended contribution rates each year. Current projections indicate that contribution rates will likely increase in 2013, and the City's six-year financial planning practices incorporate these changes into financial projections of future years. An interdepartmental team is currently reviewing possible changes to the Retirement System to ensure its sustainability over the long run.

The 2012 Proposed Budget includes additional staff resources for SCERS in order to assist the principal investment manager in adjusting the Retirement System's portfolio in accordance with the Retirement Board's preferred asset allocation, in the ongoing monitoring of 35-40 private investment managers, and in providing investment analysis for the Board. The System will also undertake the replacement of a crucial, but outmoded database system. As a result, the Retirement System will become less reliant on contracted labor, while safeguarding the System's records, enhancing the Department's ability to provide timely customer service, and improving the flow of information to senior management and the Board of Administration.

#### **Employees' Retirement System**

|                       |   | 2012 Dollar<br>Amount | 2012<br>FTE |
|-----------------------|---|-----------------------|-------------|
| 2012 Endorsed Budget  |   | \$11,893,813          | 15.50       |
| 2012 Proposed Changes |   |                       |             |
|                       | Update Systems and Improve Accountability | \$314,375             | 2.20        |
|                       | Professional Services                     | \$220,088             | 0.00        |
|                       | Miscellaneous Reductions                  | (\$168,069)           | 0.00        |
| Changes Total         |   | \$366,394             | 2.20        |
|                       |   |                       |             |
| 2012 Proposed Budget  |   | \$12,260,207          | 17.70       |

**Update Systems and Improve Accountability – \$314,375 / 2.20 FTE**. The Seattle City Employees' Retirement System (SCERS) will add personnel to assist in the management of 35-40 investment funds and to increase the ability to perform analysis of investment performance and prospects. SCERS will replace an obsolete data system with a new system that will safeguard vital records and facilitate more accurate and timely reporting. Additional staff is also added to help reduce the backlog of employee requests for retirement estimates.

**Professional Services - \$220,088**. Investment fees paid to private investment managers are anticipated to rise due to a projected increase in the market value of SCERS portfolio.

**Miscellaneous Reductions – (\$168,069)**. These include reductions in training and travel, interfund charges and central rates, capital expenditure, and other minor items.

# **Ethics and Elections Commission**

### Wayne Barnett, Executive Director

Information Line: (206) 684-8500 http://www.seattle.gov/ethics/

## **Ethics and Elections Commission by Budget Control Level**

## **Ethics and Elections Commission Overview**

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle City government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. The SEEC also promotes informed elections through education, training, and enforcement of the City's Elections Code and Election Pamphlet Code.

In 2011, the SEEC entered into a contract with the Seattle Public Schools to provide an independent and comprehensive ethics and whistleblower protection program to the district. The SEEC's Executive Director is now also serving as the Seattle Public School District's Ethics Officer.

The SEEC conducts ethics training for all City employees on request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site.

#### **Ethics and Election Commission**

The SEEC issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. Thirty years of formal advisory opinions, organized and searchable by topic, are available on the SEEC's website.

Through the Whistleblower Code, the SEEC helps to protect an employee's right to report improper governmental action and to be free from possible retaliation as a result of such reporting. The SEEC either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

The SEEC fulfills the public's mandate of full campaign disclosure by training every organization required to report contributions and expenditures in proper reporting procedures, auditing every organization that reports, working with those organizations to correct errors, and making all campaign finance information available to the public. Since 1993, the SEEC has made summary reports of campaign financing information available to the public. And since 1995, the SEEC has published campaign financing information on its website.

The SEEC is charged with administering the City's lobbying regulations. The SEEC collects and posts information so that citizens know who is lobbying and how much they are being paid to lobby. The SEEC also enforces compliance with the lobbying regulations.

The SEEC produces voters' pamphlets for City elections and ballot measures. It makes these pamphlets available in several languages and produces a video voters' guide with King County in odd-numbered years. The video voters' guide is funded with cable franchise fee revenue.

#### **Ethics and Election Commission**

#### **Budget Overview**

General Fund budget pressures in 2012 and future years require that the Ethics and Elections Commission make budget reductions. The 2012 Proposed Budget for the Ethics and Election Commission reflects administrative reductions in order to close the gap. This agency has historically run a very efficient organization, yet found reductions they can sustain during this economically challenging period while still providing essential services.

The Commission's budget also reflects the additional responsibility of providing ethics and whistleblower training and investigations to the Seattle Public Schools. This three-year, revenue-backed, interlocal agreement began mid-year 2011 and will expire mid-year 2014.

The 2012 Proposed Budget also includes a series of technical adjustments including inflation, COLA, retirement, health care, workers compensation, and unemployment.

### **Incremental Budget Changes**

|                       |  | Amount     | FTE  |
|-----------------------|--|------------|------|

2012 Dollar

2012

#### **Ethics and Elections Commission**

**Technical Adjustments - \$7,158.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in the Ethics and Elections Commission's service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

Administrative Savings - (\$6,419). These changes reduce the overtime and the professional services accounts. The Ethics and Elections staff have not needed to use overtime funding since 2007. They will continue to closely manage personnel costs. The Commission will also realize savings by deferring

redesigns and updates to brochures and websites without compromising effective constituent communication.

**Operations Savings – (\$15,779).** The 2012 Proposed Budget provides a one-time reduction to funding for the publication of the voter's pamphlet. No City of Seattle positions are scheduled for the election ballots in 2012. It is assumed there will be one levy on the primary and the general election ballots. With five City positions on the ballot in 2013, this funding will need to be restored at that time.

**Seattle School District Contract Servicing – \$121,000 / 1.0 FTE.** In 2011, the Ethics and Elections Commission and the Seattle Public Schools (SPS) entered into a three-year agreement where City staff will provide ethics and whistleblower training and investigation services to SPS. A new investigator position was added in 2011 and a current Senior Training and Education Coordinator increased their hours. Further, existing administrative and overhead expenditures will be allocated to the SPS agreement.

## **Department by Budget Control Level**

City of Seattle—2012 Proposed Budget - 567 -

## **Department Overview**

The Department of Finance and Administrative Services (FAS) was created on August 30, 2010, as part of the Mayor's reorganization of City government. FAS combines the functions from the former Fleets and Facilities Department; the former Department of Executive Administration; and the revenue forecasting, debt management, and tax policy functions that were previously performed by the former Department of Finance. It also transfers the Department of Neighborhood's Customer Service Bureau to the newly created "Office of Constituent Services," which is housed within FAS. Among other things, the creation of FAS will allow for greater utilization of resources; better integration of the City's financial and accounting policies, management, procedures, and systems; and improved efficiencies in the provision of customer service.

FAS is one of the most functionally diverse departments within City government. Examples of the Department's responsibilities include: maintaining the database of employee information; building or renovating fire stations; negotiating contracts for items City departments need to purchase; making sure everyone has a chance to compete for City-funded construction projects; operating more than one-hundred City facilities; helping sell property the City no longer needs; managing the City's investments; overseeing the central accounting system; maintaining police patrol cars and fire engines; making sure gas pumps accurately measure out a gallon of gas; regulating the taxicab industry; issuing business licenses, collecting taxes; advocating for animal welfare; finding adoptive homes for animals; and assisting constituents who call (206) 684-CITY (which is the City's Customer Service Bureau hotline where callers can get help solving problems, obtaining information, and resolving complaints).

FAS' budget is split into the following nine functional areas:

- Business Technology, which builds and maintains computer applications that support internal business functions, such as financial management, payroll, and personnel records management.
- Capital Development and Construction Management, which manages the design and construction of City facilities (including upgrading, renovating, or replacing 32 of the City's 33 neighborhood fire stations), as well as renovations, asset preservation projects, tenant improvements, and sustainability/environmental stewardship related to facility design and construction.
- Purchasing and Contracting, which manages rules, bids and contracts for products, supplies, equipment and services; maintains guidelines and procedures for consultant contracting; and administers public works contracting to ensure that all City departments adhere to the City's policy goals related to social equity and environmental stewardship.
- Facility Operations, which manages more than one-hundred facilities, or 2.5 million square feet of public buildings and facilities, including office space, parking garages, police and fire stations, community facilities and maintenance shops; procures leased space for City tenants when needed; plans and acquires new and expanded City facilities; and disposes of surplus City property.

- Financial Services, which receives City revenue and provides Citywide financial services, including debt management, treasury, central accounting (includes producing the Comprehensive Annual Financial Report), City investments, payroll (includes producing paychecks for more than 10,000 current and retired employees), business licensing, tax administration, and risk management (which includes claims settlements).
- Fleets Services, which buys and provides maintenance, motor pool, and fueling services for more than 4,000 vehicles and heavy equipment while supporting environmentally sustainable fleets goals and practices.
- Revenue and Consumer Protection provides a variety of regulatory services (such as overseeing Seattle's taxicab industry) and consumer protection services (such as FAS' Weights and Measures Unit, which tests gas pumps, and supermarket checkout scanners to ensure consumers get what they pay for).
- Seattle Animal Shelter, which promotes public safety, animal welfare, enforces Seattle's laws regarding animals, runs animal sheltering and adoption programs, and manages a spay and neuter clinic, working with more than 4,000 animals a year, from dogs and cats to peacocks and goats.
- Office of Constituent Services, which advocates for service excellence throughout City government, answering more than 50,000 requests from constituents each year.

Internal service operations in FAS are primarily supported through charges to City departments and, in some cases, such as when the City leases space, by private businesses or individuals. FAS also collects certain fees specifically to pay for some of its services, such as the Seattle Animal Shelter Spay and Neuter Clinic, animal licensing, the Weights and Measures program, and for-hire driver licenses. Finally, FAS receives General Fund support from the City to pay for several financial services as well as administration of the City's taxes and business licensing services. This transfer funds the following:

- The smaller General Fund departments' portion of the rate charges (which are paid directly out of Finance General rather than loaded into the small departments budgets).
- Specific functions that are not part of the rate pool, such as parking meter collection, economics and forecasting, nightlife coordination, and Mutually Offsetting Benefit property maintenance.
- The portion of non-rate pool functions such as the Seattle Animal Shelter, for-hire driver licenses, or the Weights and Measures program where revenues fall short of covering operating costs.

## 2012 Proposed Budget - Expenditure by Category

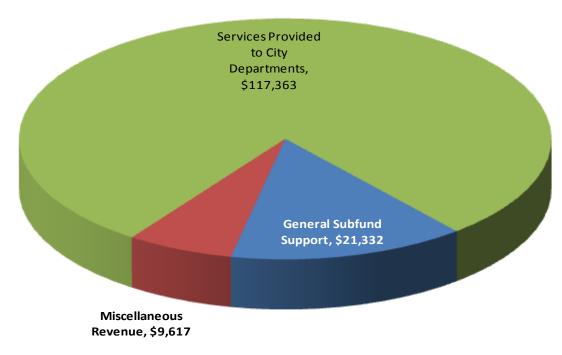

(\$amounts in thousands)

Total 2012 Proposed Expenditures - \$153,601

#### 2012 Proposed Budget - Revenues By Category

Total 2012 Proposed Revenues - \$148,313

## **Budget Overview**

The 2012 Proposed Budget includes reductions for all General Fund-dependent functions. FAS receives a General Fund transfer to support the general government portions of its operations, which include functions such as constituent affairs, purchasing, contracting, financial services and the City Animal Shelter. In order to address the General Fund shortfall, FAS' 2012 Proposed Budget includes operating reductions that will reduce its reliance on the General Fund and decrease the rates and allocations it charges to General Fund departments. In addition, savings from these changes will also accrue to non-General Government users of FAS services.

After the 2010 consolidation of the Department of Executive Administration and Fleets and Facilities Department into FAS there are opportunities for the new Department to find efficiencies as roles and responsibilities are better defined. The 2012 Proposed Budget reflects the Department's emphasis on core services. The 2012 Proposed Budget preserves those resources necessary for the day-to-day operations of City government, while streamlining all operations to provide funding for a program establishing common financial policies and procedures for the City. Finally, the Department prioritized use of available financial resources, including the use of fund balances, to help meet operational priorities and to offset the City's General Fund shortfall.

#### **Management Efficiencies**

As part of the 2011 Adopted Budget process, FAS was directed to identify management efficiencies that create \$500,000 in savings for the 2012 Proposed Budget. The Department meets this requirement by eliminating a total of four management positions. Efficiencies created in the 2010 consolidation will allow FAS to eliminate two of these positions. In addition, the Vehicle Maintenance program increased span of control by eliminating two management positions and will still provide the same level of service to their customers.

#### **Facility Services & Maintenance**

FAS is responsible for the maintenance and asset preservation of many general government facilities, including police precincts, fire stations, office buildings, maintenance shops and yards. The Department has identified several cost saving measures and efficiencies that can be realized without a direct impact on services. In one such measure, a vacant building engineer position will be eliminated in Facility Operations that will cause some delay in preventative maintenance activities, but will not impact direct services. The Department will also defer some non-essential building maintenance such as window washing at the Seattle Municipal Tower (SMT). Finally, FAS reviewed janitorial staffing levels at the Seattle City Hall and Seattle Justice Center and identified efficiencies that could be accommodated with modest impacts to the building occupants and visiting public.

#### **Right-Sizing Fleets**

The City has aggressively reduced its fleet size since the onset of the recession in 2008. Starting in 2009, the City has reduced the size of its fleet by 419 vehicles, which is roughly 10% of the overall size of the fleet. Along with downsizing, FAS has implemented new technologies to make its fleet operation more efficient. For example, implementation of software to better manage the maintenance and repair of its fleet has allowed FAS to save money by closing the South Service Center Warehouse during the night shift and rely on the Charles Street Warehouse for parts. Also, an automated motor pool management system at the SMT and SeaPark garages allows FAS to operate an unstaffed motor pool in a more efficient and cost-effective manner and has resulted in the reduction of 20 passenger vehicles. Vehicle reductions in the fleet allows surplus funds in the fleet capital fund to help meet the FAS' budget reductions and reduces annual lease rates for City departments.

Additionally, the increasing price of fuel continues to be a cost driver for the City and FAS is introducing electric vehicles in the SMT motor pool to help offset those costs. The introduction of 26 Nissan Leafs will significantly reduce the motor pool's operating costs through the reduction in fuel consumption. Replacing 26 Toyota Prii with electric vehicles is expected to reduce the City's motor pool operating costs from fuel alone by \$160,000 over the 10-year lifecycle of the electric vehicles.

#### **New Regulatory Revenues**

In 2011, the State of Washington passed legislation allowing the City to enforce regulation of the limousine industry. FAS will include this as part of the responsibilities of the Consumer Protection Division and the additional revenues from the State will fund existing staff for this new body of work.

#### **Transforming How the City Does Business**

The increase in use of electronic payments and better pay station technology for paid street parking has led to a decreased need for parking meter collectors. An evaluation of the staffing needs resulted in lower staffing requirements as less cash is used at the parking pay stations and coin-operated parking meters around the City.

The Business Technology Division examined its staffing support for the financial management and human resources information systems and proposed a staffing reduction.

The Seattle Animal Shelter will reduce costs by eliminating a half-time position in the Shelter. The remaining workload will be spread out among the rest of the staff, but will maintain the existing level of animal care and public access to the Shelter five days per week and should not result in any direct service impacts to customers.

#### Long Term Financial Stability

Over the past two years, FAS has embarked on a series of projects to help address the City's overall financial management requirements. FAS will receive funding in 2012 to facilitate a Citywide Financial Management and Accountability Program (FinMAP) that will establish financial management policies and procedures to standardize the use of the City's Financial System (Summit) and balance the needs of individual departments with citywide requirements for regulatory reporting, central financial oversight, and fiscal accountability. This program will allow for better financial management and accountability Citywide. Examples of standardized policies and procedures to be provided by FinMAP include, but are not limited to, establishing an approach to monitor and control capital spending within each department as well as for cross-departmental projects; standardizing the process of tracking funding sources; and, creating standards to provide effective monitoring of multi-department capital improvement projects.

#### **Investing in Asset Preservation**

For more than 30 years, a program to lease City-owned facilities to not-for-profit service providers has been in existence. This program allows service providers to occupy city-owned properties at low or no cash rent with the services they provide to the community accepted by the City as a major portion of rent. As there are virtually no rent revenues collected, the cost of maintaining these facilities has been funded by General Fund and real estate excise tax revenues. Some of these buildings are more than 100 years old with the newest built in 1959. The lack of dedicated funds for maintenance has led the facilities to fall into disrepair. The poor condition of the roofs is a source of particular concern, as water infiltration rapidly leads to structural problems. An insurance settlement from a fire at the largely unoccupied City-owned Sunny Jim warehouse in 2010 allows FAS to fund new roofs at six of the facilities. The groups using these buildings provide much needed services to the community and include senior centers in Ballard, Greenwood and the Central area; a home for teen parents; food bank and meal programs; and youth programs. This investment in maintenance work will extend the lives of these buildings and allow the not-for-profit service providers to continue to occupy the buildings and serve the community.

#### Aligning Neighborhood Service Centers with the Office of Constituent Services

As part of a number of efficiency changes associated with the Department of Neighborhoods (DON), the Neighborhood Payment and Information Service (NPIS) centers are moved from DON to FAS. This move centralizes customer service delivery within FAS and will create a streamlined system of contact with the City. In 2011, DON consolidated the West Seattle Neighborhood Service Center (NSC) into the Delridge NSC to deliver the same service more efficiently and achieve budget savings. In 2012, the Delridge NSC is proposed to relocate to the Department of Parks & Recreation's Southwest Community Center. The implementation of the original consolidation in 2011 reduced the number of Customer Service Representatives which is now recognized in the Proposed Budget as a 1.0 FTE abrogation.

|                      | Neighborhood Service Centers Transfer from DON                    | \$1,802,883           | 17.50       |  |  |  |  |
|                      | Technical Adjustments   | \$1,824,237           | 0.00        |  |  |  |  |
| Total Changes        |   | \$2,862,404           | (2.00)      |  |  |  |  |
| 2012 Proposed Budget |   | \$153,601,475         | 521.75      |  |  |  |  |

**Management Efficiency - \$0 / (3.5) FTE.** As part of the 2011 Adopted Budget process, FAS was directed to identify management efficiencies for implementation in 2012. In response, FAS is eliminating four management positions, a total of 3.5 FTE, for a \$500,000 budget reduction already accounted for in the 2012 Endorsed Budget. A restructuring in the Vehicle Maintenance program allows for the

elimination of a manager and a supervisor increasing span of control efficiencies and allowing the unit to continue providing the same level of service to its customers. In addition, a part-time manager in the Regulatory Enforcement program and an executive are also eliminated due efficiencies created by the 2010 consolidation of the Department of Executive Administration and Fleets and Facilities Department.

**Facility Services and Maintenance Reductions – (\$2,043,997) / (5.0) FTE.** This proposal reduces staffing and budget for maintenance and service to existing facilities. The elimination of a vacant building engineer position will cause some delay in preventative maintenance activities. A reduction in the professional services budget will delay a planned software upgrade to a system that tracks vacant City space and the information will continue to be tracked in the current system. Additionally, FAS examined janitorial staffing levels for Seattle City Hall and Seattle Justice Center and will achieve efficiencies by reducing staff. This will impact the frequency of cleaning in the facilities, but will have minimal impact on visiting public and internal staff. Also, an administrative staff position has been eliminated and the work will be absorbed by existing staff. Due to favorable market conditions there is a cost savings for contracted janitorial staffing and elevator maintenance at the Seattle Municipal Tower (SMT). Further savings will be achieved with reductions in maintenance and engineering services at SMT that should have minimal impact on the operations of the facility and its occupants.

**Financial Services Funding Swaps and Reductions – (\$141,799).** This proposal eliminates funding for the Urban League's Contractor Development and Competitiveness Center due to its closure in 2011. City staff that work directly with the Public Development Authorities for the Pike Place Market Levy will now be funded by the Levy for a General Fund savings of \$42,000. The City's banking provider offers a Commercial Credit Program that provides rebates with the use of credit cards and due to an increased use of credit cards for vendor payments and other charges. the rebate will result in a \$240,000 General Fund savings. In addition, reductions will be made in other operating costs.

**Fleet Services Efficiencies and Fleet Fund Balance Savings – (\$451,206) / (2.0) FTE.** FAS manages and maintains most City-owned vehicles and equipment. FAS worked with departments to identify and eliminate under-utilized or redundant City owned vehicles. This resulted in a \$475,000 rebate of the capital fleet fund balance that was for replacement of the eliminated vehicles. The reduction in the annual lease rates for the reduced vehicles will be captured in department budgets. In another cost saving measure, FAS will close the South Service Center Warehouse at night and rely on the Charles Street Warehouse resulting in a staff reduction. A staff reduction will be made in Fleet Services' administration. The workload will be absorbed by existing Fleets staff. Additionally, non-labor reductions will be made in office and operating supplies, training and travel, dues and memberships and small equipment purchases.

**Regulatory Services Efficiencies and Revenue Enhancement – (\$53,392) / (0.50) FTE.** This action uses new revenue from the State of Washington for the regulation of the limousine industry, and specifically, for an existing position that will staff this new body of work. A reduction of a License and Standards Inspector from full-time to part-time will have a minimal impact on the division's ability to respond to customer inquiries. Further efficiencies in the division include relinquishing three leased vehicles and instead rely on the City's motor pool for their transportation needs.

Accounting and Business Licensing Efficiencies – (\$534,328) / (6.0) FTE. This proposal eliminates an accountant in the Central Accounting division due, in part, to instituting paperless payroll Citywide. Other non-payroll duties of the accountant will be reassigned to existing staff. An accountant who works primarily with the seven Business Improvement Areas will be eliminated and the existing workload will be absorbed by other staff. This may result in an increase in response time to customer inquiries. An additional accountant will be eliminated in Central Accounting and the duties will be absorbed by existing staff.

Efficiencies created in the FAS consolidation resulted in the elimination of a Strategic Advisor and an Accountant position as well as reductions in non-labor accounts in Accounting & Budget. An administrative position will be eliminated in the Business Licensing division. In order to preserve direct customer services, existing customer service representatives will cover the front reception desk.

**Reduce Parking Meter Collections Staff – (\$68,994) / (1.0) FTE.** This proposal eliminates a parking meter collector due to the decreased need for collecting cash proceeds at parking meters around the city. There is a reduced need for this service as more of the coin operated parking meters are being replaced with parking pay stations that take credit and debit cards. The remaining collectors can manage the existing meters and current paid parking collection schedule.

**Reduce Business Technology Staffing – (\$147,088) / (1.0) FTE.** This proposal reduces a position in the Business Technology Division that provides support for the City's internal financial management system and human resources system. This reduction will require the remaining team to cover some tasks and may result in delays in service to internal customers.

**Reduce Animal Shelter Staffing – (\$43,912) / (0.50) FTE.** This proposal will reduce a vacant part-time Animal Control Officer I (ACO) at the Seattle Animal Shelter and the remaining workload will be spread out to the remaining five ACOs who care for animals in the shelter. This will not result in any direct service impacts to customers or animal care and the Shelter hours for public access will not change due to this reduction.

**Equipment Replacement – \$80,000.** This proposal provides funding, through internal rates, to lease a new payment processing unit that processes 11,000 paper payments per day for several City departments. The current unit is at the end of its useful lifecycle and outdated as the vendor will no longer provide support starting in 2012.

**Financial Management and Accountability Program Implementation – \$740,000.** This proposal will provide funding for a Citywide Financial Management and Accountability Program (FinMAP) to establish financial management policies, which standardize the use of the City's Financial System (Summit). This will allow for better financial management and accountability Citywide. The new system will balance the needs of individual departments with citywide requirements for regulatory reporting, central financial oversight, and fiscal accountability. Some examples of standardized policies and procedures to be provided by FinMAP include: establishing an approach to monitor and control capital spending within each department as well as for cross-departmental projects; standardizing the process of tracking funding sources; and, creating standards to provide effective monitoring of multi-department capital improvement projects.

**Facility Upgrades – \$1,900,000.** This proposal adds funding for roof repairs on six separate facilities currently owned by the City and used by not-for-profit service providers. The tenants are: the Central Area Motivation Program, Central Area Senior Center, Northwest Senior Center in Ballard, Southeast Health Clinic, South Park Community Service Center, and the Teen Parent Center. These repairs will be funded by the insurance settlement resulting from the 2010 fire at the City-owned warehouse known as the Sunny Jim site, located near the corner of Airport Way South and South Adams Street.

**Neighborhood Service Centers Transfer from DON – \$1,802,883 / 17.5 FTE**. As part of a number of efficiency changes associated with the Department of Neighborhoods, the Neighborhood Payment and Information Service Centers (NPIS) and positions will be moved from DON to FAS in 2012. This move centralizes customer service delivery within FAS. Prior to this program transfer to FAS a reduction in the number of Service Centers is made within DON's budget. In 2011, DON consolidated the West Seattle Neighborhood Service Center (NSC) into the Delridge NSC to deliver the same service more efficiently and achieve budget savings. In 2012, the Delridge NSC is proposed to relocate to the Department of Parks & Recreation's Southwest Community Center. The implementation of the original consolidation in 2011 reduced the number of Customer Service Representatives which is now recognized in the DON Proposed Budget as a 1.0 FTE abrogation or the abrogation of two 0.5 FTE.

**Accounting Support for VLF - \$0.** This proposal funds part-time accounting support for existing FAS staff for the collection of the Vehicle License Fee. The position will be funded by the Seattle Department of Transportation with a \$54,000 cost savings for the General Fund.

**Technical Adjustments – \$1,824,237.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in FAS' service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs. Additionally, baseline adjustments were made for an increase in the Oracle software license, funding for tax/legal counsel from the Law Department and aligning appropriation to match revenues.

#### **Budget and Central Services Budget Control Level**

The purpose of the Budget and Central Services Budget Control Level is to provide executive leadership and a range of planning and support functions, including policy and strategic analysis, budget development and monitoring, financial analysis and reporting, accounting services, information technology services, human resource services, office administration, and central departmental services such as contract review and legislative coordination. These functions promote solid business systems, optimal resource allocation, and compliance with Citywide financial, technology, and personnel policies.

outside of the budget process may not be detailed here.

#### **City Purchasing and Contracting Services Budget Control Level**

The purpose of the City Purchasing and Contracting Services Budget Control Level is to conduct and administer all bids and contracts for Public Works and purchases (products, supplies, equipment, and services) on behalf of City departments.

<u>Additional Information</u>: These work groups conduct the bid process, execute and manage resultant contracts, develop and administer City policy and guidelines, and implement State law and City code. Consultant contract rules, policies, and guidelines are also centrally established by these work groups. These work groups develop and implement the City's social responsibility policies and requirements, including women and minority business, environmental purchasing, and prevailing wages. The work groups provide fair, thorough, and responsive service to customers to ensure acquisitions are competitively acquired, timely, and compliant to all laws.

#### The following information summarizes the programs within the City Purchasing and Contracting Services Budget Control Level:

**Contracting Services Program** The purpose of the Contracting Services Program is to administer the bid, award, execution, and close-out of public works projects for City departments. Staff anticipate and meet customers' contracting needs and provide education throughout the contracting process. This program also maintains the City's guidelines and procedures for consultant contracting.

|                              | 2010    | 2011      | 2012      | 2012      |
|------------------------------|---------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals | Adopted   | Endorsed  | Proposed  |
| Contracting Services         | 0       | 1,501,304 | 1,537,379 | 1,440,577 |
| Full-Time Equivalents Total* | 0.00    | 13.00     | 13.00     | 13.00     |

**Purchasing Services Program** The purpose of the Purchasing Services Program is to provide central oversight for the purchase of goods, products, materials, and routine services obtained by City departments. All purchases for any department that total more than \$44,000 per year are centrally managed by Purchasing Services. City Purchasing conducts the bid and acquisition process, executes and manages the contracts, and establishes centralized volume-discount blanket contracts for City department use. This program also develops and manages City guidelines and policies for purchases.

| Full-Time Equivalents Total* | 0.00    | 15.00     | 15.00     | 14.00     |

#### Facility Services Budget Control Level

The purpose of the Facility Services Budget Control Level is to manage most of the City's general government facilities, including the downtown civic campus, police precincts, fire stations, shops and yards, and several parking facilities. Functions include property management, environmental analysis, implementation of environmentally sustainable facility investments, facility maintenance and repair, janitorial services, security services, and event scheduling. The Facility Operations team is also responsible for warehouse, real estate, and mail services throughout the City. These functions promote well-managed, clean, safe, and highly efficient buildings and grounds that house City employees and serve the public.

#### Financial Services Budget Control Level

The purpose of the Financial Services Budget Control Level (BCL) is to oversee and provide technical support to the financial affairs of the City. This BCL performs a wide range of technical and operating functions, such as economic and fiscal forecasting, debt issuance and management, Citywide payroll processing, investments, risk management tax administration, and revenue and payment processing services. In addition, this BCL develops and implements a variety of City financial policies related to the City's revenues, accounting procedures, and risk mitigation. Finally, the BCL provides oversight and guidance to financial reporting, City retirement programs, and public corporations established by the City.

# The following information summarizes the programs within the Financial Services Budget Control Level:

**Accounting Program** The purpose of the Accounting Program is to establish and enforce Citywide accounting policies and procedures, perform certain financial transactions, process the City's payroll, and provide financial reporting, including preparation of the City's Comprehensive Annual Financial Report.

|                              | 2010    | 2011      | 2012      | 2012      |
|------------------------------|---------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals | Adopted   | Endorsed  | Proposed  |
| Accounting                   | 0       | 3,900,673 | 3,993,210 | 4,007,668 |
| Full-Time Equivalents Total* | 0.00    | 33.50     | 33.50     | 25.50     |

**Business Licensing & Tax Administration Program** The purpose of the Business Licensing and Tax Administration Program is to license businesses, collect business-related taxes, and administer the Business and Occupation (B&O) Tax, utility taxes, and other taxes levied by the City.

|  | 2010    | 2011    | 2012     | 2012      |

**City Economics and Financial Management Program** The purpose of the City Economics and Financial Management Program is to ensure that the City's financial affairs are consistent with State and Federal laws and policies, City Code, and the City's Adopted Budget. This includes establishing policy for and overseeing City accounting, treasury, risk management, and tax administration functions on behalf of the Director of Finance and Administrative Services. In addition, the Program provides financial oversight of City retirement programs and public corporations established by the City. The Program provides economic and revenue forecasts to City policy makers and administers the City's debt portfolio. Program staff members provide expert financial analysis to elected officials and the City Budget Office to help inform and shape the City's budget.

|  | 2010    | 2011      | 2012      | 2012      |
|--|---------|-----------|-----------|-----------|

| Full-Time Equivalents Total* | 0.00    | 29.00     | 29.00     | 27.00     |

#### Fleet Services Budget Control Level

The purpose of the Fleet Services Budget Control Level is to provide fleet vehicles to City departments; assess and implement environmental initiatives related to both the composition of the City's fleet and the fuels that power it; actively manage and maintain the fleet; procure and distribute fuel; and operate a centralized motor pool. The goal of these functions is to create and support an environmentally responsible and cost-effective Citywide fleet that helps all City departments carry out their work as efficiently as possible.

#### The following information summarizes the programs within the Fleet Services Budget Control Level:

**Vehicle Fueling Program** The purpose of the Vehicle Fueling Program is to procure, store, distribute, and manage various types of fuels, including alternative fuels, for City departments and Seattle and King County Public Health.

|                              | 2010    | 2011      | 2012      | 2012      |
|------------------------------|---------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals | Adopted   | Endorsed  | Proposed  |
| Vehicle Fueling              | 0       | 8,222,523 | 8,388,436 | 9,125,884 |
| Full-Time Equivalents Total* | 0.00    | 1.00      | 1.00      | 1.00      |

**Vehicle Leasing Program** The purpose of the Vehicle Leasing Program is to specify, engineer, purchase, and dispose of vehicles and equipment on behalf of other City departments and local agencies. This program administers the lease program by which these FAS-procured vehicles are provided to City departments and Seattle and King County Public Health. The program also provides motor pool services, and houses fleet administration and environmental stewardship functions.

|                              | 2010    | 2011       | 2012       | 2012       |
|------------------------------|---------|------------|------------|------------|

| Full-Time Equivalents Total* | 0.00    | 119.00     | 119.00     | 116.00     |

#### Judgment and Claims Budget Control Level

The Judgment and Claims Budget Control Level pays for judgments, settlements, claims, and other eligible expenses associated with legal claims and suits against the City. Premiums are based on average percentage of Judgment/Claims expenses incurred by the Department over the previous five years.

|                     | 2010    | 2011    | 2012     | 2012     |
|---------------------|---------|---------|----------|----------|
| Expenditures        | Actuals | Adopted | Endorsed | Proposed |
| Judgment and Claims | 0       | 361,975 | 361,975  | 361,975  |

#### Office of Constituent Services Budget Control Level

The purpose of the Office of Constituent Services Budget Control Level (BCL) is to lead City departments to consistently provide services that are easily accessible, responsive, and fair. This includes assistance with a broad range of City services, such as transactions, information requests, and complaint investigations. This BCL includes the City's Customer Service Bureau, the Neighborhood Payment and Information Service Centers, Citywide public disclosure responsibilities, and servicedelivery analysts.

# The following information summarizes the program within the Technical Services Budget Control Level:

**Capital Development and Construction Management Program** The purpose of the Capital Development and Construction Management Program is to provide for the design, construction, commission, and initial departmental occupancy of many City facilities. Functions include environmental design, space planning, and project planning and management in support of the FAS Capital Improvement Program. This program also includes the Fire Facilities and Emergency Response Levy, asset preservation and renovation projects, and other major development projects.

# **Capital Improvement Program**

# **Capital Improvement Program (CIP) by Budget Control Level**

## **Capital Improvement Program Highlights**

The Finance & Administrative Services Department (FAS) is responsible for building, operating, and maintaining general government facilities and City-wide information systems. The general government facility portfolio encompasses the City's core public safety facilities, including 33 fire stations and waterfront marine operations, 5 police precincts, the police mounted patrol facility, the Harbor Patrol, Seattle Emergency Operations and Fire Alarm Centers, the City's vehicle maintenance shops and other support facilities, and the City's downtown office building portfolio. In addition, FAS maintains core building systems for some of the community-based facilities owned by the City, such as senior centers and community service centers. City-wide information technology systems include the City's financial management system (Summit) and payroll/ human resources information system (HRIS).

The Department's 2012-2017 Proposed Capital Improvement Program (CIP) is FAS' plan for maintaining, renovating, expanding, and replacing its extensive inventory of buildings and technology systems. The Department's CIP is financed by a variety of revenue sources, including the City's General Subfund, the Cumulative Reserve Subfund (including the Unrestricted, REET I, and FAS Asset Preservation subaccounts), voter-approved levy proceeds, general obligation bonds, proceeds from property sales, and grants.

2003 Fire Facilities and Emergency Response Levy Program (FFERP) is a 9-year \$167 million property tax levy that voters approved in November 2003. In 2012 FAS will continue to execute the Fire Facilities Levy Program with construction of five neighborhood fire stations plus the Chief Seattle fireboat renovation, and begin or continue design on thirteen stations.

The Asset Preservation Program preserves and extends the useful life and operational capacity of existing FAS-managed facilities, and is funded by facility space rent paid by City departments. Examples of 2012-2017 projects planned include replacing aged and leaking roofs and envelope improvements in FAS shops and yards and at public safety facilities. The City's downtown campus buildings projects will include beginning the Seattle Municipal Tower 5-year weatherization program and include exterior roof replacements of 16 separate roofs and sealant work which will use the asset management subfund large project reserve, replacement of the garage sprinkler system at the Municipal Tower, and roof and envelop repairs at the East Precinct and the Haller Lake Campus shops and yard facility.

Work continues with City departments on facility improvements related to improving accessibility, as is consistent with the Americans with Disabilities Act (ADA). FAS continues with the execution of approved ADA improvement projects in City Hall and will propose a list of projects for consideration in 2012 with an emphasis on priority projects that focus on public access at FAS buildings such as the Seattle Justice Center, City Hall and Seattle Municipal Tower.

FAS continues to execute projects identified by the Municipal Energy Efficiency audits conducted in 2010 which target facility efficiency improvements in several buildings including the Haller Lake Operations Center, Charles Street Operations Center, Airport Way Center and the Animal Shelter. The upgrade work includes lighting and building controls upgrades, test and balancing, and HVAC improvements.

FAS will address the use, operational planning, test-to-fit and preliminary engineering of two critical facilities, the North Precinct and the City's largest vehicle maintenance and storage yard campus with an update of the Charles Street Master Plan. Regulatory compliance in City fire stations will be addressed through the new capital project correcting one-hour separation violations in fire stations. Critical roof projects will replace failing roofing systems at three fire stations.

Additional information on FAS's CIP can be found in the 2012-2017 Proposed CIP online here: <u>http://www.seattle.gov/financedepartment/1217proposedcip/default.htm</u>

City of Seattle—2012 Proposed Budget - 600 -

# **Finance General**

## **Beth Goldberg, Director**

Information Line: (206) 615-1962

## **Finance General by Budget Control Level**

## **Finance General Overview**

The mission of Finance General is to allocate General Subfund resources in the form of appropriations to reserve and bond redemption funds, City department operating funds, and certain programs for which there is desire for Council, Mayor, or City Budget Office oversight.

## **Budget Overview**

Finance General is organized into three sections to pay for ongoing City costs, to subsidize the operations of City departments, and provide contributions to outside organizations. It is also an area to hold appropriations temporarily until the appropriate managing department is determined, or act as a contingency reserve to respond to unpredictable situations or cover costs that vary with economic conditions.

#### **Finance General**

The 2012 Proposed Budget modifies existing programs and adds new programs to reflect a reorganized structure, system improvements, comply with policy changes, provide one time or term-limited support, and adjust recurring appropriations with updated cost information.

#### **Enhancement to Revenue Stabilization Account Policy**

The Mayor has proposed policy changes to strengthen the City's Rainy Day Fund (RDF) in order to provide a cushion in the event of unanticipated revenue shortfalls. Specifically, new policy terms promote the ongoing maintenance of the RDF by requiring annual deposits of a portion of anticipated tax revenues. If adopted by the City Council, 0.25% of general tax revenue, or \$1.9 million, would be deposited beginning in 2012, followed by deposits of 0.5% each year thereafter, or approximately \$4 million. The 2012 Proposed Budget assumes that Council will adopt these policies change. A healthy Rainy Day Fund and Rainy Day Fund policies reinforce the City's commitment to strong financial management and are key to securing the lowest cost of borrowing from bond rating agencies and promoting long term savings. The new policies proposed by the Mayor also contemplate controls to suspend the funding mechanism when tax revenue growth is negative allowing the City to adapt practices to a variety of economic conditions. More detail on the proposed policy terms can be found in the fiscal reserves section in this document.

#### Strengthening Relations with Outside Organizations

Two new reserves have been established to provide short term support to the Seattle Indian Services Commission and to the University of Washington transit pass program.

The Seattle Indian Services Commission (SISC), which is a City-Charter Public Development Authority, provides services to disadvantaged Native American communities. In order to support these public services, \$50,000 is appropriated to defray the costs associated with carrying out two planned audits in 2012.

As part of the effort to promote transit programs in the City, a 3-year \$1.5 million grant program is initiated in 2012 with a \$500,000 contribution to the University of Washington to subsidize student UPASS transit passes. During this three-year period, the University will have the opportunity to move towards a different funding model for the UPASS program. The City's support is not expected to continue beyond 2014.

#### System Improvements – License and Tax Portal

Planning has begun to build a common license and tax portal which will enable members of the business community to register their businesses, apply for and renew licenses, and file and pay taxes across multiple cities. The portal will be an integral part of licensing and tax simplification in our region, and will be more efficient for both cities to administer and for businesses to file taxes across multiple jurisdictions. A reserve of \$1.2 million has been proposed to cover the following costs: establishment of a governance structure, comprehensive project planning for the portal implementation including design, development and testing, request for proposal development and, solicitation and selection for the necessary technology and consulting resources. Part of this cost will be shared with four other Washington cities and reimbursement will be deposited into the General Fund.

#### **Implementation of City's Sick Leave Policy**

A new chapter has been added to the Seattle Municipal Code establishing minimum standards for the provision of paid sick and paid safe time, prescribing penalties, remedies and enforcement procedures, and requesting a post-implementation assessment from the Seattle Office of Civil Rights. A new reserve has been added to cover anticipated fiscal impacts to the City of this ordinance including direct costs of enforcement and the indirect costs associated with extending paid sick and safe time to certain temporary employees of the City, and to provide for an evaluation of the new provisions. A reserve of \$250,000 is anticipated in 2013 to cover these costs and to complete analysis of the study begun in 2012.

#### Funding Changes Associated with Reorganization of City Departments

Two new programs are established and one eliminated to carry out the funding changes associated with the consolidation of the Office of Housing and the Office of Economic Development. The Housing Operating Fund program is eliminated to denote redirection of the General Fund transfer to activities performed by the former Office of Housing. Under the consolidation, these activities will be funded via the operating transfer to the newly created Department of Housing and Economic Development program in the Support to Operating Funds Budget Control Level (BCL). Additionally, this General Fund transfer will provide for the functions previously performed in the Office of Economic Development. The second program added provides support to the Low Income Housing Fund to fund development and preservation of low income housing. More information on this program and the merger can be found in the Office of Housing and Economic Development chapter in this document.

#### **Incremental Budget Changes**

#### **Finance General**

|  | 2012 Dollar<br>Amount | 2012<br>FTE |
|--|-----------------------|-------------|
| 2012 Endorsed Budget                                 | \$375,626,762         | 0.00        |
| 2012 Proposed Changes                                |                       |             |
| Support to Operating Funds                           | \$68,505              | 0.00        |
| Support to Community Organizations                   | \$550,000             | 0.00        |
| One Time or Limited Term Program Support             | \$3,700,000           | 0.00        |
| Technical-Cost Adjustments to Recurring Appropriatio | ns (\$1,176,206)      | 0.00        |
| Total Changes  | \$3,142,299           | 0.00        |
|  |                       |             |
| 2012 Proposed Budget                                 | \$378,769,061         | 0.00        |

**Support to Operating Funds – \$68,505.** This adjustment reflects the net change in transfers from the General Fund to other City operating funds. In addition to program changes, cost adjustments include revisions for COLA, healthcare, retirement contribution, workers compensation, and unemployment. Two new programs are established in the Support to Operating Funds BCL and one program is eliminated in the Appropriations to General Fund Subfunds and Special Funds BCL to reflect funding changes driven by the consolidation of the Offices of Housing and Economic Development.

**Support to Community Organizations – \$550,000.** This includes \$50,000 to defray the costs associated with two planned audits of the Seattle Indian Services Commission (SISC) in 2012, preserving SISC funds to continue to support public services in disadvantaged Native American communities. This also includes \$500,000 to the University of Washington to support the University Pass transit program.

**One-Time or Limited-Term Program Support** – **\$3,700,000.** Two new programs have been created to support the development of the City's License and Tax Portal (\$1.2 million) and to assist in the enforcement and analysis of the City's enhanced sick leave policies (\$150,000). Additionally, in accordance with the Executive's proposed financial policies, \$1.95 million will be transferred to the Rainy Day Fund and \$400,000 has been set aside to provide for potential Seattle ballot issues in the primary election. Resources that support food policy work are transferred to the Office of Sustainability and Environment, and resources for the Immigrant and Refugee Youth Program are transferred to the Human Services Department.

**Technical-Cost Adjustments to Recurring Appropriations – (\$1,176,206).** The release of contingency reserves, moving appropriations to the Office of Sustainability and Environment and to the Human Services Department, and updated cost adjustments account for a reduction to Finance General's reserves.

City of Seattle—2012 Proposed Budget - 606 -

## **Appropriations by Budget Control Level (BCL)**

#### Appropriation to General Fund Subfunds and Special Funds Budget Control Level

The purpose of the Appropriation to General Fund Subfunds and Special Funds Budget Control Level is to appropriate General Subfund resources, several of which are based upon the performance of certain City revenues, to bond redemption or special purpose funds. These appropriations are implemented as operating transfers to the funds, subfunds, or accounts they support.

#### **Reserves Budget Control Level**

The purpose of the Reserves Budget Control Level is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

#### Sue Tanner, Hearing Examiner

Information Line: (206) 684-0521 http://www.seattle.gov/examiner/

## **Department by Budget Control Level**

## **Department Overview**

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the Office conducts hearings and decides appeals in cases where citizens disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Department of Planning and Development. The Hearing Examiner also hears appeals in many other subject areas and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions. Pursuant to authority granted in 2004, the Hearing Examiner provides contract hearing examiner services to other local governments as well.

The Hearing Examiner, and Deputy Hearing Examiners appointed by the Hearing Examiner, handle all

pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also appoints an administrative analyst to oversee the administrative areas of the office, a paralegal to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

# **Department of Information Technology**

## Bill Schrier, Director & Chief Technology Officer

Information Line: (206) 684-0600 http://www.seattle.gov/doit/

## **Department by Budget Control Level**

### **Department Overview**

The Department of Information Technology (DoIT) manages the City's information technology infrastructure and performs strategic information technology (IT) planning to help City government serve Seattle's residents and businesses. DoIT is organized into four major divisions: Technology Infrastructure; Technology Leadership and Governance; Office of Electronic Communications; and Finance and Administration.

The Technology Infrastructure Division builds and operates the City's communications and computing assets, which include the City's telephone, radio, and e-mail systems, and the networks and servers. The City's technology and network infrastructure, as operated by DoIT, is used by every department to deliver power, water, recreation, public safety, and human services to the people of Seattle. DoIT builds and operates a wide variety of technology tools and systems supporting the missions of every

#### **Department of Information Technology**

department in City government. DoIT also develops, supports, and oversees systems and policies that increase the convenience and security of the City's technology systems.

The Technology Leadership and Governance Division provides strategic direction and coordination on technology for the City, including development of a multi-year strategic plan for Information Technology, development of common standards and architectures to deliver City services more efficiently and effectively, and IT project oversight and monitoring.

The Office of Electronic Communications Division oversees and operates the City's government-access television station (the Seattle Channel) and websites (seattlechannel.org and seattle.gov). Services provided include: new television and on-line programming, live Web streaming, indexed videos on demand, web-based applications, and other interactive services aimed at improving access to government services, information, and decision makers. It also oversees the City's cable television franchises with Comcast and Broadstripe (formerly known as Millennium Digital Media), and it manages the Department's community outreach programs which supports community efforts to close the digital divide and encourage a technology-healthy city. The Technology Matching Fund (TMF) is now a part of the Department of Neighborhood's Community Granting Division.

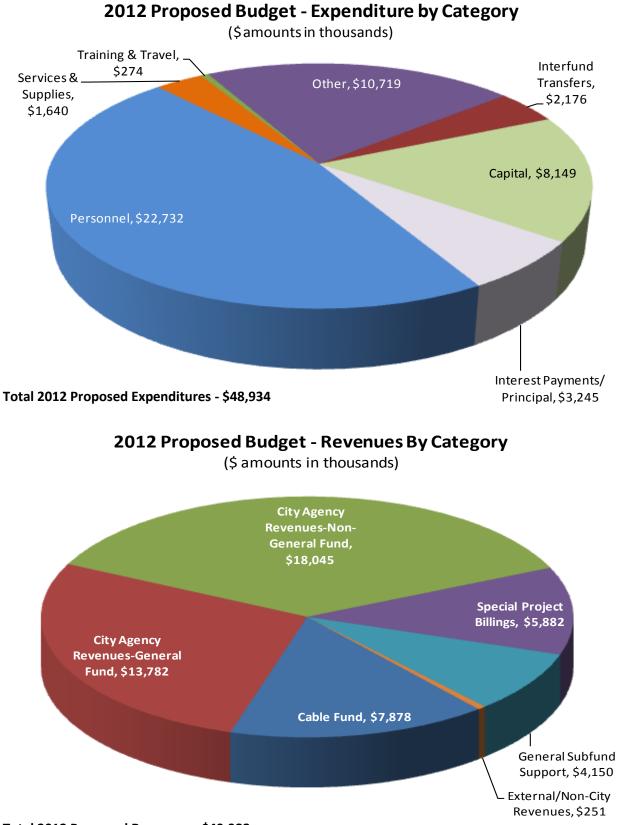

The Finance and Administrative Services Division provides finance, budget, accounting, human resources, administrative, and contracting services for DoIT.

DolT provides services to other City Departments, who, in turn, pay DolT for those services they purchase. As such, DolT receives revenue from most of the major fund sources within the City, including the General Fund, Seattle City Light, Seattle Public Utilities, Seattle Department of Transportation, Seattle Department of Planning and Development, and the Retirement Fund. DolT also receives funds from the City's Cable Television Subfund, as well as from grants, and from other government agencies external to the City (e.g., the Seattle School District, the Port of Seattle, etc.) who buy DolT services for special projects.

## **Budget Snapshot**

\*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Personnel Director actions outside of the budget process may not be detailed here.

Total 2012 Proposed Revenues - \$49,988

City of Seattle—2012 Proposed Budget - 619 -

#### **Department of Information Technology**

### **Budget Overview**

General Fund budget pressures in 2012 and future years have required DoIT to make budget reductions. As an internal service department, other City departments pay DoIT for the services provided. As a result all of DoIT's operating costs are billed to customer departments. In order to help close the General Fund gap, DoIT's 2012 Proposed Budget includes operating reductions that lead to decreased charges to the General Fund and to General Fund departments. In addition, savings will also accrue to non-General Fund-supported departments.

The Department's highest priority continues to be placed on direct support for public safety services, including the ability for City government to maintain and operate core communication and computing functions during and after emergencies. Next in priority are those functions that on an ongoing basis ensure the telecommunications environment is reliable and secure. The 2012 Proposed Budget protects these key services while making reductions to internal support functions that are not by themselves part of the Department's defined mission.

#### Transforming How the City Does Business to Protect Funding for Core Services

DolT continues to examine ways it can reduce expenditures while preserving its core public safety, communication, and computing services functions. As part of this effort, the Department last year eliminated its warehouse space and moved remaining equipment to a smaller space in the Seattle Municipal Tower. After further examining its inventory systems, DolT this year worked with vendors to develop a just-in-time delivery system that eliminates the need to keep on-hand a large stock of equipment. The Department continues to review its 24-hour maintenance contracts. Therefore, the Department will reduce the 24-7 maintenance plans to 40 hour workweek options for servers which are primarily used during Monday to Friday business hours. The Department has a back-up plan for coverage in case there is a major issue in the off-hours. In a further effort to save money, DolT in mid-year 2011 engineered a solution for upgrading the phone network through lower cost technology. This solution will move a portion of the City phone lines to Voice Over IP technology and will thereby reduce the number of phones lines the City is leasing from an outside provider.

#### **Management Efficiencies**

As part of the 2011 Adopted Budget process, DoIT was directed to identify management efficiencies that create \$200,000 in savings for 2012. The department meets this target by eliminating two management positions. A manager in the Communications Technology Division will be eliminated and the spans of control for the remaining managers will increase. This change will streamline the security and network operations functions and better align the existing workload. The Major Projects Division will eliminate an executive position as the number of projects to manage has decreased due to a decline in funding from external partners.

#### **Additional Staff Efficiencies**

Over the last few years, DoIT has gradually downsized staffing through a series of efficiency initiatives. It now finds that less administrative support is necessary to manage the needs of the Human Resource division. The department will reduce one Personnel Specialist and eliminate one Office Aide in this unit. The Department has also found that there are fewer funds available to spend on new technologies. In an effort to realign resources in the Technology Planning and Oversight division, a vacant parttime governance position is eliminated.

#### Managing Technology

In 2009, DoIT initiated a process to work with departments to identify unused or underutilized cell phones and other mobile devices. This effort was successful in producing savings by eliminating costs in department budgets. DoIT staff has noticed another uptick in the use of cellular phones and wireless air cards. Therefore, the Department will initiate another process to work with departments to again reduce the number of unused or underutilized devices. DoIT estimates that it can achieve \$143,000 in savings. In an effort to control and contain device proliferation, the Department will also change its billing procedures and provide additional information and tools for Departments to use in managing their cell phone costs. In addition, DoIT is conducting a pilot on exempt employees using their personal cell phones for work-related phone calls which may further reduce ongoing costs to the departments.

#### **Radio Reserve**

The Seattle Fire Department and Police Department have over 3,000 radios that are used for daily communication. A number of years ago, a Radio Reserve Fund was established for replacement of the radios that reach end-of-life. During the last three years, the Department used this fund to replace all public safety handheld radios. A favorable vendor contract allowed DoIT to replace these radios at a lower cost than had been anticipated in the plan. The department will retain savings in the fund to help offset funding "vacations" that were taken in the 2009, 2010, and 2011 budgets. Even with this small boost, the Radio Reserve allocations will need to increase in 2013 to a total of \$1.6 million annually to reach in 2020 the amounts needed for another mass replacement of public safety handhelds as the radios reach the end of their useful lifecycle. Additionally, in 2010 the Radio Reserve funds were used to replace the radios used by Parks and Seattle Center with the General Fund scheduled to repay this amount over five years. Consequently there were fewer radios to replace than forecast and the General Fund payment has been reduced by \$48,000.

#### **Transparency / Open Government**

Seattle residents are more than ever using mobile devices (smart phones, tablets, notebooks, etc.) to access information and services. Consequently, the City is experiencing increasing demands to provide its information and services in mobile-friendly formats. To address this issue, DoIT is investing in technology that will allow the Seattle.gov website content to be accessible on mobile devices. This will allow citizens to easily access a variety of information including crime data, listings of City services, library hours, and park locations to name a few. The City has recently launched data.seattle.gov to offer machine-readable datasets generated by various City of Seattle departments. This technology will allow users to import data for use in many different mobile applications.

#### **Consolidating Community Grant Award Functions**

As part of an effort to streamline Citywide community grant award processes, preserve the amount of grant award dollars going out the door, and to improve community access to award programs, the

#### **Department of Information Technology**

Mayor is proposing to centralize a variety of disparate community award functions in the City into the Department of Neighborhoods' Community Granting Division. The administration of the Technology Matching Fund award process that is currently managed by DoIT will be transferred to the Community Granting Division along with DoIT's Technology Fund Manager. Under this model, the position will be supported by cable franchise fees and by other funding sources. The primary focus will be on providing expertise on technology-related awards and on staffing the City's Citizen Telecommunication and Technology Advisory Board's award-making process. However, under the new administrative structure within DON, the position will also help to support various citywide grant award opportunities, including community and neighborhood grant awards, and waste management and recycling awards. The Cable Fund support for this work will be reduced by \$17,000 and the savings will be redirected into the Cable Fund.

#### **Cable Television Franchise Fee**

Cable Television Franchise Fund (Cable Fund) revenues are generated by franchise fees from cable television providers. Over the last several years, the Department has used Cable Fund revenues to support technology access programs previously funded by the General Fund. The 2012 Proposed Budget continues this effort by supplanting General Fund that currently supports web page design positions in the Police and Fire Departments.

The Cable Fund recently received a small bump in revenues as Comcast raised its rates on home television and internet service. Aside from this one-time bump, the Fund is only projected to grow minimally in the near future. The Department expects that the Fund will begin to see expenditure pressures as it is called upon to fund major technology overhauls like the upgrade of the Seattle Channel to High Definition. Therefore, the SPD and SFD web positions are not included in the Department's long term financial plan for this fund. In the future, DoIT may have to propose cuts to existing programming in order to keep the fund in balance.

### **Incremental Budget Changes**

#### **Department of Information Technology**

|                      |   | 2012 Dollar<br>Amount | 2012<br>FTE |

|                      | Reduce Citywide IT Strategy Support                                     | (\$38,382)            | (0.25)      |
|                      | Reduce Human Resource Support   | (\$111,460)           | (1.50)      |
|                      | Reduce Supplies and Equipment   | (\$300,000)           | 0.00        |
|                      | Shift Public Safety Web Staff Funding                                   | \$216,594             | 0.00        |
|                      | Implement Mobile Device Interface                                       | \$200,000             | 0.00        |
|                      | Budget Neutral Funding Shifts   | \$0                   | 0.00        |
|                      | Grant Consolidation   | (\$17,350)            | (1.00)      |
|                      | Technical Adjustments   | \$601,760             | 0.00        |
| Total Changes        |   | (\$4,309)             | (5.75)      |
| 2012 Proposed Budget |   | \$48,933,907          | 189.25      |

**Management Efficiency - (\$3,430) / (2.0) FTE.** As part of the 2011 Adopted Budget process, DoIT was directed to identify management efficiencies for implementation in 2012. In response, DoIT is eliminating two management positions for a \$200,000 budget reduction already accounted for in the 2012 Endorsed Budget. An additional \$3,000 reduction is reflected due to final adjustments. This action eliminates a manager position in the communication technologies team that supports the wireless and data/telephone network, and an executive position in charge of major projects and the fiber program.

**Technology Efficiency - (\$50,000).** A portion of the City telephone lines will be moved to Voice Over IP technology. This will allow the City to reduce the number of leased external telephone lines from an outside provider and reduces costs.

**Cellular Phone, Wireless Air Card and Printer Efficiencies - (\$250,986).** DoIT manages the distribution and billing for City owned cell/smart phones and wireless air cards. This proposal reduces the number of cellular phones and wireless air cards in City departments with no active usage and reflects savings from a more cost effective cellular contracting approach for low-usage equipment. Additionally, DoIT will reduce the total number of internal printers by eliminating redundant local and network printers

### **Department of Information Technology**

that are no longer necessary. This will reduce costs for paper, toner cartridges and leases. These reductions will not impact the services provided by DoIT or other departments.

**Reduce Maintenance, Training and Customer Support for Server Storage - (\$251,054) / (1.0) FTE.** This proposal reduces service levels for lower-priority server hardware from 24 hours a day/7 days a week to 9am-5pm/5 days a week as the service was rarely used in the after-hours. This action is part of an ongoing effort to examine support levels for non-critical systems. As various 24-7 support contracts expire, the department is examining the risk associated with potential temporary outages of associated systems. In many cases, there is minimal risk if a system is down over the weekend as primary users may only work on weekdays and may not be working on core City issues. Additionally, some 24-7 support is discontinued entirely if the technology has evolved to a safer/ stable state. The Chief Technology Officer is reviewing these decisions on a case-by-case basis in order to minimize risks. There will also be a reduction in support for the primary storage and backup systems in the City's Data Center that is managed by the Enterprise Computing Services Team. This workload will be redistributed among the other members of the storage team and may affect response time to customer requests. Additionally, less will be spent on staff training, professional services and research support.

**Reduce Citywide IT Strategy Support - (\$38,382) / (0.25) FTE.** This proposal reduces staff in the Technology Planning and Oversight team, as the Department has found that there are fewer funds available to spend on new technologies. If project spending returns to historic levels, this could impact DoIT's ability to help establish Citywide strategic directions on technology and capacity to identify and lead implementation of new initiatives.

**Reduce Human Resources Support - (\$111,460) / (1.50) FTE.** This proposal reduces internal human resources support to align with the decrease in the total number of DoIT employees in the last few years. Additionally an office aide position is transferred to the Personnel department.

**Reduce Supplies and Equipment - (\$300,000).** This proposal aligns current practices by reducing the budget for items purchased and stocked in DoIT's supply room and the small equipment within the Data Networks Services program. There is no service impact expected from these reductions.

**Shift Public Safety Web Staff Funding - \$216,594.** Currently, both the Seattle Fire Department and the Seattle Police Department have staff that manage and develop the content for the public safety websites that are used by the public. This proposal shifts the funding for the staff from the General Fund to the Cable Franchise Fee Subfund. This will not impact the services provided by any of the involved departments.

**Implement Mobile Device Interface - \$200,000.** There is continued rapid growth in the use of mobile devices (smart phones, tablets, notebooks, etc.) to access information and services. The City is experiencing increasing demands to provide to the public its information and services in mobile-friendly formats. This proposal will allow DoIT to purchase and implement software that will allow the Seattle.gov website content to be accessible on mobile devices and standardize City-developed mobile applications across departments.

**Radio Reserve Savings - \$0.** In 2010, DoIT used funds from the Radio Reserve to replace the radio handsets owned by Parks and Seattle Center with the General Fund scheduled to repay this money

#### **Department of Information Technology**

over a five-year period. Due to the reduced costs to the City as a result of contract changes and fewer radios replaced than originally anticipated, the annual repayment to the Radio Reserve has been reduced. This does not impact DoIT's proposed budget, but will provide \$48,000 of savings annually to the General Fund through 2015.

**Budget Neutral Funding Shifts - \$0.** DoIT proposed several budget neutral funding shifts from the General Fund (GF) to the Cable Franchise Fee Subfund (Cable Fund) that will not impact the services currently provided by DoIT. The first aligns current practice with the budget for a Project Manager position that has been spending 50% of their time providing project management support to DoIT's Web Team. Given the increasing importance of web-based applications and services, there are a large number of Web Team projects continuing into the foreseeable future which will require project management services. This changes the duties (half-time) of the Project Manager to the Citywide Web team and shifts the \$14,000 GF portion to the Cable Fund. The second reassigns an existing Public Information Officer to provide part-time administrative support for DoIT's community outreach efforts including CTTAB support, Community Technology, and Seattle Channel outreach. This will provide needed administrative support for the outreach staff and shift the \$17,000 GF portion to the Cable Fund. Lastly, DoIT currently provides a web application support service to 14 City departments with 150 applications supported that are used by the public. This will shift the \$25,000 GF portion to the Cable Fund.

**Grant Consolidation - (\$17,350) / (1.0) FTE.** As part of an effort to streamline community grant award processes, create efficiencies and provide greater access to community members, the Mayor is proposing to centralize the administration of community award function citywide into the Department of Neighborhood's Community Granting Division within the Neighborhood Matching Fund. DoIT's Technology Fund Manager position will be transferred to the new Community Granting Division as part of the consolidation effort. The position will be supported by cable franchise fees and other sources of funding in 2012. Through efficiencies gained during the consolidation process there will be a savings of \$17,000 to the Cable Fund.

**Technical Adjustments - \$601,760.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in DOIT's service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

The following information summarizes the programs within the Technology Infrastructure Budget Control Level:

**Communications Shop Program** The purpose of the Communications Shop Program is to install, maintain, and repair the dispatch radio infrastructure and mobile and portable radios for City departments and other regional agencies for common, cost-effective communications.

|                              | 2010      | 2011      | 2012      | 2012      |
|------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals   | Adopted   | Endorsed  | Proposed  |
| Communications Shop          | 1,565,471 | 1,632,413 | 1,666,643 | 1,684,423 |
| Full-Time Equivalents Total* | 11.00     | 11.00     | 11.00     | 11.00     |

**Data Network Services Program** The purpose of the Data Network Services Program is to provide data communications infrastructure and related services to City employees so that they may send and receive electronic data in a cost-effective manner, and so residents may electronically communicate with City staff and access City services.

|                              | 2010      | 2011      | 2012      | 2012      |
|------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals   | Adopted   | Endorsed  | Proposed  |
| Data Network Services        | 3,268,317 | 3,839,879 | 3,923,832 | 3,584,566 |
| Full-Time Equivalents Total* | 13.00     | 13.00     | 13.00     | 11.00     |

**Enterprise Computing Services Program** The purpose of the Enterprise Computing Services Program is to provide a reliable production computing environment that allows departments to effectively operate their technology applications, operating systems, and servers.

|                               | 2010      | 2011      | 2012      | 2012      |
|-------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE              | Actuals   | Adopted   | Endorsed  | Proposed  |
| Enterprise Computing Services | 7,399,143 | 7,852,225 | 7,244,401 | 7,081,807 |
| Full-Time Equivalents Total*  | 25.50     | 25.00     | 25.00     | 24.00     |

**Messaging, Collaboration and Directory Services Program** The purpose of the Messaging, Collaboration and Directory Services Program is to provide, operate, and maintain an infrastructure for e-mail, calendar, directory, and related services to City employees and the general public so that they can communicate and obtain City services.

City of Seattle—2012 Proposed Budget - 631 -

**Radio Network Program** The purpose of the Radio Network Program is to provide dispatch radio communications and related services to City departments and other regional agencies so that they have a highly available means for mobile communications.

|                              | 2010      | 2011      | 2012      | 2012      |
|------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals   | Adopted   | Endorsed  | Proposed  |
| Radio Network                | 1,217,248 | 1,043,343 | 1,074,089 | 1,076,614 |
| Full-Time Equivalents Total* | 1.00      | 1.00      | 1.00      | 1.00      |

**Service Desk Program** The purpose of the Service Desk Program is to provide an initial point of contact for technical support, problem analysis and resolution, and referral services for customers in non-utility departments.

|                              | 2010      | 2011      | 2012      | 2012      |
|------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals   | Adopted   | Endorsed  | Proposed  |
| Service Desk                 | 1,496,259 | 1,280,944 | 1,315,011 | 1,331,595 |
| Full-Time Equivalents Total* | 13.00     | 11.00     | 11.00     | 11.00     |

**Technical Support Services Program:** The purpose of the Technical Support Services Program is to provide, operate, and maintain personal computer services for City employees so that they have a reliable computing environment to conduct City business and to provide services to other government entities and the public.

|                              | 2010      | 2011      | 2012      | 2012      |
|------------------------------|-----------|-----------|-----------|-----------|
| Expenditures/FTE             | Actuals   | Adopted   | Endorsed  | Proposed  |
| Technical Support Services   | 2,054,793 | 1,797,276 | 1,833,735 | 1,855,480 |
| Full-Time Equivalents Total* | 17.00     | 13.50     | 13.50     | 13.50     |

**Technology Engineering and Project Management Program** The purpose of the Technology Engineering and Project Management Program is to engineer communications systems and networks, to manage large technology infrastructure projects for City departments, and to facilitate reliable and cost-effective communications and technology.

|  | 2010      | 2011      | 2012      | 2012      |
|--|-----------|-----------|-----------|-----------|
| Expenditures/FTE                                 | Actuals   | Adopted   | Endorsed  | Proposed  |
| Technology Engineering and<br>Project Management | 8,028,278 | 4,309,397 | 4,423,817 | 4,707,781 |

# **Capital Improvement Program Highlights**

The Department of Information Technology (DoIT) builds, manages and maintains City government information technology infrastructure – radio, data, communications, and computer networks – used by other City departments to serve constituents. DoIT manages the Seattle Channel and the City's central data center, which houses most of the computer servers and the computing architecture that operates software applications on behalf of other departments. DoIT also directs the development of certain computer application projects on behalf of the City and other Departments. The Capital Improvement Program (CIP) supports DoIT's mission by providing for new investments, upgrades, maintenance, and improvements to the City's existing technology networks and systems.

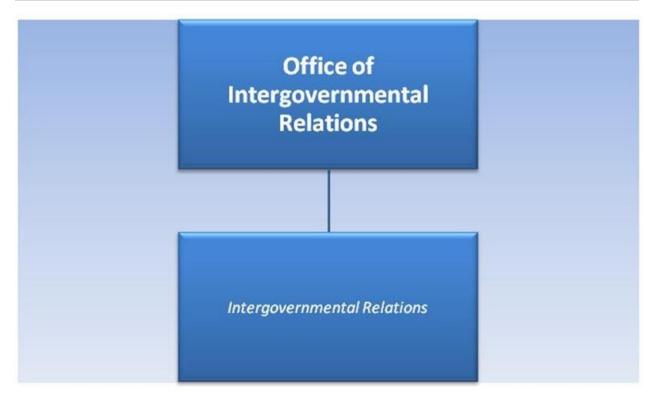

The focus of the DoIT 2012-2017 Proposed CIP is on routine maintenance, replacement and upgrades for existing systems. The 2012 projects include upgrades to the Alternate Storage Center; installation of additional fiber optic cable links to various locations and maintenance; planning, repair, replacement, and modification of software, hardware and electronics in the City's data and communications infrastructure; replacement and upgrades of equipment in the 800 MHz radio network program; replacement and upgrades of software and hardware in the computing services architecture environment and replacement and equipment for the Seattle Channel.

Additional information on DoIT's CIP can be found in the 2012-2017 Proposed CIP online here: <u>http://www.seattle.gov/financedepartment/1217proposedcip/default.htm</u>

# **Department by Budget Control Level**

#### **Department Overview**

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external customers. The primary goal of these efforts is to ensure the City's interests are advanced with international, tribal, federal, state, and regional entities to enable the City to better serve the community.

City of Seattle—2012 Proposed Budget - 638 -

#### 2012 Proposed Budget - Revenues By Category

(\$ amounts in thousands)

Total 2012 Proposed Revenues - \$2,192

### **Budget Overview**

The Office of Intergovernmental Relations (OIR) is responsible for engaging with other jurisdictions and governmental entities in order to collaborate and advocate for outcomes that are in the interest of the City and region. This is a particularly difficult task given the current fiscal environment at all levels of government. It becomes even more important now to ensure external funding for critical services and programs is retained as residents and businesses in Seattle fight to recover from impacts of the Great Recession.

Even so, OIR will respond to the budget challenges facing the General Fund for 2012 with reductions in resources dedicated to policy and administrative support. The primary reduction here relates to work that had been grant funded previously and for which grant funds are not available any longer. OIR will assume responsibilities related to coordination and administration of the City's various boards and commissions. These bodies are critical to providing public review, input and oversight to many functions and programs managed by the City. Consolidating the administration and tracking of these bodies into OIR will serve to ensure a high level of public engagement in this area. OIR will also develop and enhance dissemination of information to the public regarding regional, state, and federal issues of importance. Core OIR work with local, regional, state and federal partners will continue.

Temporary funding will be added to support two projects. The first is a regional project led by the Puget Sound Regional Council (PSRC) to bolster local employment. The second is a result of OIR being

tasked with fulfilling the City's responsibility as host of the National League of Cities Conference in 2013. Temporary funding will be required for both of these efforts, which will benefit local employment.

| <b>Incremental B</b> | udget Changes                                 |                       |             |
|----------------------|---|-----------------------|-------------|
| Office of Interg     | overnmental Relations                         |                       |             |

|                      | Salary Reductions                             | (\$29,391)            | 0.00        |
|                      | National League of Cities Conference Staffing | \$80,000              | 0.00        |
|                      | Support to PSRC                               | \$50,000              | 0.00        |
|                      | Technical Adjustments                         | \$20,678              | 0.00        |
| Total Changes        |   | \$121,287             | 0.00        |
| 2012 Proposed Budg   | et  | \$2,191,799           | 11.50       |

**Salary Reductions** - **(\$29,391).** The Office of Intergovernmental Relations (OIR) will be able to reduce salary costs resulting from several actions in 2012. Two retirements occurred in 2011 and new staff will be hired at lower compensation levels. OIR will discontinue staff work on a statewide gun violence initiative that had been largely funded with grant support through 2011. Grant funding is not available for 2012 to support this initiative, but the City continues to support local violence reduction programs through other City departments. This senior policy position will be replaced with a position who will be responsible for centralized coordination/administration of City Boards and Commissions and the development and management of communication tools that track and communicate regional, state, and federal issues of importance to Seattle constituents, resulting in salary savings. Additionally, salary savings will be achieved by partially reducing administrative support during the state legislative session.

**National League of Cities Conference Staffing - \$80,000.** The National League of Cities Annual Conference will be hosted by Seattle in November 2013. OIR will serve as the lead City department in organizing this event and meeting obligations as host city, including substantial fundraising and coordination of workshops. This work needs to be done well in advance of the conference and requires resources in 2012.

**Support to Puget Sound Regional Council - \$50,000.** The Puget Sound Regional Council (PSRC) will be working in 2012 to bolster local employment by working with local businesses and focusing on retention. Employment within the region and city will be directly impacted by this effort and funds are contributed to the PSRC to support this work.

**Technical Adjustments – \$20,678.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

# **Appropriations by Budget Control Level (BCL)**

#### Intergovernmental Relations Budget Control Level

The purpose of the Intergovernmental Relations Budget Control Level is to promote and protect the City's federal, state, regional, and international interests by providing strategic advice, representation, and advocacy to, and on behalf of, City elected officials on a variety of issues. These include: federal and state executive and legislative actions; issues and events relating to the City's international and tribal relations; and jurisdictional issues involving King County, suburban cities, and regional governmental organizations.

# **Department by Budget Control Level**

### **Department Overview**

The Legislative Department includes the Seattle City Council, the City's representative electoral body composed of nine at-large, non-partisan, elected Councilmembers. In addition to the City Council, the Legislative Department has three other divisions: the Office of the City Clerk, Central Staff, and Administrative Services. Each section of the Department supports some aspect of the representative role of the City Council, and works with citizens and City departments to develop effective and responsive public policy.

The roles of the nine Councilmembers are to establish City laws, approve the Mayor's annual operating and capital improvement budgets, provide oversight to the City's Executive departments, and create policy for the City. Each Councilmember has a staff of Legislative Assistants who help accomplish this work.

The Office of the City Clerk performs six major functions. The City Clerk oversees the Clerk staff and manages Council and citizen-initiated ballot measures through the legislative processes; facilitates the City's legislative process; maintains and makes publicly accessible the work product of the Council and the official City records filed with the Clerk; coordinates public records disclosure requests for the Legislative Department; oversees and facilitates Citywide compliance with records retention laws; and, preserves and provides citizen access to the City's official and historical records.

Central Staff provides policy and budget analysis for Councilmembers and their staff.

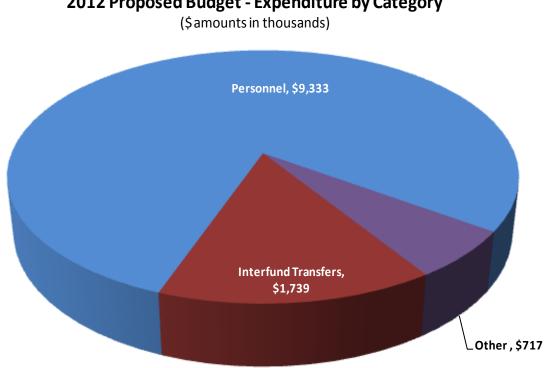

Administrative Services coordinates budget and accounting, department operations, information technology, human resources, and special projects for the Legislative Department, Office of City Auditor, and the Office of Professional Accountability Review Board. The Office of Professional Accountability Review Board was created in 2002 to provide citizen oversight of the Office of Professional Accountability housed in the Police Department. Due to a recent reorganization, department operations, information technology, and human resources now report to the City Clerk; budget and accounting now report to the Central Staff Director. The budget will be realigned in 2013 to fully reflect the reorganization.

City of Seattle—2012 Proposed Budget - 645 -

#### **Budget Overview**

The General Fund is continuing to experience pressures in 2012 and in future years, requiring reductions to General Fund supported functions. To help close this gap, the Legislative Department reduces funding for legal advertising activities to achieve budget savings.

The Department approached the 2012 Proposed Budget with the purpose of meeting General Fund reduction goals while preserving direct services. With each division of the Department either directly or indirectly supporting the City Council, the Department attempted to preserve the direct services provided by City Council to citizens and City departments to the greatest extent possible. To achieve this goal, the Department made administrative and operational changes which resulted in a decreased legal advertising budget and no service level impacts.

The 2012 Proposed Budget also reflects a series of technical adjustments including inflation, COLA, retirement, health care, workers compensation, and unemployment.

#### **Incremental Budget Changes**

|                       |                             | 2012 Dollar<br>Amount | 2012<br>FTE |
|-----------------------|-----------------------------|-----------------------|-------------|
| 2012 Endorsed Budget  |                             | \$11,865,759          | 86.00       |
| 2012 Proposed Changes | Technical Adjustments       | \$100,421             | 0.00        |
|                       | Legal Advertising Reduction | (\$178,000)           | 0.00        |
| Total Changes         |                             | (\$77,579)            | 0.00        |
| 2012 Proposed Budget  |                             | \$11,788,179          | 86.00       |

#### **Legislative Department**

**Technical Adjustments - \$100,421.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in the Legislative Department's service delivery. Citywide technical adjustments reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

**Legal Advertising Reduction - (\$178,000).** This proposal reduces the City Clerk's legal advertising budget to reflect a change in how the City Clerk's Office publishes legislation in the *Daily Journal of Commerce*, the newspaper used by the City for publishing official legal notices. By statute, the City is legally required to publish the text or summary of such items as ordinances, initiatives, referenda, and certain types of hearings. In prior years, a large percentage of legislation was published in full text,

which resulted in unpredictable and often significant costs. However, in 2011 it was determined that almost all could be published in summary form, resulting in sizeable cost savings. The complete text of all published items is available online at the Office of the City Clerk's website or in hard copy by request.

The Department reduced this budget by \$76,000 in the 2011 Adopted Budget, and then by an additional \$63,000 as part of the 2011 mid-year budget reduction process. Therefore, this change reflects a total reduction of \$254,000 in 2012. There are no service level impacts resulting from this reduction.

# **Office of the Mayor**

#### Mike McGinn, Mayor

Information Line: (206) 684-4000 http://www.seattle.gov/mayor/

# **Department by Budget Control Level**

#### **Department Overview**

The mission of the Mayor's Office is to provide honest, accessible leadership to residents, employees, and regional neighbors of the City of Seattle that is clear and responsible, in an environment that encourages ideas, civic discourse, and inclusion for the entirety of the City's diverse population, creating an even better place to live, learn, work, and play.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. More than 25 department and office directors and commission members are appointed by the Mayor, work directly for the Mayor, and have been delegated the day-to-day authority to administer their respective departments, offices, and commissions. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes, and municipal ordinances. Elections for this nonpartisan office are held every four years.

### **Budget Overview**

The Office of the Mayor (OM) and resources pledged to City policy development staff have experienced significant budget reductions in recent years resulting from the impacts of the Great Recession on City resources. In 2010, the City reduced staffing in the Office of the Mayor, abolished the former Office of Policy and Management (OPM), and transferred most remaining OPM resources to the Office of the Mayor. In 2011, the OM took additional reductions in order to help bridge the projected \$67 million General Fund shortfall. The 2011 Adopted Budget level for the OM represented a 35 percent reduction from 2009 combined funding levels for the OM and OPM, after adjusting for budget transferred to other departments during the abolition of OPM. During this same timeframe, the City's total budget remained about the same.

In order to respond to this decline in resources, the Office of the Mayor has prioritized functions within the office, but also has had to rely more on staff from departments to help develop policy and to respond to community needs more directly. The Office of the Mayor remains committed to providing a high level of responsiveness and engagement to the community, despite limited resources.

Given continuing budget challenges for the General Fund in 2012, the Office of the Mayor again will make budget reductions to provide relief to the General Fund and allowing resources to be preserved for direct services. These reductions in personnel services will create sustainable salary savings.

#### **Department by Budget Control Level**

### **Department Overview**

The Personnel Department provides human resource services, tools, and expert consultative assistance to departments, policymakers, employees, and the public so the City of Seattle's diverse work force is deployed, supported, and managed fairly to accomplish the City's business goals in a cost-effective and safe manner. The Personnel Department has four primary areas of operation:

- The Employment and Training section provides staffing services, mediation, employee development opportunities, and technical assistance to all City departments so that the City can meet its hiring needs efficiently, comply with legal guidelines, and help departments and employees accomplish the City's work.
- The Employee Health Services section provides quality, cost-effective employee benefits, health care benefits, workers' compensation benefits, and safety services, all of which maintain and promote employee health and productivity, and provide a competitive noncash compensation package. In addition, this section administers the Seattle Voluntary Deferred Compensation Plan and Trust.

#### **Personnel Department**

- The Citywide Personnel Services section establishes citywide personnel rules and provides human resources systems, policy advice, information management, finance and accounting services, contingent work force oversight, and expert consultative assistance to departments, policymakers, and employees so that the City can accomplish its business goals in a cost-effective manner. This section includes Policy Development, Information Management, Finance and Accounting, Temporary Employment Services, Employee Giving, and other internal support services.
- The City/Union Relations and Classification/Compensation section negotiates and administers a personnel system for both represented and non represented employees with the intention of fairly classifying and compensating the City's diverse work force.
  - The City/Union Relations staff provide labor/employee relations services to policymakers and to management staff of City departments, and establish citywide personnel policy.
  - The Class/Comp staff develop pay programs, perform compensation analysis, and provide classification services and organizational consultation to all City departments.

City of Seattle—2012 Proposed Budget - 659 -

#### **Personnel Department**

#### **Budget Overview**

General Fund budget pressures in 2012 and future years require that Personnel make budget reductions. The Department's budget is primarily comprised of labor costs. As a result, the Department has identified position reductions and staffing efficiencies as part of balancing the overall General Fund budget. These changes have been identified with a priority to maintain quality direct services to other City departments. In 2012, the Department will continue to perform the same core functions, and minimal impact is expected to overall levels of service.

In addition to reviewing positions and staffing efficiencies, Personnel has evaluated the funding for various staff and programs in the department, and in a limited number of cases has adjusted funding from General Fund to other fund sources, including the Health Care Subfund and the Industrial Insurance Subfund, to better tie the funding source to the services provided.

Under new Director David Stewart, Personnel is engaged in an evaluation of all components of the Department's operations. A strategic planning process is now underway that includes key initiatives around collaboration, customer focus, and reprioritization and resizing of services and programs. This process will result in the development of a strategic plan that will help guide Department policies and inform future decisions. The results of this strategic planning process will inform future budgets and provide a framework for additional operational changes.

The Department is also conducting an evaluation of the City's four primary discretionary pay programs that were created in 1998 and 1999, and will be developing recommendations for changes that better align this program with the City's current classification needs. The focus of the evaluation is on the classification of the discretionary pay programs and not on compensation itself. There are no 2012 budget changes associated with this work.

#### **Personnel Department**

**Workload Changes and Efficiencies - (\$49,101) / (1.0) FTE.** This proposal abrogates three positions: a Labor Relations Specialist, a Workers' Compensation Manager, and a Finance Analyst Assistant. The Labor Relations Specialist position was added in 2011. The assigned body of work (a review of workplace efficiencies), has been significantly smaller than expected and existing staff are able to absorb this work. The abrogation of the Workers' Compensation Manager achieves the Adopted 2011-2012 "span of control reduction" that was implemented as part of the 2011 Adopted Budget. To mitigate the impact of this abrogation, a Senior Workers' Compensation Analyst will be moved to a Supervisor position, but will continue to perform some analyst duties as well. The workload in this area has decreased modestly over the past few years, and no impact to the processing of workers' compensation claims is expected. Due to efficiencies realized through a 2010 technology system upgrade for re-pricing workers' compensation medical bills, the Financial Services Division is reducing a Finance Analyst Assistant position. The new technology allows for an electronic, rather than manual review and adjustment, of provider charges down to the fees allowed by the state.

In addition to the changes above, three position increases were made due to workloads that are greater than the existing staff are able perform. In the Adopted 2011-2012 Budget, the Administrative Staff Assistant to the Director was reduced to part-time. The workload has proven to be more than can be managed in a part-time environment and so the position is restored to full-time. Further, a part-time revenue-backed position is also added to carry out work related to the Deferred Compensation Program. This workload has expanded due to changes in tax law, new audit requirements from the City's general liability reinsurer, and other participant-relations needs associated with the conditions of the national and City economies. Finally, a supported employment position from DoIT is also transferred to Personnel to assist with general office work.

**Program Reductions - (\$40,000)**. This proposal eliminates funding for the University of Washington Fellows Program, a citywide summer internship program that began in 2007. This reduction does not impact other City internship programs and the Program has not been offered since 2009.

**Technical Adjustments - \$17,509.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not represent fundamental changes in Personnel's service delivery. Salary adjustments are made to align three positions to actual costs, and net-zero changes are made between several BCLs and account groups. In addition, citywide technical adjustments were made that reflect changes in central cost allocations, retirement, health care, workers' compensation, and unemployment costs.

# Personnel Compensation Trust Subfunds by Budget Control Level

### **Personnel Compensation Trust Subfunds Overview**

The Personnel Compensation Trust Funds are six subfunds of the General Fund, five of which are administered by the Personnel Department and one administered by the Department of Finance and Administrative Services. These six subfunds serve as a means to manage Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals. The six subfunds are the Group Term Life Insurance Subfund, the Health Care Subfund, the Industrial Insurance Subfund, the Special Employment Subfund, the Unemployment Insurance Subfund, and the Transit Benefit Subfund.

- The Group Term Life Insurance Subfund contains the revenues and expenses related to the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance.
- The Health Care Subfund contains the revenues and expenses related to the City's medical, dental, and vision programs; Flexible Spending Account Program; Employee Assistance Program; and COBRA continuation coverage. The City is self-insured and re-insured for some of its medical plans, and carries insurance for the remainder of the medical plans and for all dental and vision plans.

- The Industrial Insurance Subfund captures the revenues and expenditures associated with the City's Workers' Compensation and Safety programs. Since 1972, the City of Seattle has been a self-insured employer as authorized under state law. The Industrial Insurance Subfund receives payments from City departments to pay for these costs and related administrative expenses.
- The Special Employment Subfund contains the outside agency revenues and expenditures associated with the City's temporary, intern, and work study programs. Outside agencies reimburse the City for costs. Expenses related to employees hired by City departments through the Special Employment Program are charged directly to the departments.
- The Unemployment Insurance Subfund contains the revenues and expenditures associated with the City's unemployment insurance costs. The City is a self-insured employer with respect to unemployment insurance.
- The Transit Benefit Subfund contains the revenues and expenditures associated with the City's transit subsidy program with King County Metro Transit.

Total 2012 Proposed Expenditures - \$184,192

2012 Proposed Budget - Revenues By Category (\$ amounts in thousands)

Total 2012 Proposed Revenues - \$183,422

### **Budget Overview**

The following provides a summary of each of the six individual Subfunds of the General Fund that comprise the Personnel Compensation Trust Funds.

**Health Care Subfund:** The City provides medical, dental, vision and other benefits to employees and their covered family members. The expenses and revenues related to these benefits are accounted for in the Health Care Subfund. Total City health care costs (medical, dental, vision) have roughly doubled from approximately \$74 million in 2001 to \$143 million in 2010. In 2011, the total costs are expected to be maintained at \$143 million as a result of the City experiencing a leveling off of the health care costs incurred in the short term. This lower growth is partly due to a recovery from temporarily elevated health care costs in 2009, and a decrease in the overall employee enrollment in 2011. The City anticipates that health care cost growth will return to the prior average annual rate of increase of approximately 10% year over the long term.

The General Fund pays for approximately half of the City's total health care costs in 2011 and 2012. As the total costs increase for health care, the amount of General Fund resources allocated to health care benefits is increasing, thereby reducing General Fund resources available for other purposes. In early 2011, the City recognized the need to develop greater policy oversight for the City's health care benefits, given that this is a significant cost area for the City.

In light of this, the City Budget Office (CBO) formed in early 2011 a Health Care Management Interdepartmental Team (IDT) that serves as a joint Council-Executive collaboration to evaluate the City's health plans, and develop a longer term set of strategic health care policies. The Health Care IDT's work serves to inform discussions of the City's Health Care Committee (HC2), which is comprised of representatives of the City and signatory unions of the Coalition of City Unions. This Committee addresses issues related to the health care benefits provided most City employees including scope of coverage, and costs to the City, employees and the Rate Stabilization Fund (for represented employees) associated with providing the benefits. The IDT also informs the discussions of the City's Labor Management Leadership Committee (LMLC) which is comprised of representatives of the City (labor relations representatives, department directors, City councilmembers, and a representative of the Executive) and representatives of unions in the Coalition of City unions. This Committee oversees the City's labor-management partnership and addresses a broad and general range of Labor-related topics.

During 2011, the IDT evaluated a set of changes to the City's health care plans that would reduce health plan costs, without reducing actual health care benefits. The IDT identified three discrete changes to reduce overall health care plan costs beginning in 2012:

• Eliminate purchase of stop loss insurance: The IDT determined that it would be beneficial for the City to eliminate the purchase of stop-loss insurance, which is a supplemental insurance package that the City has purchased in past years to insure the City against cost exposure to large health care claims of \$250,000 or more per individual that are incurred as part of the City's self-insured medical plan Aetna. The cost for this stop loss insurance has been rising significantly year over year, and the City determined that this risk could be addressed by establishing an internal reserve within the Health Care Fund, rather than continuing to pay an external service provider approximately \$1 million per year to manage this risk for the City.

- Self Insure the City's Washington Dental Service Plan: The IDT identified moving to self-insure the City's Washington Dental Service plan as a cost saving step that maintains the same level of dental benefits, but saves the City the cost of paying a State premium tax of approximately \$200,000 per year, as well as risk charges levied by WDS.
- Establish a new Forecast Variance Reserve within the Health Care Subfund: The IDT identified the need to establish a new "Forecast Variance Reserve" (FVR) of \$5.4 million to account for the volatility, compared to forecast, of self-insured Medical/Pharmacy and Dental claims and to address the risk assumed by eliminating stop loss insurance.

These changes were evaluated by HC2, pursuant to the agreement reached with the Coalition of City Unions in 2010, committing signatory unions to collaboratively identify ways in which the City could contain its medical costs. In mid-2011, HC2 voted to implement these three proposals as part of the 2012 health care program and rates. These changes will affect the City and employees other than those covered by IAFF Local 27. IAFF Local 27 began providing health benefits to Fire Fighters and their dependents under a union-sponsored plan, beginning January 1, 2008. The union is responsible for its plans' risk arrangements, benefits, claim experience, administrative support and costs, etc. although it abides by the City's eligibility rules and obtains a fixed contribution from the City per Fire Fighter per month.

In 2012, the first year of implementing these changes, no significant cost savings will be realized due to the fact the Forecast Variance Reserve (FVR) will be funded in large part (\$4.1 million) in the first year by including this cost in the 2012 health care rates. The balance of \$1.3 million to reach a total of \$5.4 million by year-end 2012 is funded by reallocating reserves already existing in the Health Care Subfund. However, beginning in 2013, the City's benefits/actuarial consultant, Aon Hewitt, estimates that a reduction in costs for the overall health care plan, controlling for other issues, will be on the order of \$1.54 million annually. In addition to the cost savings to the City's health care plan, the changes are beneficial in that they reduce the administrative burden related to monitoring for, and pursuing, periodic stop loss reimbursement payments to the City. Further, the establishment of the FVR for Medical/Pharmacy claims and for Dental claims is prudent in that it addresses risks given that self insured health care claims that cannot be forecasted precisely.

In 2012, the City will continue to work to pursue efficiencies within the Health Care plan, and will work with the Coalition of City Unions to evaluate and implement additional changes as part of the 2013 rate setting process.

**Industrial Insurance Subfund:** The City's Industrial Insurance expenses continue to grow based on increased workers' compensation claim experience and projected growth. The underlying growth in medical costs is a large driver of the costs for this expense. Medical claims costs for Industrial Insurance are expected to grow by approximately 2% over 2011. In 2012, \$750,000 in unreserved fund balance in the Industrial Insurance Subfund is being used to partially subsidize the administrative costs charged to departments, including fees levied by the Washington State Department of Labor and Industries, reinsurance premiums, and the Personnel Department's administrative costs to manage the program, which are increased in 2012. These changes result in an ending unreserved fund balance for the Industrial Insurance Subfund that is considered sufficient to maintain the fund in a healthy financial position moving forward.

**Unemployment Subfund:** In 2012, unemployment costs are anticipated to remain roughly in line with the 2012 Endorsed Budget at a total of approximately \$2 million. Unemployment costs increased significantly during the economic recession, increasing from approximately \$1 million in 2008 to \$3 million in 2010. In 2010, the City forecast the 2011 unemployment claims to continue to increase to \$5.4 million in 2011; however, an update to this forecast in mid-2011 indicates that unemployment claims are likely to stay at \$3 million in 2011 due to an overall improvement in economic conditions. As a result, it is anticipated that an unreserved fund balance will accrue to the Unemployment Fund in 2011. In 2012, \$1.3 million in unreserved fund balance will be used to partially subsidize all departments other than SPU and SCL, which do not participate in receiving a share of the unreserved fund balance beginning in 2011 given that billing for unemployment claims is now based on actuals for these two departments. Unemployment levels are anticipated to return to more moderate levels of \$1.0-\$1.5 million in 2013 and 2014. These changes result in an ending unreserved fund balance for the Unemployment Subfund that is considered sufficient to maintain the fund in a healthy financial position moving forward.

**Group Term Life Subfund:** The City changed its accounting practices in 2011 regarding how the revenues and expenses associated with employee-paid supplemental insurance are recognized in the SubFund. Previously, supplemental expenses were treated as a pass through transactions, and did not show up in the Group Term Life Insurance Subfund, and therefore did not require appropriation authority. Beginning in 2011, the expense associated with supplemental insurance was recognized which required an increase in appropriation authority for the Fund. In making this change, however, the 2012 Endorsed Budget did not fully recognize the increase in appropriation authority needed for supplemental insurance. The 2012 Proposed Budget corrects this and reflects the current accounting practice, which requires an additional \$2.5 million in budget authority. This change is fully backed by the premiums employees pay for this coverage, resulting in no net change to the Subfund.

**Special Employment Subfund:** There are no substantive changes from the 2012 Endorsed Budget to the to the 2012 Proposed Budget.

**Transit Benefit Subfund:** The 2012 Proposed Budget assumes a 5.5 percent increase in Ferry rates, no increase in Metro rates and little change in usage relative to 2012 Endorsed Budget assumptions. Offsetting this increase, the City worked throughout 2010 and early 2011 with King County Metro to enable Metro to refund unredeemed voucher payments for individual's ORCA passes and E-purses. Metro was successful and the City now receives monthly refunds of these unredeemed voucher payments. All effects combined the 2012 Proposed Budget anticipates a reduction in total City subsidy costs of \$492,000 relative to the 2012 Endorsed Budget.

#### 2012 Proposed Budget

\$152,611,802 0.00

**Claims & Premiums Expense - (\$17,014,539).** The 2012 Proposed Budget reflects a decrease of \$17 million over the total claims and premiums expense assumed in the 2012 Endorsed Budget. This is due to the underlying increase in health care costs over the 2011 Budget being less than assumed at the time of the 2012 Endorsed Budget, and in smaller part, due to the City's expected enrollment in its health care plans decreasing by approximately 200 enrollees in 2012 over 2011. This reduction in expense is reflected through technical adjustments in all City department budgets that maintain staff enrolled in the City's health care benefit plans.

**Wellness Program Funding – \$0.** This proposal reassigns the administrative cost for the work related to the Wellness Program, a program that is reflected as part of the Health Care Subfund, from the Personnel Department budget to the Health Care Subfund. Currently, this work is equivalent to 0.5 FTE of a Senior Personnel Analyst position in the Personnel Department. In 2012, this will result in \$50,000 of new costs being recognized in the Health Care Subfund; however, this increase is absorbed within the 2012 Endorsed Budget for the Wellness Program, resulting in no net change. This change better aligns the funding source to the services provided.

**Seattle Housing Authority – \$0.** The City's Personnel Department performs the necessary administrative duties associated with the Seattle Housing Authority (SHA)'s participation in the City's health care program. The costs for this work are recognized as part of the Personnel Department budget. Beginning in 2012, the \$60,000 in funding paid to the City by SHA for this service will be recognized as part of the City's General Fund instead of the Health Care Subfund to better align the revenue with costs incurred.

| Industrial Insurance Se | ubfund                      |               |      |
|-------------------------|-----------------------------|---------------|------|
|                         |                             | 2012 Dollar   | 2012 |
|                         |                             | Amount        | FTE  |
| 2012 Endorsed Budget    |                             | \$19,764,843  | 0.00 |
| 2012 Proposed Changes   |                             |               |      |
|                         | Anticipated Pension Payouts | (\$1,211,000) | 0.00 |
|                         | Anticipated Claims Activity | (\$908,773)   | 0.00 |
|                         | Administration Charges      | (\$54,070)    | 0.00 |
|                         | Technical Adjustments       | (\$218,260)   | 0.00 |
| Total Changes           |                             | (\$2,392,103) | 0.00 |
| 2012 Proposed Budget    |                             | \$17,372,740  | 0.00 |

**Anticipated Pension Payouts - (\$1,211,000).** This proposal reduces the City's reserve for pension payouts in 2012 from approximately \$3.2 million in the 2012 Endorsed budget to approximately \$2,000,000 in payouts.

**Anticipated Claims Activity - (\$908,773):** This proposal reduces the projected growth in the workers' compensation claim experience, resulting in a budget decrease of approximately \$900,000. This change is partially due to the slower than anticipated growth in health care costs, and to fewer than anticipated workers' compensation claims being opened.

Administration Charges - (\$54,070). The Personnel Department administers the Industrial Insurance Subfund. As part of the 2012 Proposed Budget process, the Personnel Department reviewed the administrative charges billed to the Industrial Insurance Subfund for work performed by Personnel staff. As a result of the review, this proposal reallocates funding for \$220,000 in staff related expenses from the General Fund to the Industrial Insurance Subfund to more accurately tie the funding source to the services provided. Additionally, the Personnel Department is abrogating a Manager position in the Worker's Compensation unit, and a Finance Analyst Assistant position in the Financial Services Division, that were previously billed to the Industrial Insurance Subfund in 2012 as compared to the 2012 Endorsed Budget.

**Technical Adjustments (\$218,260).** This proposal reduces the forecasted expense for the Washington State Labor & Industries by approximately \$228,000 as compared to the 2012 Endorsed Budget. In addition, this proposal increases the forecasted expense associated with a number of professional services contracts recognized as part of this Subfund by \$10,000.

\$6,164,483 0.00

#### **Unemployment Subfund**

|                       |                                 | 2012 Dollar | 2012 |
|-----------------------|---------------------------------|-------------|------|

|                       |                                 |             |      |
| 2012 Endorsed Budget  |                                 | \$2,103,218 | 0.00 |
| 2012 Proposed Changes |                                 |             |      |
|                       | Anticipated Unemployment Claims | \$715,093   | 0.00 |
|                       | Technical Adjustments           | \$2,851     | 0.00 |
| Total Changes         |                                 | \$717,944   | 0.00 |
|                       |                                 |             |      |
| 2012 Proposed Budget  |                                 | \$2,821,162 | 0.00 |

**Anticipated Unemployment Claims - \$715,093.** This proposal increases the projected expense for unemployment claims by approximately \$715,000 as compared to the 2012 Endorsed Budget, resulting in a net change in total projection from \$2.1 to \$2.8 million. While unemployment claims payable by the City are on a downward trajectory from a peak of \$3.1 million in 2010, the total is not expected to decrease to the extent that was anticipated in the 2012 Endorsed Budget.

**Technical Adjustments - \$2,851.** This proposal increases the professional services budget within the Unemployment Subfund.

|                       |                        |             |      |

#### 2012 Proposed Budget

**Supplemental Insurance - \$2,522,363.** The City has recently made an accounting change regarding the approach to recognizing funds collected from employees for the purchase of supplemental insurance policies. Previously, these funds were treated as a pass through and did not show up as an expense in the Group Term Life Insurance Subfund, and therefore did not require appropriation authority.

Beginning in 2011, the City began recognizing both the revenue and expense related to this activity in the Subfund. In making this change, the 2012 Endorsed Budget did not fully recognize the increase in appropriation authority needed for supplemental insurance. This is corrected in the 2012 Proposed Budget. While this change does not change the bottom line of the fund, it does increase the amount of appropriation authority recognized.

**Technical Changes - \$79,260.** The 2012 Proposed Budget reflects the current Long Term Disability premiums. Premiums are expected to increase by \$79,260 above what was assumed in the 2012 Endorsed Budget.

#### **Special Employment Program Subfund**

There are no substantive changes from the 2012 Endorsed Budget to the 2012 Proposed Budget. The 2012 Proposed Budget is \$321,576.

#### **Transit Benefit Subfund**

2012 Proposed Budget

|                       | 2012 Dollar                                |      |
|-----------------------|--|------|

| Health Care  | 143,462,403 | 154,807,010 | 169,626,341 | 152,611,802 |

# **Appropriations by Budget Control Level (BCL)**

#### Industrial Insurance Budget Control Level

The purpose of the Industrial Insurance Budget Control Level is to provide for medical, wage replacement, pension and disability claims related to occupational injuries and illnesses, occupational medical monitoring, workplace safety programs, and related expenses.

|                      | 2010       | 2011       | 2012       | 2012       |
|----------------------|------------|------------|------------|------------|
| Expenditures         | Actuals    | Adopted    | Endorsed   | Proposed   |
| Industrial Insurance | 16,880,180 | 19,128,820 | 19,764,843 | 17,372,740 |

# Special Employment Budget Control Level

The purpose of the Special Employment Budget Control Level is to capture the expenditures associated with outside agency use of the City's temporary, intern, and work study programs.

|                    | 2010    | 2011    | 2012     | 2012     |
|--------------------|---------|---------|----------|----------|
| Expenditures       | Actuals | Adopted | Endorsed | Proposed |
| Special Employment | 274,855 | 315,580 | 321,576  | 321,576  |

#### **Transit Benefit Budget Control Level**

The purpose of the Transit Benefit Budget Control Level is to provide appropriation authority for the transit benefits offered to City employees. The Transit Benefit Subfund receives payments from Finance General and fee-supported departments to pay for reduced-cost King County Metro and Washington State Ferry transit passes and related administrative expenses.

|                 | 2010      | 2011      | 2012      | 2012      |

City of Seattle—2012 Proposed Budget

#### Jill Simmons, Director

Information Line: (206) 615-0817 http://www.seattle.gov/environment

### **Department by Budget Control Level**

### **Department Overview**

The City's Office of Sustainability and Environment (OSE) collaborates with City departments, as well as community, nonprofit, and business partners to promote environmental sustainability in Seattle. OSE promotes environmental sustainability through three functional areas:

- Citywide Coordination: Coordinate interdepartmental work on environmental sustainability programs, policies, and outreach to advance the City's environmental goals and priorities.
- Innovation & Research: Conduct research and development for the City's next generation
  of environmental sustainability policies and programs. In 2012, OSE's innovation and
  research will focus on building energy, including: implementing Community Power Works,
  a \$20 million federal grant program to provide energy upgrades across six building sectors
  in central and southeast Seattle; developing a district energy strategic partnership; and
  developing performance-based energy codes.

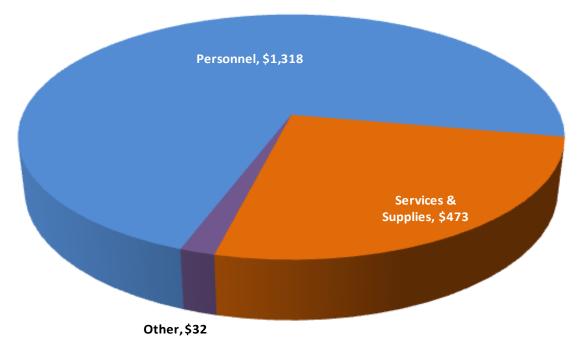

• Climate Change Action Planning and Measurement: Lead the development and Implementation of the Seattle Climate Action Plan (CAP), including goal assessment, action planning, community outreach, and performance measurement. The 2012 CAP will outline a strategy for moving Seattle toward a goal of carbon neutrality by establishing targets, and developing short-, mid- and long-term actions.

(\$amounts in thousands)

#### Total 2012 Proposed Expenditures - \$1,823

### 2012 Proposed Budget - Revenues By Category

(\$ amounts in thousands)

Total 2012 Proposed Revenues - \$1,823

### **Budget Overview**

General Fund budget pressures in 2012 and future years require that the Office of Sustainability & Environment make budget reductions. In developing the 2012 Proposed Budget, the Department reviewed all program areas to identify internal efficiencies and in doing so, was able to preserve direct services to the greatest extent possible. At the same time, OSE is expanding its service delivery to implement two new programs that support the Mayor's and the City Council's shared priority to advance environmental sustainability: the Resource Conservation Management Plan and the Food Systems initiative.

The City of Seattle remains committed to climate protection and taking actions to resolve greenhouse gas emissions. During his 2011 State of the City address, Mayor McGinn announced that the City of Seattle would accept the federal Better Building challenge to achieve 20% energy savings in municipal buildings by 2020. Because the City has already made significant investments in the resource efficiency of municipal facilities, a comprehensive citywide strategy will be necessary to achieve this goal. The 2012 Proposed Budget prioritizes this work by providing additional funding in support of developing a Resource Conservation Management Plan (RCMP) to identify energy and water saving opportunities in City facilities and outline a strategy to achieve the 20% efficiency increase.

The 2012 Proposed Budget also includes additional funding to support the development and implementation of the City of Seattle's Food Systems Initiative. The Food System Initiative is a coordinated effort to increase access to healthy and affordable food, promote urban agriculture, and foster the growth of local food economies.

In response to a challenging fiscal environment and constrained General Fund resources, the City of Seattle examined opportunities to change the way it does business in some areas and find efficiencies that streamline operations in others. As a result of this exercise, in 2012 OSE is changing its oversight role related to two programs: the City Green Building Team, which is transferred from the Department of Planning and Development (DPD) to OSE, and the Seattle reLeaf program which is transferred from OSE to Seattle Public Utilities (SPU).

To greater facilitate collaborative efforts already underway, the 2012 Proposed Budget consolidates the policy development elements of DPD's City Green Building team within OSE, and co-locates OSE into DPD office space. This change allows OSE to play the principal role in developing and coordinating sustainability policy for the City of Seattle. The Citywide Green Building (CGB) team, which has resided in the Department of Planning and Development (DPD), has increasingly begun to focus its efforts on strategic policy development for sustainable practices. Consolidating the policy functions of the City's Green Building Program with OSE's broader sustainability policy coordination will better align staff working on complementary programs.

Beginning in 2012, Seattle reLeaf, the City's urban forestry outreach and incentive program, will operate out of SPU. This transfer of reLeaf to SPU was the result of a SLI response to City Council and a resulting ordinance which consolidates the City's community tree planting and education programs. As part of the effort to identify efficiencies across all program areas, OSE reviewed the reLeaf work plan and determined that reductions are achievable while still maintaining an effective, consolidated urban forestry program. This transfer will take advantage of SPU 's outreach capabilities and will facilitate greater community engagement with the mission of increasing the City's tree canopy cover.

### **Incremental Budget Changes**

|                      | Conservation Management Plan   | \$75,000              | 0.00  |
|                      | Technical Adjustments  | \$80,597              | 0.00  |
| Total Changes        |  | \$514,597             | 3.75  |
| 2012 Proposed Budget |  | \$1,822,679           | 14.75 |

**Climate GHG Analysis and Reporting Reduction - (\$79,500).** As part of the 2011 midyear budget process, OSE ended its membership in the Climate Registry, a nonprofit organization that verifies and publicly reports the greenhouse gas (GHG) emissions of participating members. Ending OSE's Climate Registry membership does not preclude OSE from conducting future GHG inventories, but eliminates the requirement to do so. As a result, these proposals adjust OSE's GHG Inventory-related work plan by eliminating funding for the Climate Action Plan municipal intern, and decreasing costs associated with developing and publishing municipal and community GHG inventories by completing this work on a less frequent basis. OSE is retaining sufficient resources to release a GHG inventory every three years, which is in compliance with the Seattle Comprehensive Plan requirement. The impact of this reduction will be mitigated somewhat by the fact that Seattle City Light and Seattle Public Utilities maintain separate memberships in the Climate Registry.

Transfer Seattle reLeaf Program to Seattle Public Utilities and Reduce General Fund Support -

(\$75,000). This proposal reduces General Fund support by \$25,000 to align funding with programmatic needs. OSE has determined that the program can continue to be run effectively at 80% staff time as opposed to a full time position, and that program capacity is sufficient to plant 1,000 trees in 2012 instead of 1,200, thereby making it possible to reduce the program's funding by \$25,000 without affecting direct service levels achieved in prior years. In addition, this proposal transfers \$50,000 from OSE to Seattle Public Utilities (SPU) for the Seattle reLeaf program. Combined, these changes result in a net reduction of \$75,000 to OSE's budget, and a net savings of \$25,000 to the General Fund.

**Consolidate the City Green Building Team into OSE - \$513,500 / 3.75 FTE.** This proposal consolidates the policy development elements of DPD's City Green Building (CGB) team with OSE, and co-locates OSE in DPD office space while retaining the organizational structure of the two distinct departments.

DPD is transferring 3.75 FTE and the related funding to OSE. The staff will continue to focus on strategic policy development for sustainable practices. An anticipated efficiency resulting from the program consolidation is the ability to redirect some CGB staff resources to serve as a Citywide Resource Conservation Coordinator to manage the development of the Resource Conservation Management Plan.

**Expanded Service Delivery – Food Services and Resource Conservation Management Plan– \$75,000.** Implementation of the City of Seattle's Food Systems initiative is a priority for the Mayor and the City Council. This proposal transfers \$68,000 from Finance General to fund a part-time Food Systems Coordinator position as well as discretionary program costs. This transfer was captured as a technical adjustment and is captured in the 2012 Endorsed Budget line item. This proposal also funds \$75,000 in one-time professional services to develop a Resource Conservation Management Plan that will identify energy and water saving opportunities in City facilities. These resources support the broader effort to define a strategy to achieve a 20% efficiency increase by 2020 in City facilities.

**Technical Adjustments – \$80,597.** Technical adjustments in the 2012 Proposed Budget include departmental and citywide non-programmatic adjustments that do not change OSE's service delivery. Citywide technical changes reflect changes in central cost allocations, retirement, health care, workers compensation, and unemployment costs.

# **Appropriations by Budget Control Level (BCL)**

#### Office of Sustainability and Environment Budget Control Level

The purpose of the Office of Sustainability and Environment Budget Control Level is to coordinate interdepartmental environmental sustainability initiatives, identify and develop next generation policies and programs, and lead the City's climate change action planning to move towards carbon neutrality.
