GENERAL INFORMATION

CERTIFICATES OF APPROVAL

Certificates of Approval are official notices of approval issued by the International Special Review District Board and the Director of the Department of Neighborhoods. They are required before the City will issue permits for work resulting in any change to the exterior appearance of any International Special Review District structure, including facade alterations, new construction, demolition or remodeling. They also are required before building use, street use or sign permits will be issued. In addition, Certificates of Approval are required for work that normally would not require a permit, such as minor exterior remodeling and painting. All new signs require Board review and approval.

Repair-in-Kind: If the work you want to do involves ONLY repair using the same materials and exact same details and finishes, then a Certificate of Approval is not required. However, Board staff must be notified when you are planning in-kind maintenance or repair prior to undertaking the work.

WHY CERTIFICATES OF APPROVAL ARE REQUIRED

The International Special Review District was established by City Ordinance 102455 in 1973. This Ordinance attempts to protect the historic and ethnic character of the District through land use and design controls administered by the International Special Review District Board, a seven-member citizen advisory board that has five members elected by the community and two appointed by the Mayor and confirmed by City Council. Any of the changes listed above require review by the Board which makes a recommendation to the Director of the Department of Neighborhoods. The attached map shows the boundaries for the Special Review District.

THE PROCESS

Board Review: Board review may involve one review of a final proposal, but for larger, more complex proposals, Board review will occur during the conceptual, design development and final "working drawings" stages of the project. The Board uses its regulations and guidelines to evaluate proposals. It then makes recommendations to the Director of the Department of Neighborhoods as to whether a Certificate of Approval should be issued, issued with conditions, or denied.

Environmental Review: is generally required for larger scale projects, and usually consists of review of an "environmental checklist." Check with Board staff about the need for this review.

Board Meetings: are held on the 2nd and 4th Tuesdays of each month at the Bush Asia Center, 409 Maynard Avenue South. The meeting time is 4:30 p.m. in the basement meeting room. Meetings are conducted in accordance with the City's Administrative Code.

SCHEDULING FOR BOARD REVIEW

APPLICATION INSTRUCTIONS

- Fill out the application form completely. For Board members to properly act on a Certificate of Approval request, they require an accurate and thorough understanding of the proposal. **Incomplete applications will not be scheduled for Board review**. If you have questions, please call the Board Coordinator, at 206-684-0226.

- Submit a hard copy of the completed application form and four sets of hard copies of all documentation needed to clearly understand the proposal (see below) along with the application fee (see below) to Board staff.

- Determination of Completed Application: The Director of the Department of Neighborhoods shall determine whether an application is complete and shall notify the applicant in writing within twenty eight (28) days of the application being filed whether the application is complete or that the application is incomplete and what additional information is required before the application will be complete. Within fourteen (14) days of receiving the additional information, the Director of the Department of Neighborhoods shall notify the applicant in writing whether the application is now complete or what additional information is necessary. An application shall be deemed to be complete if the Director of the Department of Neighborhoods does not notify the applicant in writing by the deadlines in this section that the application is incomplete. A determination that the application is complete is not a determination that the application is vested.

The determination of completeness does not preclude the Director of the Department of Neighborhoods or the Board from requiring additional information during the review process if more information is needed to evaluate the application according to the criteria in this Chapter and in any rules adopted by the Board, or if the proposed work changes. For example, additional information that may be required could include a shadow study or a traffic study when new construction is proposed.

- Applicants will receive a copy of the agenda for the meeting in which their proposal will be reviewed approximately one week in advance of the meeting. Applicants should attend the meeting. Please contact the Board Coordinator if you can not attend.

- You should not make any changes, repairs, install signs, etc. without having Board approval.
