APPENDIX C: MAPS	C-1

Foreword

This report contains some of the information available from the Public Law 94-171 file for Washington State. Public Law 94-171 specifies that within one year of Census Day, the Census Bureau must send each state the data it will need to redraw districts for their state legislatures. The Washington State file became available on March 23, 2001.

The statistical tables provided by the Census Bureau include: total population, voting age population, race characteristics, and race characteristics for persons of Hispanic or Latino origin. Hispanic/Latino origin is not considered a race category. Race and Hispanic/Latino origin data are obtained from separate questions on the 2000 census questionnaires. Unlike in 1990, no housing unit counts are included in the PL 94-171 file.

This report extracts only some of the information from the file. The geographic coverage is for King, Kitsap, Pierce, and Snohomish counties. There are separate tables for counties, incorporated places and Census Designated Places (CDP), and census tracts. The Hispanic/Latino count is shown as a separate column, as is the number of persons who marked more than one race category (see below). Of the voting age (18+) tables, only the total population is included in the tables.

Appendices document the change in Census Tract geography between 1990 and 2000, and compare 1990 and 2000 population based on 1990 Census Tract geography. The printed report includes Census Tract and Census Designated Place maps. On the PSRC website, electronic versions of these maps are available separately from the downloadable PDF version of this report.

Data Availability

The census data in this report are available in hardcopy and electronically in dBase (*.dbf) and Excel (*.xls) file formats.

- Orders for additional printed reports may be directed to the Regional Council Information Center at (206) 464-7532.
- Electronic data files may also be downloaded from the Regional Council's website at <http://www.psrc.org>.

Hispanic Origin

The data on the Hispanic or Latino population were derived from answers to a question that was asked of all people. The terms “Spanish”, “Hispanic origin” and “Latino ”are used interchangeably. Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person ’s parents or ancestors before their arrival in the United States. People who identify their origin as Spanish, Hispanic, or Latino may be of any race.

Race

The data on race were derived from answers to the question on race that was asked of all people. The concept of race as used by the Census Bureau reflects self-identification by people according to the race or races with which they most closely identify. These categories are socio-political constructs and should not be interpreted as being scientific or anthropological in nature. Furthermore, the race categories include both racial and national-origin groups.

For the first time, respondents were offered the option of selecting one or more races. This could be done either by checking two or more race response check boxes, by providing multiple write-in responses, or by some combination of check boxes and write-in responses. In the tables, “Two or more races ” refers to combinations of two or more of the following race categories:

- White
- Black or African American
- American Indian and Alaska Native
- Asian
- Native Hawaiian and Other Pacific Islander
- Some other race

In 1990, “Native Hawaiian and Other Pacific Islander” was combined with “Asian.” There are 57 possible combinations in the PL 94-171 file involving the race categories shown above.

Census Designated Place (CDP)

Census designated places (CDPs) are delineated for each decennial census as the statistical counterparts of incorporated places. CDPs are delineated to provide data for settled concentrations of population that are identifiable by name but are not legally incorporated under the laws of the state in which they are located. The boundaries usually are defined in cooperation with local or tribal officials. These boundaries, which usually coincide with visible features or the boundary of an adjacent incorporated place or other legal entity boundary, have no legal status,

nor do these places have officials elected to serve traditional municipal functions. CDP boundaries may change from one decennial census to the next with changes in the settlement pattern; a CDP with the same name as in an earlier census does not necessarily have the same boundary.

I. County Population

Appendix B: Change in Population

APPENDIX B: Change in Census Tract Population, 1990-2000

This table provides population for 1990 and 2000 based on 1990 census tract geography.

In most cases where a 1990 tract was split in 2000, the 2000 population for those split tracts were aggregated. In cases where two 1990 tracts were merged in 2000, or where 1990 boundaries were moved in 2000, the 2000 population was obtained by aggregating 2000 block population by the appropriate 1990 geography. Those tracts are in **bold** and the aggregated population is in *italics*.

* This column shows the number of 2000 tracts formed from the 1990 tract. '0' indicates the tract was merged into a neighboring tract in 2000. See Appendix A for census tract correspondence.
