

FACT SHEET

25TH AVE NE PAVING PROJECT

SPRING 2018

PROJECT DESCRIPTION

This summer, we're planning to repave approximately 1.25 miles of 25th Ave NE between Montlake Blvd and NE 65th St (see map on reverse). Repaving will make the street more comfortable to drive on and extend its useful life.

PROJECT ELEMENTS

This maintenance project will:

- Repave and restripe 25th Ave NE between Montlake Blvd NE and NE 65th St; restriping will maintain current street operations
- Install and upgrade curb ramps in accordance with the Americans with Disabilities Act (ADA)
- Make minor drainage system upgrades
- Replace traffic sensors that control signals
- Make bus stop improvements, including a new shelter near NE Blakely St

BENEFITS

We know how important it is to maintain our streets, and our Paving Program helps take care of the basics by rehabilitating arterial streets each year. Arterial streets are primary routes for moving people and goods through the city. They connect business districts to one another and the regional transportation network.

Keeping our transportation system in a state of good repair helps lower the cost of future maintenance and extends the useful life of our roads.

SCHEDULE

- Early 2018 – Finalize project design
- Spring 2018 – Pre-construction coordination with the community and businesses
- Summer 2018 – Begin construction
- Late 2018 – Major construction activities complete

This project is funded by the 9-year Levy to Move Seattle, approved by voters in 2015. Learn more about the levy at www.seattle.gov/LevytoMoveSeattle.

25th Ave NE needs to be resurfaced and restriped.

WHAT YOU NEED TO KNOW

- We're committed to minimizing impacts to the extent feasible
- Our team is coordinating with other nearby projects that will be in construction at the same time, including:
 - 35th Ave NE Paving Project
 - NE 65th St Vision Zero Project
 - NE 45th St Viaduct Project
- We are also coordinating with the University of Washington to ensure construction activities do not occur on game days
- Learn more by visiting our webpage or by contacting the project outreach team
