GREEN LAKE AREA PAVING PROJECTS

April 2017

PROJECT DESCRIPTION

Starting as soon as 2019, we'll pave arterial streets in the Green Lake and Wallingford communities. Paving projects create opportunities to improve street safety and move people and goods more efficiently in a growing Seattle.

See map on reverse.

PROJECT BACKGROUND

Arterial streets are primary routes for moving people and goods through the city, and connecting neighborhoods and business districts to one another and the regional transportation network.

Each year, we pave arterial streets in poor condition to make them safer, smoother, and to extend their useful life. Keeping our transportation system in a good state of repair helps lower the cost of future maintenance.

We prioritize paving based on pavement condition, traffic volume, geographic equity, cost, and opportunities for grants or coordination with other projects in the area.

LEARN MORE & TELL US WHAT YOU THINK

We're committed to engaging with your community and understanding your needs. We'll use your feedback, data, and our citywide transportation plans to come up with updated street designs where appropriate.

Now is the time to get involved. Visit our website to learn more about the project, upcoming outreach events, see up-to-date info, and subscribe to our email list.
