"Squid"

Concept

August 2010

Concept

1. The Commission encourages the existence of breathing room between the building and play area to allow for normal functions to occur.

Revised

Concept

2. The design should present a stronger flow with more thought put into the path and their connections.

Concept

Revised

Concept

3. There is an unresolved relationship between the paths, curb, and parking lot in relation to ADA accessibility.

Concept

4. Consider adding a plaza-like space on the south east area that will allow placement of chairs and tables that will complement the kids play area.

Revised

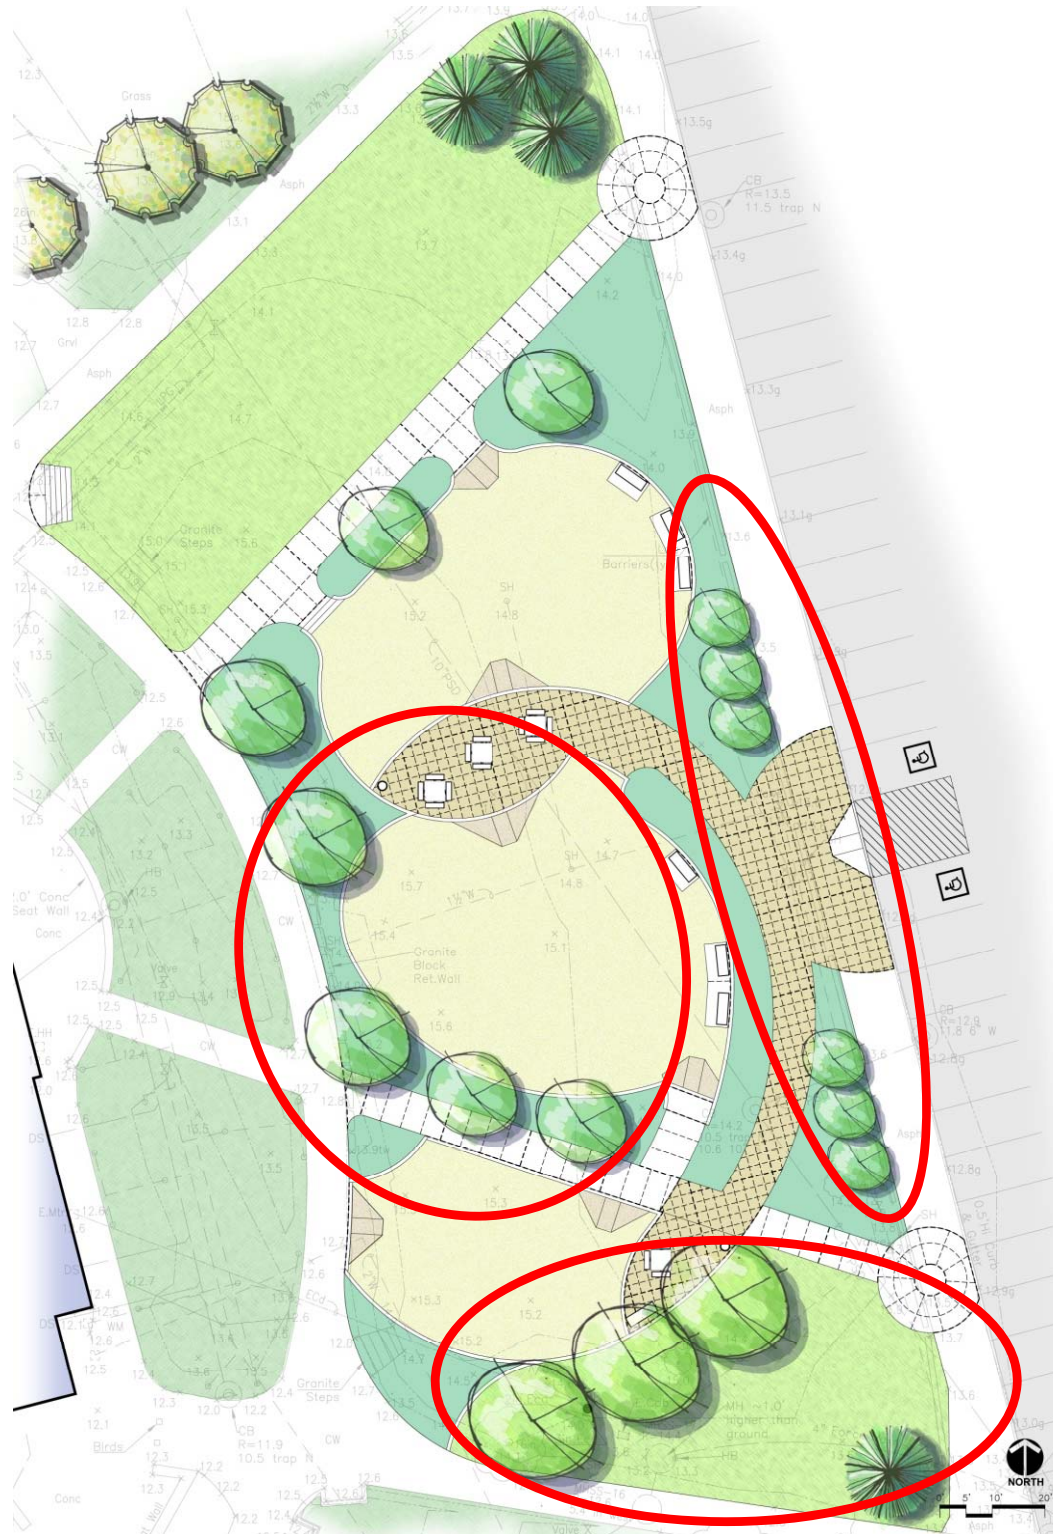

Concept

5. Consider the use of trees as well as other potential vertical elements as a way to the define spaces and create a progression of rooms.
