

City of Seattle

Gregory J. Nickels, Mayor

Department of Planning and Development

D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 3006088
Applicant Name: Brittani Ard for DC Granger Inc.
Address of Proposal: 4037 – 7th Avenue N.E.

SUMMARY OF PROPOSED ACTIONS

Land Use Application to subdivide one parcel into four unit lots. The construction of townhouses is being reviewed under Project #6098401. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

Short Subdivision to divide one parcel of land into four unit lots (unit subdivision).
(Chapter 23.24.045 , Seattle Municipal Code)

SEPA DETERMINATION: Exempt DNS MDNS EIS
 DNS with conditions
 DNS involving non-exempt grading or demolition or involving another agency with jurisdiction.

RELATED PROJECTS: Construction: #6098401

BACKGROUND DATA

Site and Vicinity Description

The proposal site is in the University District of Seattle in an area of multi-family use and zoning just east of the I-5 freeway and a short distance south of N.E. 45th St., an arterial with many

commercial uses. Alley access to the site exists from the south, but is interrupted by a freeway off ramp to the north.

The parcel measures 93 feet deep and 50 feet wide. A one foot wide strip along the alley is reserved for alley dedication.

Proposal Description

The applicant proposes to subdivide the subject parcel of land into six unit lots (unit subdivision). Proposed unit lot sizes are:

- | | | | |
|----|------------------|----|------------------|
| A) | 1,187.5 sq. ft., | C) | 1,163.4 sq. ft., |
| B) | 1,187.5 sq. ft., | D) | 1,062.6 sq. ft., |

Public Comments

No public comments were received.

ANALYSIS - SHORT SUBDIVISION

Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following criteria to determine whether to grant, condition or deny a short plat, no short plat shall be approved unless all of the following conditions are found to exist. The findings which follow are based on information provided by the applicant, referral comments from DPD, the Seattle Public Utilities, Seattle Fire Department, Seattle City Light, and review by the Land Use Planner.

1. *Conformance to the applicable Land Use Code provisions;*

This proposed unit subdivision of townhouse units would conform to all applicable development standards of section 23.24.045 "Unit Lot Subdivisions".

2. *Adequacy of access for vehicles, utilities and fire protection, as provided in Section 23.53.005;*

Vehicular access to the townhouses will be from the mid-block alley, which is improved. Parking is to be beneath the proposed structures, and all units have pedestrian access to the street.

Seattle City Light (SCL) typically requires an easement to provide power to the buildings on the new unit lots from the right-of-way. Prior to recording, SCL must review and approve the short subdivision. Any required SCL easement language must be incorporated into the recorded short plat.

The Seattle Fire Department has reviewed this proposed unit subdivision and requires no corrections.

3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*

DPD reviewed the existing, proximate public sanitary sewer system with the building permit application, and determined that there are no issues regarding sanitary sewage discharge from this project.

DPD reviewed the existing drainage infrastructure as part of the building permit application, and approved the proposed project stormwater control. Necessary easements and connection documents are included with a Side Sewer Permit.

The drainage reviewer has no recommended requirements to be required prior to publishing the unit lot subdivision decision.

Seattle Public Utilities has reviewed the proposal and issued Water Availability Certificate 20062308. All SPU conditions of approval must be met.

4. *Whether the public use and interests are served by permitting the proposed division of land;*

This proposal meets this criterion due to the fact that additional fee-simple housing will be available for sale within the City limits as a result of the unit subdivision of the parcel and construction of ground-related housing.

5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*

This site is not an Environmentally Critical Area (ECA) as defined in SMC 25.09.020; therefore this criterion is not applicable to this application.

6. *Is designed to maximize the retention of existing trees;*

Trees that existed prior to issuance of the building permit are no longer present on the site. This criterion therefore does not apply to this application.

7. *Conformance to the provisions of Section 23.24.045, Unit Subdivisions.*

The provisions of SMC Section 23.24.045 are as follows:

A. *The provisions of this section apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family residences in zones where such uses are permitted.*

The subject proposal would establish separate unit lots for six townhouse units in an L3 zone, thus falling within the purview of SMC Section 23.24.045.

B. *Sites developed or proposed to be developed with dwelling units listed in subsection A above may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit*

application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that private, useable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.

The approval of the building permits demonstrates that the development as a whole meets all applicable development standards. For ground related development, L3 zoning requires an average of three hundred (300) square feet per unit of private, usable open space, at ground level and directly accessible to each unit. No unit shall have less than two hundred (200) square feet of private, usable open space (SMC 23.45.016 A3a1). The proposed plat delineates the following amounts of qualifying open space:

- | | |
|-------------------|-------------------|
| A) 411 sq. ft., | D) 250.1 sq. ft., |
| B) 330 sq. ft., | |
| C) 229.9 sq. ft., | |

The average size of the above open spaces is 305.25 square feet.

- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*

Compliance with criterion F below should assure proper control of future platting actions, additions or modifications to the structures.

- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open spaces (such as common courtyard open space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*

The applicant has described the necessary easements for vehicular access to garages. A “joint use and maintenance agreement” for the property has been provided on plans and must be recorded for final approval of this unit subdivision. DPD conditions the project to provide adequate address signage for unit lots with no street frontage.

- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Required parking will be provided in private garages located beneath each unit. Each unit will have one garage parking space.

- F. *The fact that the unit lot is not a separate building lot and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

A note on the face of the plat clarifies that each unit lot is not a separate buildable site. The note must be recorded with the plat, and as such satisfies the provision.

Summary - Short Subdivision

Review of this site plan shows that the proposed short subdivision, as conditioned in this decision, will conform to applicable standards of SMC 23.24.045, Unit Subdivisions. The lots to be created by this short subdivision will meet all minimum standards of the L3 zone set forth in the Land Use Code. As conditioned, this short subdivision can be provided with vehicular access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions.

DECISION - SHORT SUBDIVISION

The proposed Short Subdivision is **CONDITIONALLY GRANTED**.

CONDITIONS - SHORT SUBDIVISION

Conditions of Approval Prior to Recording

1. Seattle City Light must review and approve the proposed plat. The owner(s) and/or responsible party(ies) shall show on the plat any required utilities easement.

The owner(s) and/or responsible party(ies) shall:

2. Have the final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel, or tract created by the short subdivision shall be surveyed in accordance with appropriate State statutes.
3. Add the following note to the face of the plat: *“The lots created by this unit subdivision are not separate buildable lots. Additional development on these unit lots in this unit subdivision may be limited as a result of the application of development standards to their parent lot pursuant to applicable provisions of the Seattle Land Use Code.”*
4. Provide a joint maintenance and responsibility agreement for maintenance and use of shared walls on property lines and all ingress, egress, and utility easements.

5. Provide an area to allow for the posting of address signage for Unit Lots D-F at a location visible from Midvale Ave N and provide a covenant and/or an easement to ensure that address signage can be maintained.
6. Submit the final recording forms for approval.
