

City of Seattle

Gregory J. Nickels, Mayor

Department of Planning and Development

D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 3010074
Applicant Name: Greg Brant
Address of Proposal: 102 30th Avenue

SUMMARY OF PROPOSED ACTION

Land Use Application to subdivide one parcel into two unit lots. The construction of residential units has been approved under Project #6193456. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

Short Subdivision - to create two unit lots. (SMC Chapter 23.24).

SEPA DETERMINATION: Exempt DNS MDNS EIS
 DNS with conditions
 DNS involving non-exempt grading or demolition, or
involving another agency with jurisdiction.

BACKGROUND DATA

Site & Area Description

The subject property is at the northeast corner of the intersection of 30th Avenue and Yesler Street, just a block west of the Leschi School. It is zoned and surrounded by L1 zoning, with mostly small apartment buildings prevailing, although there is a B'hai church across the street to the south, and a townhouse-plat appearing development to the immediate north. The property is currently permitted for development with a new single family residence. Vehicle access will be from 30th Avenue, a two lane paved street with sidewalks, curbs and planting strip on the subject

side. Two required parking spaces will be located at surface south of the north property line and setback 10 feet from 30th. Required open space will be provided.

Proposal Description

The proposal is to establish unit lot lines to accommodate “fee simple” ownership for the existing house and the proposed new house.

Public Comment

None.

ANALYSIS – SHORT SUBDIVISION

Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following criteria to determine whether to grant, condition or deny a short plat:

1. *Conformance to the applicable Land Use Code provisions, as modified by this chapter;*
2. *Adequacy of access for pedestrians, vehicles, utilities and fire protection, as provided in Section 23.53.005, Access to Lots, and Section 23.53.006, pedestrian access and circulation;*
3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*
6. *Is designed to maximize the retention of existing trees;*
7. *Conformance to the provisions of Section 23.24.046, Multiple single-family dwelling units on a single family lot, when the short subdivision is for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing; and*
8. *Conformance to the provisions of Section 23.24.046, Multiple single-family dwelling units on a single-family lot, when the short subdivision is for the purpose of creating 2 or more lots from 1 lot with more than 1 existing single-family dwelling unit.*

Summary

Based on information provided by the applicant, referral comments as appropriate from DPD, Water (SPU), Fire Department (SFD), Seattle City Light, and review by the Land Use Planner, the applicable of the above cited criteria have been met subject to the conditions imposed at the end of this decision. The lots to be created by this short subdivision will meet all minimum standards or applicable exceptions as set forth in the Land Use Code, and are consistent with applicable development standards. As conditioned, this short subdivision can be provided with vehicular access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply and sanitary sewage disposal have been

provided for each lot and service is assured, subject to standard conditions governing utility extensions. The proposal site is not located in a mapped environmentally critical area; hence, the provisions of SMC 25.09.240 are not applicable. The proposed plat maximizes the retention of existing trees. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional owner-occupied housing opportunities in the City.

ANALYSIS –UNIT LOT SUBDIVISION (CRITERION #7)

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The unit subdivision provisions of SMC Section 23.24.045 apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family residences in zones where such uses are permitted.*
- B. *Except for any site for which a permit has been issued pursuant to Section 23.44.041 for a detached accessory dwelling unit, sites developed or proposed to be developed with dwelling units listed in subsection A above, may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of King County Development of Records and Elections.*
- F. *The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed short subdivision would conform to applicable standards of SMC 23.24.045 subject to the conditions imposed at the end of this decision. For example, a condition is imposed to provide for common use and maintenance of

utilities. Additional development on any individual lot in this unit subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code. A joint use and maintenance agreement has been provided on the plat, as has a provision for addressing.

DECISION - SHORT (UNIT LOT) SUBDIVISION

The proposed Short Subdivision is **CONDITIONALLY GRANTED**. Applicant must meet all standard recording requirements and conditions and/or requirements as attached to approval cover letter. (Conditions of approval prior to recording are to be met, but they are not to be printed onto the plat to be recorded).

CONDITIONS - SHORT SUBDIVISION

Prior to Issuance of any Building Permit

1. The owner(s) and/or responsible party(s) shall attach a copy of the recorded short subdivision to all permit application plans for any application for a permit to construct, demolish, or change use.
