Conclusion

Based on information provided by the applicant, referral comments from DPD and other City Departments, and review and analysis by the Land Use Planner, the above criteria have been met. The short subdivision meets all minimum standards or applicable exceptions set forth in the Land Use Code. This short subdivision will provide pedestrian and vehicular access (including emergency vehicles) to both lots, and preserves access easements to lots located north of the subject lots. This short subdivision will provide public and private utilities, including a utility easement and a water main extension provided by contract with Seattle Public Utilities. Adequate provisions for drainage control, water supply and sanitary sewage disposal will be

provided for each lot and service is assured, subject to standard conditions governing utility extensions. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.
