

## City of Seattle

---

Department of Planning and Development  
D. M. Sugimura, Director

**CITY OF SEATTLE  
ANALYSIS AND DECISION OF THE DIRECTOR  
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

**Application Number:** 3015532  
**Applicant Name:** Dave B. Biddle  
**Address of Proposal:** 1130 N 90<sup>th</sup> Street

### **SUMMARY OF PROPOSED ACTION**

Land Use Application to subdivide one development site into two unit lots. The construction of residential units is being reviewed under Project #6336109. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

**Short Subdivision** - to create two unit lots.  
(Chapter 23.24, Seattle Municipal Code).

### **BACKGROUND INFORMATION**

Zoning: LR3 (Residential, Multifamily, Lowrise 3)

Public Comment: The Department of Planning & Development received no public comment letter during the comment period which ended on August 21<sup>st</sup> 2013.

### **ANALYSIS - SUBDIVISION**

This unit lot subdivision is a type of short subdivision, and is subject both to the general approval criteria for short subdivisions and also specific requirements for unit lot subdivisions.

General short subdivision standards: Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following criteria to determine whether to grant, condition, or deny a short plat:

1. *Conformance to the applicable Land Use Code provisions, as modified by this chapter;*
2. *Adequacy of access for pedestrians, vehicles, utilities and fire protection as provided in Section 23.53.005, Access to lots, and Section 23.53.006, Pedestrian access and circulation;*
3. *Adequacy of drainage, water supply and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of Section 25.09.240, Short subdivisions and subdivisions, in environmentally critical areas;*
6. *Whether the proposed division of land is designed to maximize the retention of existing trees;*
7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouse, rowhouse, and cottage housing developments as permitted in Single-Family, Residential Small Lot, and Lowrise zones and for single-family dwelling units in Lowrise zones, or any combination of the above types of residential development, as permitted in the applicable zones; and;*
8. *Conformance to the provisions of Section 23.24.046, Multiple single-family dwelling units on a single-family lot, when the short subdivision is for the purpose of creating two or more lots from one lot with more than one existing single-family dwelling unit.*
9. *Every lot except unit lots and lots proposed to be platted for individual live-work units in zones where live-work units are permitted, shall conform to the following standards for lot configuration, unless a special exception is authorized under subsection 23.24.040.B:*
  - a. *If a lot is proposed with street frontage, then one lot line shall abut the street for at least 10 feet; and*
  - b. *No lot shall be less than 10 feet wide for a distance of more than 10 feet as measured at any point; and*
  - c. *No proposed lot shall have more than six separate lot lines. The lot lines shall be straight lines, unless the irregularly shaped lot line is caused by an existing right-of-way or an existing lot line; and*
  - d. *If the property proposed for subdivision is adjacent to an alley, and the adjacent alley is either improved or required to be improved according to the standards of Section 23.53.030, then no new lot shall be proposed that does not provide alley access, except that access from a street to an existing use or structure is not*

*required to be changed to alley access. Proposed new lots shall have sufficient frontage on the alley to meet access standards for the zone in which the property is located.*

Based on information provided by the applicant, referral comments from DPD and other City Departments, and review and analysis by the Land Use Planner, the above criteria have been met. The unit lot subdivision meets all minimum standards or applicable exceptions set forth in the Land Use Code. This unit lot subdivision will provide pedestrian and vehicular access (including emergency vehicles), and public and private utilities. Adequate provisions for drainage control, water supply and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions. Unit lot Subdivisions are not subject to SMC 25.09.240. Tree and other landscaping requirements were considered under the building permit review. The public use and interest are served by the proposal since all applicable criteria **as conditioned** are met and the proposal creates the potential for additional owner-occupied housing opportunities in the City.

Unit lot subdivision standards: The unit lot subdivision must conform to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The provisions of this section apply exclusively to the unit subdivision of land for townhouses, rowhouse and cottage housing developments as permitted in Single-Family, Residential Small Lot, and Lowrise zones, and for single-family dwelling units in Lowrise zones, or any combination of the above types of residential development, as permitted in the applicable zones.*
- B. *Except for any site for which a permit has been issued pursuant to Section 23.44.041 or 23.45.545 for a detached accessory dwelling unit, sites developed or proposed to be developed with dwelling units listed in subsection 23.24.045 A above may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space or private amenity area for each dwelling unit shall be provided on the same unit lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard open space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*

- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of the King County Department of Records and Elections.*
- F. *The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

The unit lot subdivision conforms to applicable standards of SMC 23.24.045. Structures reviewed under a separate building permit, conform to the development standards at the time the permit application was vested to Code.

**DECISION – UNIT LOT SUBDIVISION**

The proposed Unit Lot Subdivision is **GRANTED with Conditions**.

**CONDITION OF APPROVAL PRIOR TO RECORDING**

1. **Parking.** In the Ingress, Egress & Parking Easement clearly define each unit lots parking designated area, and ensure the designated area is reflected in the legal description of each unit lot.
2. **Existing Easement.** Existing easements must be shown on the plat. Since your plat application on Sheet 3 of 4 has a statement that easements that would appear on a title report are not shown on a plat, please provide a copy of a recent title report that shows there are no easements of record. Alternatively, remove the reference that no easements are shown.
3. **Survey Conditions.** Please remove the disclaimer on Sheet 1 of 5 that states that this development may include structures that may cross unit lot lines & may have other development aspects of common interest to unit lot owners.
