**CITY OF SEATTLE  
ANALYSIS AND DECISION OF THE DIRECTOR OF  
THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

**Application Number:** 3017247  
**Applicant Name:** Jonathan Brandt  
**Address of Proposal:** 4750 54<sup>th</sup> Ave SW

---

**SUMMARY OF PROPOSAL**

Project Description

Land Use Application to allow a single family residence with attached garage in an environmentally critical area. Project includes 1,042 cu. yds. of grading.

Required Approval

The following approval is required:

**SEPA Environmental Threshold Determination** (Seattle Municipal Code (SMC) 25.05)

**SEPA DETERMINATION**

- Exempt  DNS  MDNS  EIS  
 DNS with conditions  
 DNS involving non-exempt grading or demolition or  
involving another agency with jurisdiction

Zoning: Single Family (SF) 5000 and SF 7200

Parcel Size: 19,622 square feet

Existing Uses: Single Family Structure

Environmentally Critical Areas: Steep Slope, Potential Slide Area, Liquefaction Prone

## SITE AND VICINITY

### Surrounding Development

The subject site is located at the northern terminus of 54<sup>th</sup> Avenue Southwest between Southwest Angeline Street to the north and Southwest Edmonds Street to the south. The site is surrounded by

SF 5000 and 7200 zoning. Existing development consists of two- or three-story residential structures within the LR1 zone.

### Public Comment

The public comment period ended on June 4, 2014 after a request for an extension. Comments regarding erosion, stormwater, and vegetation removal were received.

### **ANALYSIS – SEPA (WAC 97-11 and SMC 25.05)**

Environmental review resulting in a Threshold Determination is required pursuant to the Seattle State Environmental Policy Act (SEPA), Washington Administrative Code (WAC) 197-11, and the Seattle SEPA Ordinance (SMC 25.05).

The initial disclosure of the potential impacts from this project was made in the environmental checklist submitted by the applicant. The Department of Planning and Development (DPD) has analyzed and annotated the environmental checklist submitted by the project applicant, reviewed the project plans, any additional information in the file, and considered any pertinent comments which may have been received regarding this proposed action. As indicated in the checklist, this action may result in adverse impacts to the environment; however, due to their temporary nature or limited effects, the impacts are not expected to be significant.

The *SEPA Overview Policy* (SMC 25.05.665) clarifies the relationship between codes, policies, and environmental review. Specific policies for each element of the environment, and certain neighborhood plans and other policies explicitly referenced, may serve as the basis for exercising substantive SEPA authority. The *SEPA Overview Policy* states, in part, “Where City regulations have been adopted to address an environmental impact, it shall be presumed that such regulations are adequate to achieve sufficient mitigation” subject to some limitations (SMC 25.05.665).

Codes and development regulations applicable to this proposed project will provide sufficient mitigation for short and/or long term impacts. Applicable codes may include the *Stormwater Code* (SMC 22.800-808), the *Grading Code* (SMC 22.170), the *Street Use Ordinance* (SMC Title 15), the *Seattle Building Code*, and the *Noise Control Ordinance* (SMC 25.08). Puget Sound Clean Air Agency regulations require control of fugitive dust to protect air quality.

### SHORT TERM IMPACTS

Temporary or construction-related impacts are anticipated to result in some adverse impacts. Examples of impacts may include temporary soil erosion, decreased air quality due to increased dust and other suspended air particulates during excavation, filling and transport of materials to and from the site, increased noise and/or vibration from construction operations and equipment, increased traffic and parking demand from construction personnel traveling to and from the work site, consumption of renewable and non-renewable resources, and/or an increase in carbon dioxide and other greenhouse gas emissions which adversely impact air quality and contribute to climate change and global warming. Compliance with applicable codes and ordinances will reduce or eliminate most adverse short-term impacts to the environment.

### **LONG TERM IMPACTS**

Long term or use-related impacts are also anticipated as a result of this proposal. Examples of such impacts may include an increased surface water runoff due to greater site coverage by impervious surfaces, increased traffic in the area, an increase in carbon dioxide and other greenhouse gas emissions which adversely impact air quality and contribute to climate change and global warming, and increased demand for public services and utilities. Compliance with applicable codes and ordinances will reduce or eliminate most adverse long-term impacts to the environment.

### **DECISION – SEPA**

This decision was made after review by the responsible official on behalf of the lead agency of a completed environmental checklist and other information on file with the responsible department. This constitutes the Threshold Determination and form. The intent of this declaration is to satisfy the requirement of the State Environmental Policy Act (Revised Code of Washington (RCW) 43.21.C), including the requirement to inform the public of agency decisions pursuant to SEPA.

- Determination of Non-Significance. This proposal has been determined to not have a significant adverse impact upon the environment. An Environmental Impact Statement (EIS) is not required under RCW 43.21.030(2)(c).
- Determination of Significance. This proposal has or may have a significant adverse impact upon the environment. An EIS is required under RCW 43.21C.030(2)(C).

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued after using the *Optional DNS Process* in WAC 197-11-355 and *Early Review DNS Process* in SMC 25.05.355. There is no further comment period on the DNS.

**CONDITIONS**

None.
