

**SEPA DETERMINATION OF NON-SIGNIFICANCE (DNS)
SEATTLE DEPARTMENT OF TRANSPORTATION
WESTLAKE TRANSIT PRIORITY IMPROVEMENTS**

Description of Proposal:

The Seattle Department of Transportation (SDOT) proposes to build the Westlake Transit Priority Improvements project which would change the designation of one general purpose traffic lane in each direction along Westlake Avenue N between McGraw Square and Valley Street in downtown Seattle. General purpose lanes would be re-designated as transit-only and Business Access and Transit (BAT) lanes. These proposed changes would enhance the operation of the South Lake Union Streetcar and accommodate King County Metro's near-term transit service changes to the Rapid Ride C and Route 40 bus lines.

The completed project would restrict right turn movements at Denny Way, Thomas Street and Harrison Street in the northbound direction and at Mercer Street, Republican Street and Thomas Street in the southbound direction. Left turn movements would be restricted at Republican Street and Mercer Street in the northbound direction and at Republican St and Thomas Street in the southbound direction. The project would include a new northbound bus queue jump at Harrison Street and a new signal would be installed at the intersection of Denny Way and Lenora Street. Some parking would be removed along both sides of the street between John Street and Valley Street.

Location of Proposal:

The project is located within the City of Seattle in the Denny Triangle and South Lake Union neighborhoods. The alignment runs along Westlake Avenue N from the Westlake International Transit hub at Westlake Avenue N and Stewart Street in the south to Valley Street in the north.

SDOT has determined that this proposal would not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information may be examined in the Seattle Department of Planning and Development Public Resource Center at 700 Fifth Ave, Suite 2000, Seattle 98124.
