D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 3003348
Applicant Name: Tyler Goodmanson for Steve West
Address of Proposal: 4816 40th Avenue SW

SUMMARY OF PROPOSED ACTION

Master Use Permit to subdivide one parcel into six unit lots. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original lot and not to each of the new unit lots. The construction of townhouses and a single family residence is being reviewed under Project # 2407237.

The following approval is required:

Short Subdivision - To create six unit lots. (SMC Chapter 23.24)

SEPA DETERMINATION: Exempt DNS MDNS EIS
 DNS with conditions
 DNS involving non-exempt grading or demolition or involving another agency with jurisdiction.

BACKGROUND DATA

Location: The subject site is located on the east side of 40th Avenue SW, between SW Edmunds Street and SW Hudson Street.

Zoning: Residential, Multi-family, Lowrise 2 (L2).

Uses on site: Residential.

Substantive site characteristics: The approximately 6,600-square foot parent site slopes down gradually towards the east and does not contain any mapped Environmentally Critical Areas. The site contains a single family structure. The single family structure is to be removed. At the site location, 40th Avenue has been improved with curb, gutter, and sidewalks.

Area characteristics: The zone changes to Neighborhood Commercial 3 (NC3-40) immediately to the north of the site. Across the street to the west, the zone changes to Single Family 5000. To the immediate east of the site, the zoning changes to Lowrise 3 and one lot south of the site, the zone changes to Lowrise 1. The area is developed with a variety of single and multi family structures, as well as the YWCA abutting the site to the north.

Proposal: The applicant proposes to subdivide one parcel into six unit lots with the following areas: Unit Lot A) 952 square feet, Unit Lot B) 960 square feet; Unit Lot C) 891 square feet, Unit Lot D) 892 square feet, Unit Lot E) 1,444 square feet; and Unit Lot F) 1,444 square feet.

Public Comment: One public comment letters was received during the comment period which ended on October 26, 2005. The comment raised concerns with the increased parking along 40th Avenue SW from the recent residential development in the area.

ANALYSIS - SHORT SUBDIVISION

Pursuant to SMC 23.24.040, no short plat shall be approved unless all of the following applicable facts and conditions are found to exist.

1. *Conformance to the applicable Land Use Code provisions;*
2. *Adequacy of access for vehicles, utilities and fire protection, as provided in Section 23.53.005, Access to lots;*
3. *Adequacy of drainage, water supply and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of Section 25.09.240, Short subdivisions and subdivisions, in environmentally critical areas;*
6. *Is designed to maximize the retention of existing trees.*

Summary - Short Subdivision

Based on information provided by the applicant; referral comments from DPD, Water (SPU), the Fire Department (SFD), and Seattle City Light; and review by the Land Use Planner, the above cited criteria have been met subject to the conditions imposed at the end of this decision.

The unit lots to be created by this short subdivision would meet all minimum standards or applicable exceptions set forth in the Land Use Code, and would be consistent with applicable development standards. As conditioned, this unit lot short subdivision could be provided with vehicular access and both public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply, and sanitary sewage disposal have been provided for each lot, and service is assured, subject to standard conditions governing utility extensions. The unit lot short plat would not affect tree retention. The public use and interest would be served by the proposal because all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.

ANALYSIS –UNIT LOT SUBDIVISION

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, is required when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing developments, residential cluster developments, or single-family residences. Section 23.24.045 requires the following:

- A. *The unit subdivision provisions of SMC Section 23.24.045 apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family residences in zones where such uses are permitted.*
- B. *Sites developed or proposed to be developed with dwelling units listed in subsection A above, may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of King County Department of Records and Elections.*
- F. *The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed short subdivision would conform to applicable standards of SMC 23.24.045, subject to the conditions imposed at the end of this decision. The proposed development would consist of two townhouse units in each of three structures. The structures, as reviewed and approved under a separate building permit must conform to the development standards at the time the permit application is approved for issuance.

To assure that future owners have constructive notice that additional development may be limited; the applicant has included the following note on Sheet 1 of 5 of the plat: *“The unit lots shown on this site are not separate buildable lots. Additional development on any individual unit lot in this subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code Chapter 23 of the Seattle Municipal Code.”* In addition, a joint use/maintenance agreement has been added to the face of the plat, and a City Light easement would be provided for electric service. Furthermore, open space would be provided on each unit lot. Parking for each unit will be provided on proposed parcels E and F and accessed through access easements. Finally, the unit lot subdivision, as conditioned, would provide an easement or covenant for address signage for the proposed unit lots without street frontage (Unit Lots C, D, E and F).

DECISION – UNIT LOT SUBDIVISION

The proposed Unit Lot Subdivision is **CONDITIONALLY APPROVED**.

CONDITIONS – UNIT LOT SUBDIVISION

Conditions of Approval Prior to Recording

The owner(s) and/or responsible party(s) shall:

1. The street address sign, containing the assigned addresses for Unit Lots C, D, E and F located behind the residential units on Unit Lots A and B, clearly visible from 40th Avenue SW, shall be placed near 40th Avenue SW within the utility easement.
2. The Joint Use/Maintenance Agreement should be revised to include the common sidesewer and storm drainage system that will serve the proposed unit lots.
3. As applicable, add the conditions of approval after recording on the face of the plat or on a separate page. If the conditions are on a separate page, insert on the plat “For conditions of approval after recording see page ___ of ___.”
4. On the face of the plat, provide easement language for electric service as specified by Seattle City Light (Easement P.M. #240323-1-014).

5. Have final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel, or tract created by the short subdivision shall be surveyed in accordance with appropriate State statutes. The property corners set shall be identified on the plat and any encroachments such as side yard easements, fences or structures shall be shown. The lot areas of each unit lot shall be shown on the recording documents.

6. Submit the final recording forms and any final fees for approval.
