### **Background**

The Fee Subtitle, Chapter 22.900 of the Seattle Municipal Code, prescribes fees for various permits, reviews and inspections. Section 22.900D.010.C specifies that the Director shall determine the value of construction for which a permit is issued. It further specifies that building valuation data from the International Code Council (ICC) and other valuation criteria approved by the Director will be used to determine the value of construction.

Directors Rule 1-2007 outlines the means and methods used to calculate and update the Building Valuation Data (BVD).

This rule updates the Building Valuation Data for 2008, by formally modifying and adopting the ICC August 2007 Building Valuation Data pursuant to the standards outlined in DPD Director's Rule 1-2007.

### **Rule**

The attached Building Valuation Data shall be used to determine the value of construction according to Section 22.900C.010 as of January 1, 2008.
