

Transform Seattle

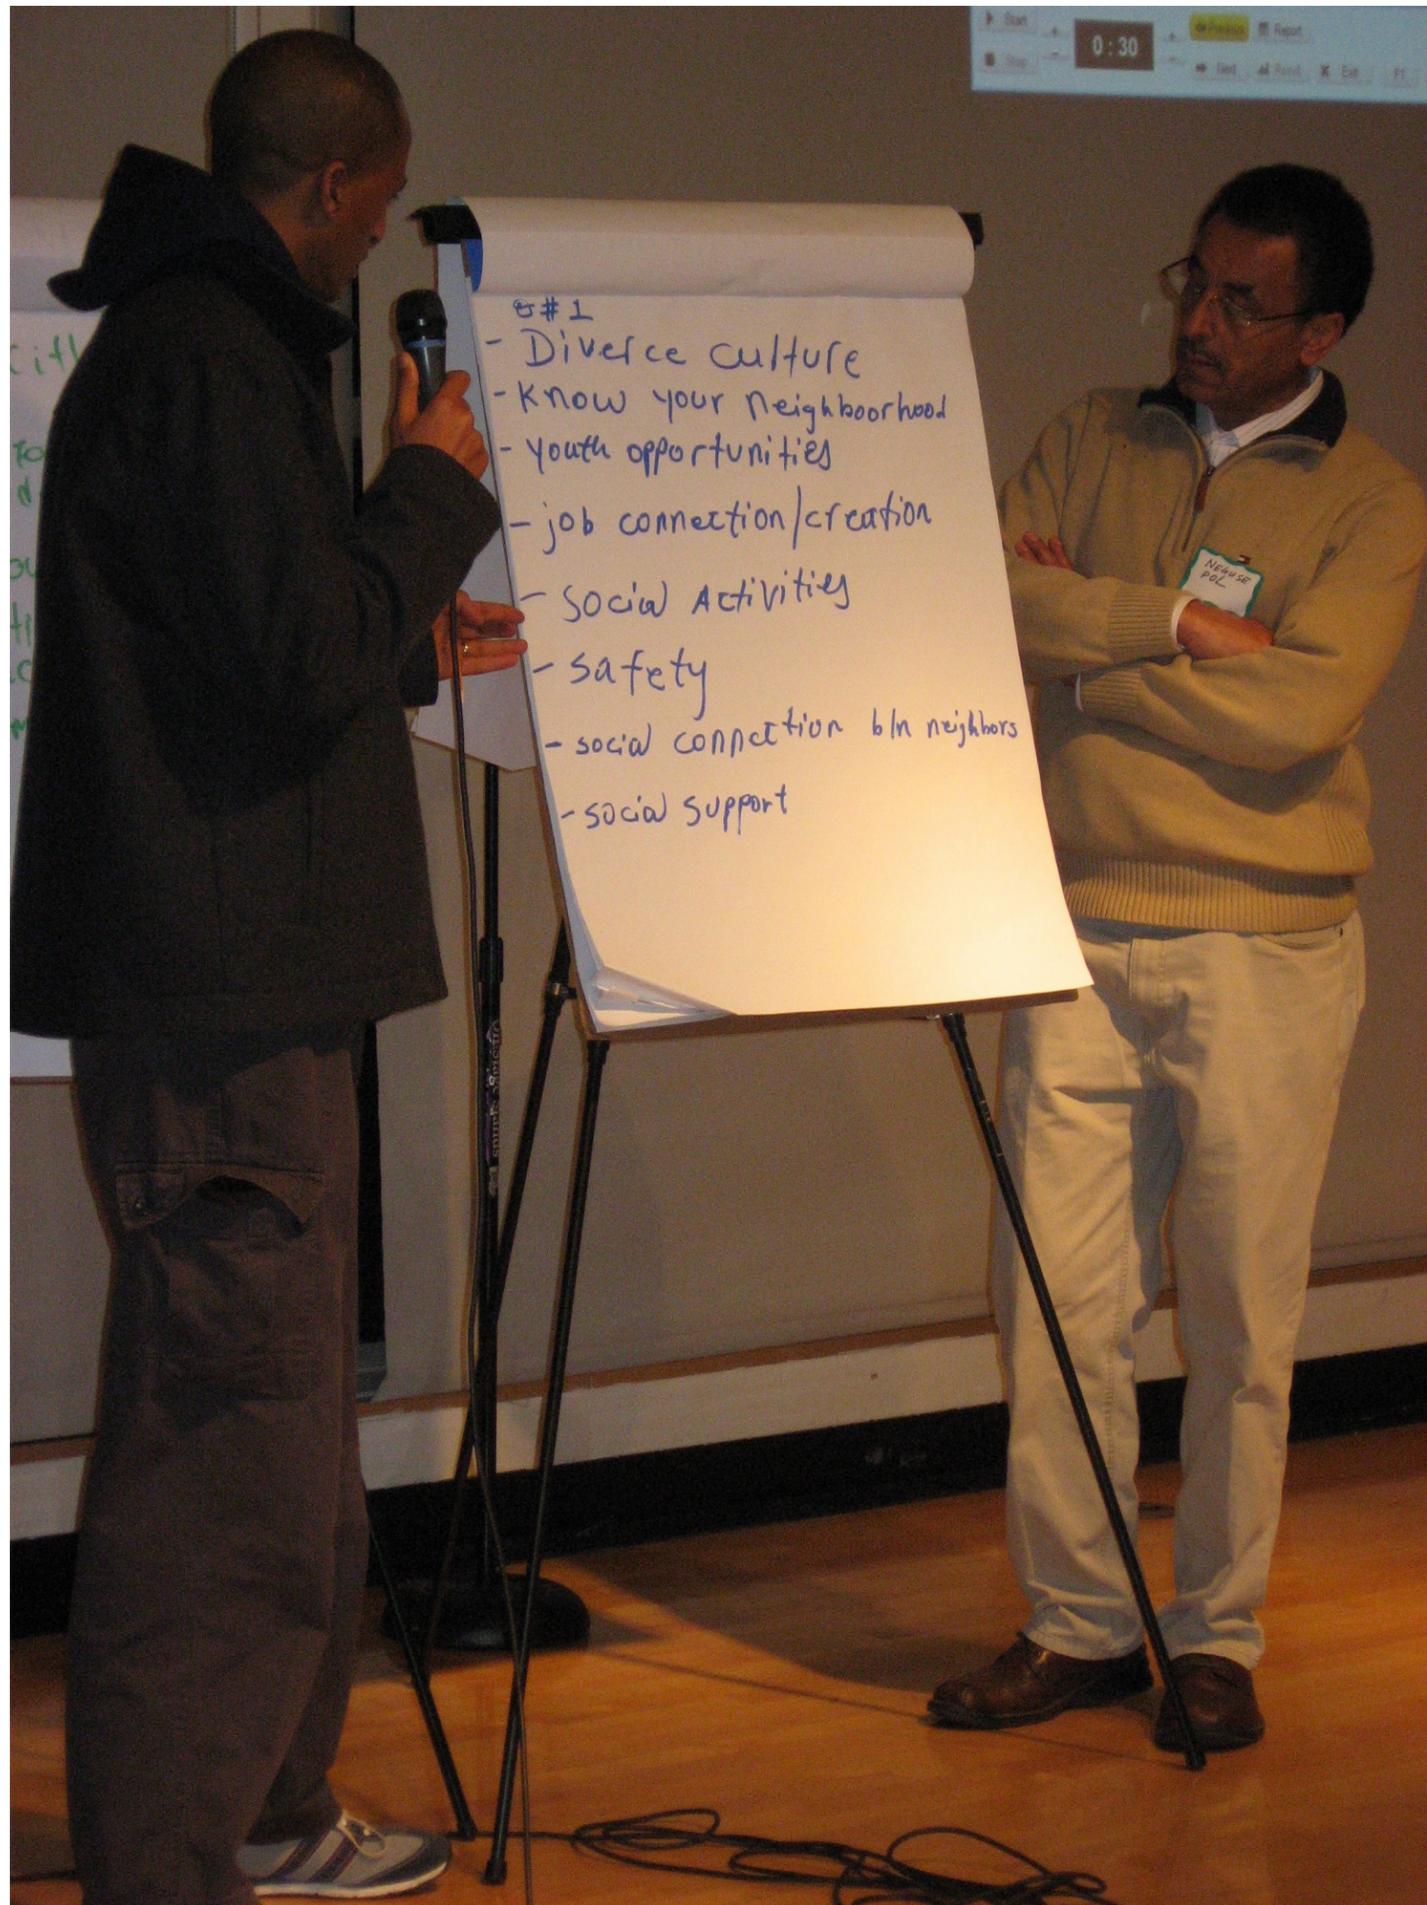

MANY VOICES  ONE FUTURE

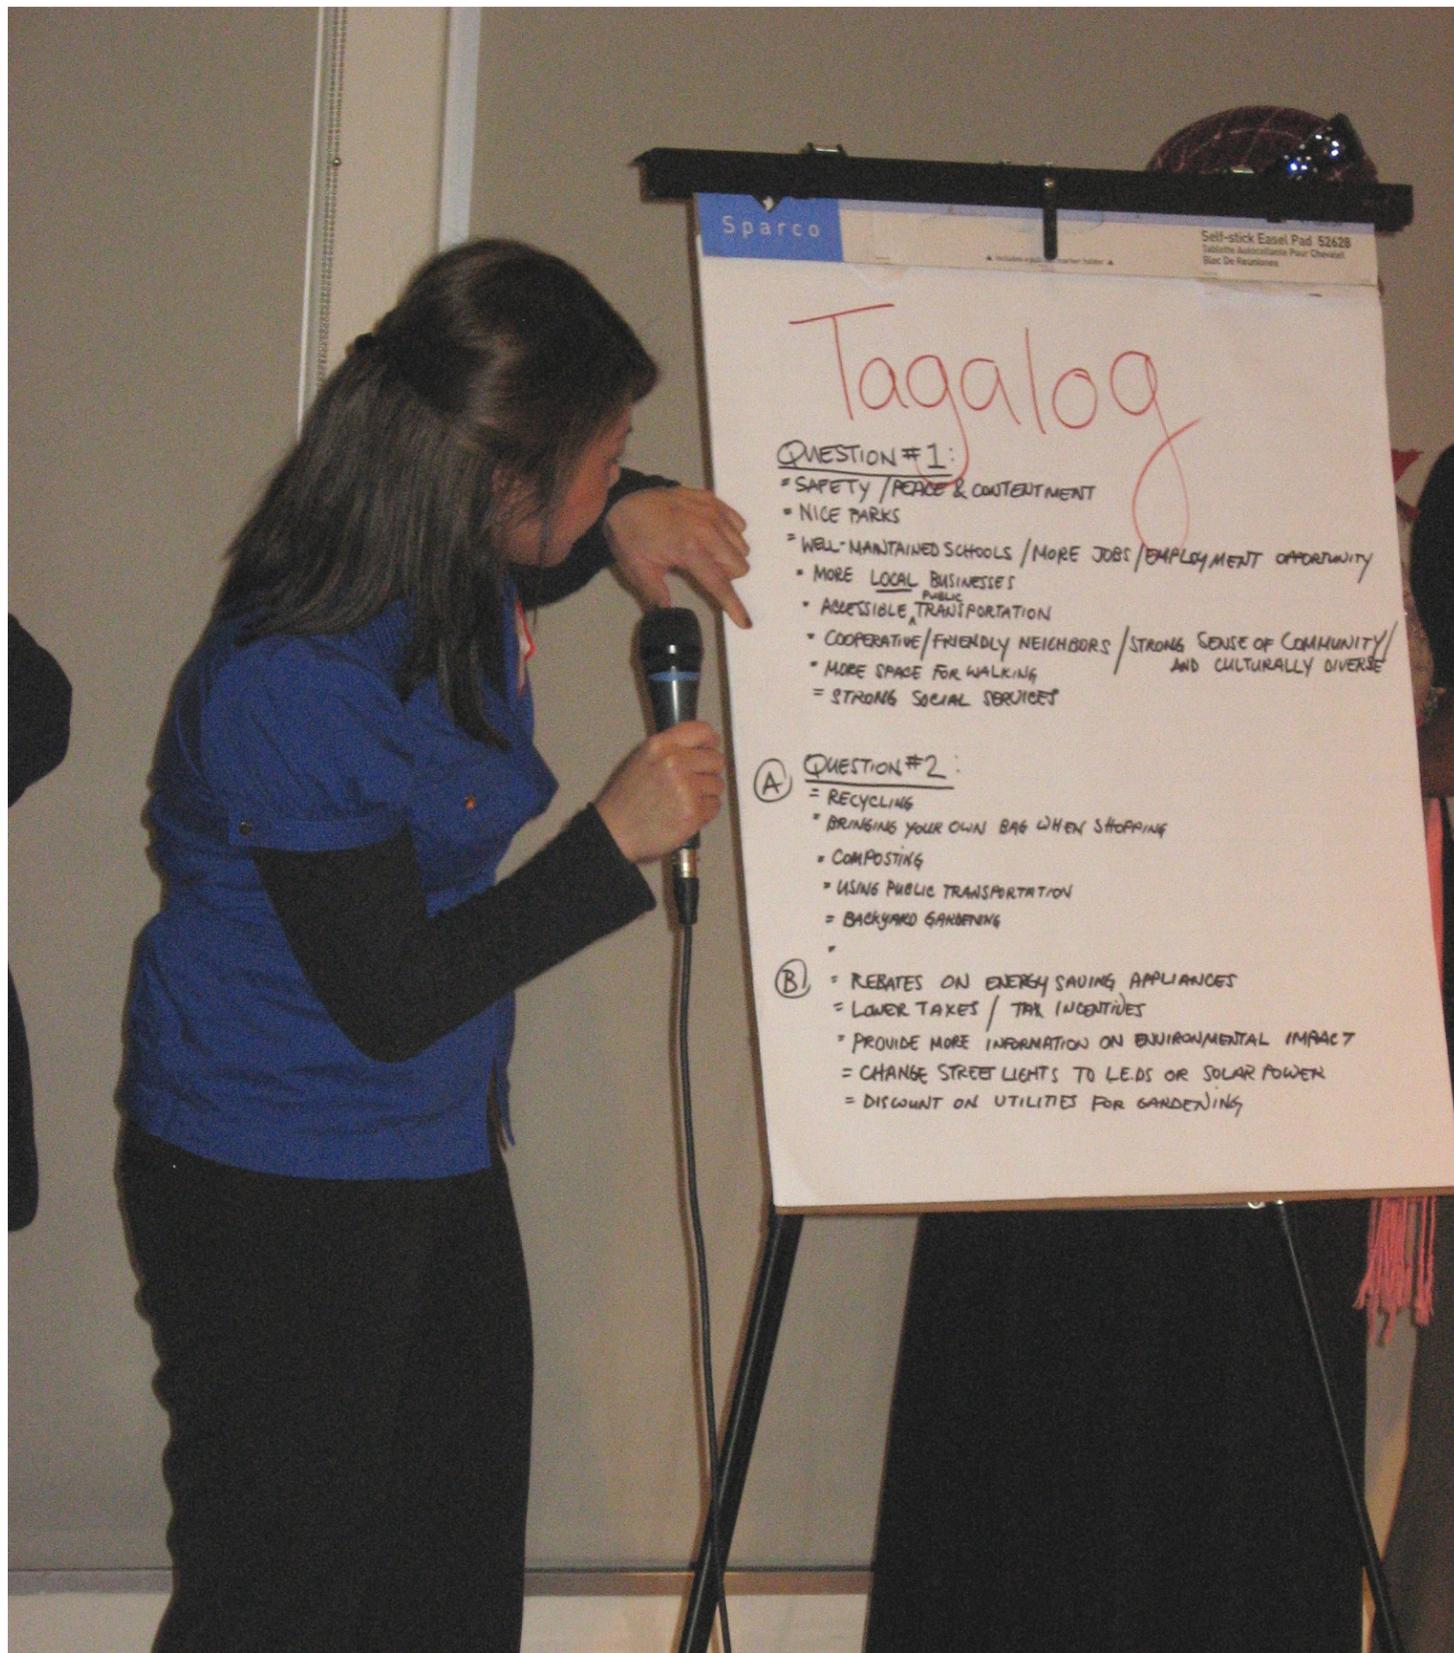

TUES. DECEMBER 6, 2011

Photos

This event was a joint outreach and engagement project entered into by DPD, SDOT, OSE and DON. Under the brand of "Transform Seattle - Many Voices. One Future" the project successfully engaged historically-underrepresented communities in learning more about the City's Climate Action Plan, Comprehensive Plan and Transit Master Plan while providing feedback on topics, ideas, and challenges related to these three important City Planning campaigns. Through the incredible efforts of the Planning Outreach Liaisons over 157 participants (Seattle residents) were given the opportunity to engage in transforming their city. These photos are just a sample of the many voices that came out to set Seattle's future.

A special thank you to Kristian Kofoed (DPD) and Thomas Whittemore for lending us their is photographic eyes for the evening.

Tagalog
