

DESIGNING A FRAMEWORK FOR UPTOWN'S FUTURE

DESIGNING A FRAMEWORK FOR UPTOWN'S FUTURE

What is an Urban Design Framework?

A shared community vision for the physical development of the Uptown neighborhood developed collaboratively between the City and the neighborhood.

A road map for City departments working on zoning, design guidelines, facilities and services.

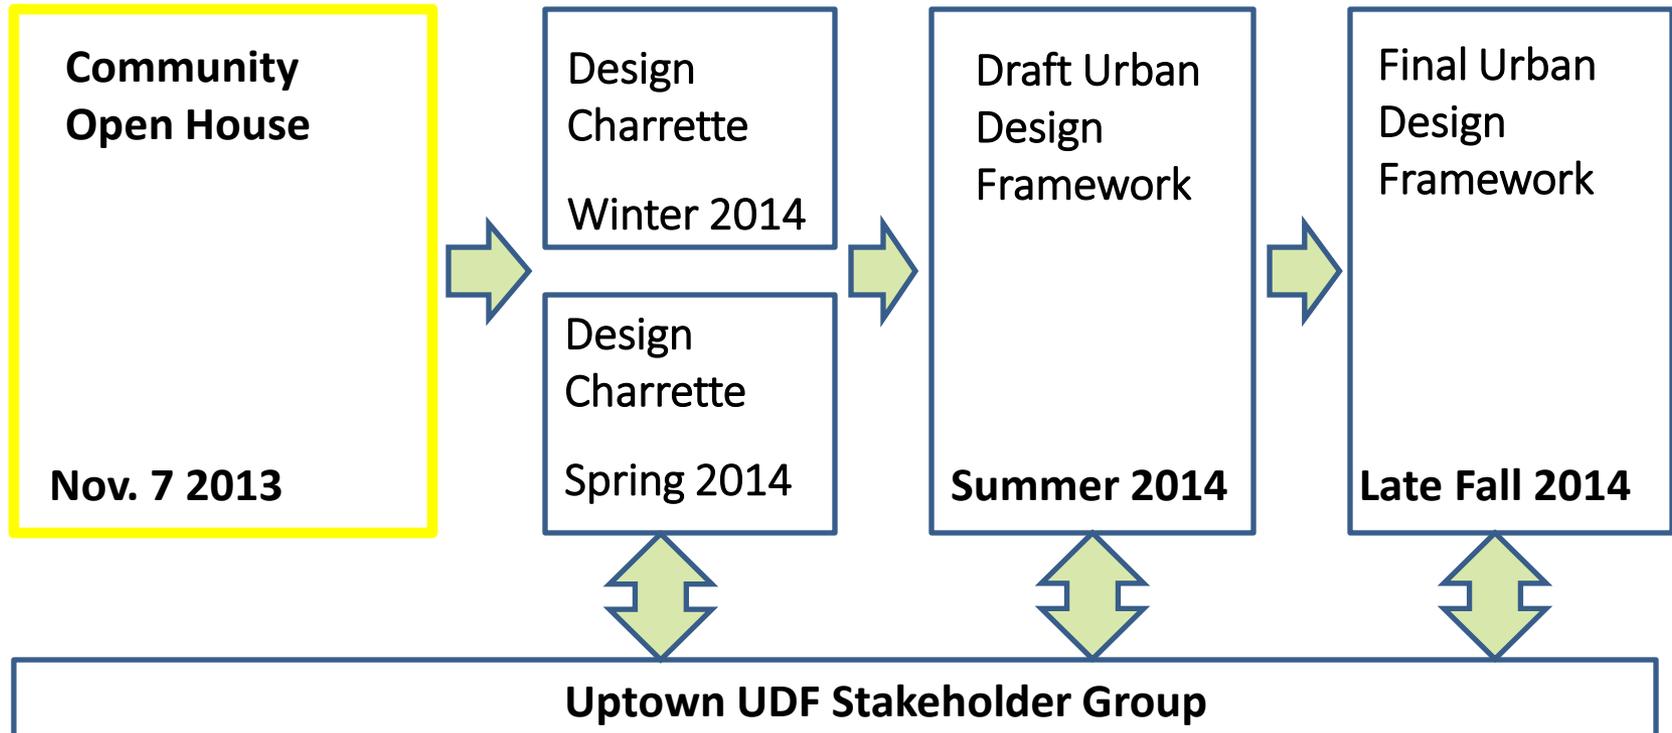

A coordinated strategy to make the most of opportunities (redevelopment, the north portal, reconnecting the street grid east of Seattle Center...).

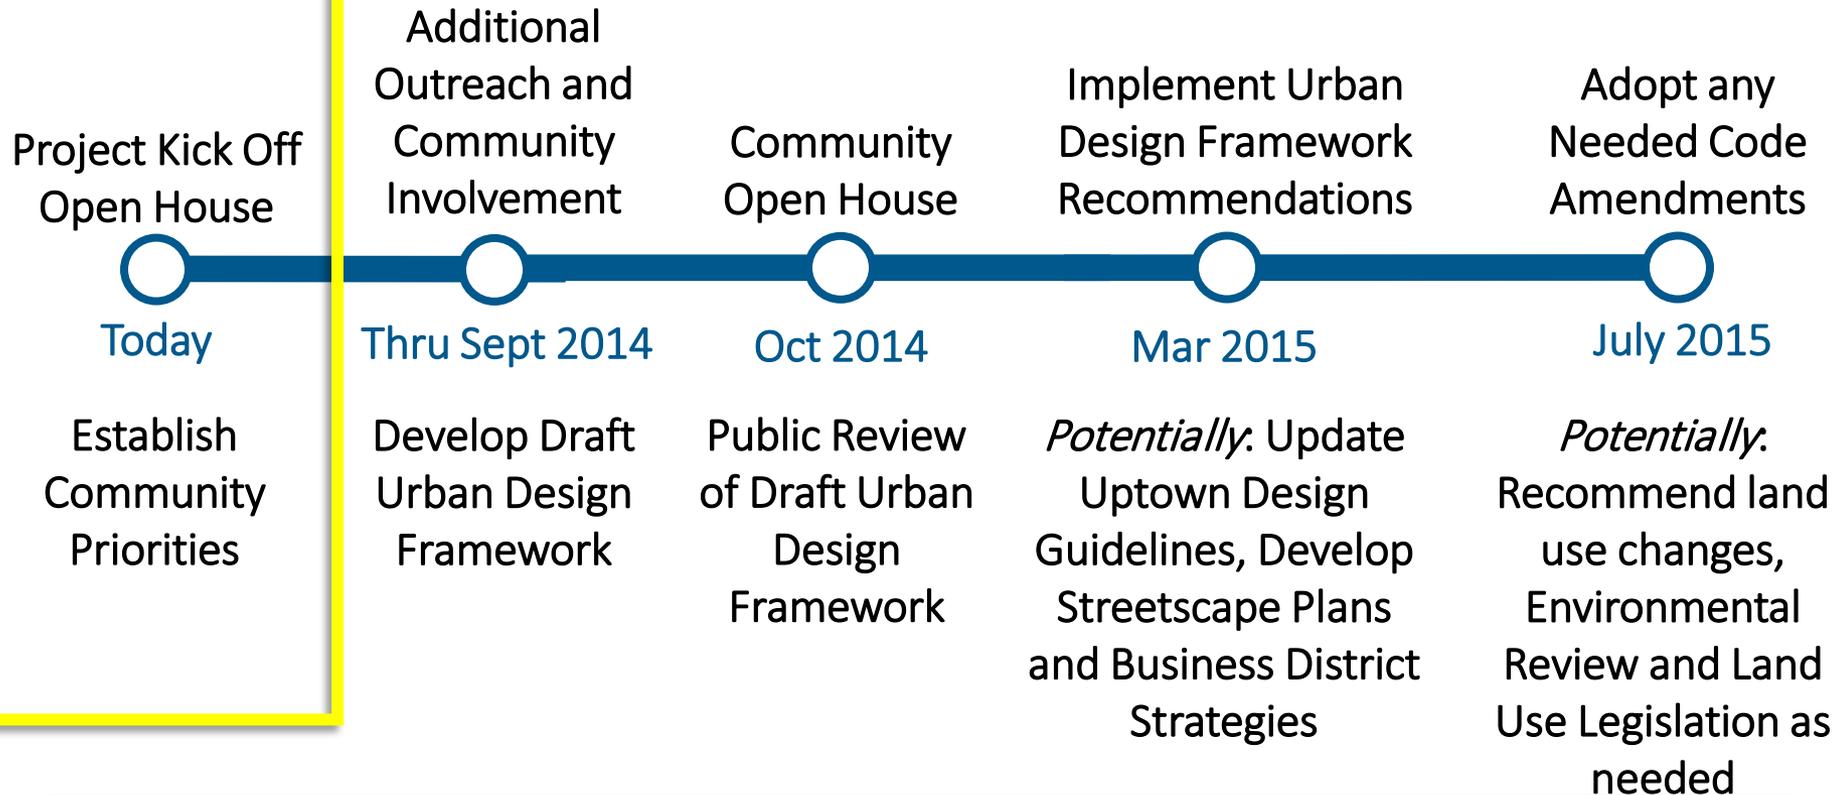

DESIGNING A FRAMEWORK FOR UPTOWN'S FUTURE

Uptown UDF Community Process
