

City of Seattle

---

Gregory J. Nickels, Mayor  
**Department of Planning and Development**  
D. M. Sugimura, Director

**CITY OF SEATTLE  
ANALYSIS AND DECISION OF THE DIRECTOR OF  
THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

**Application Number:** 2503036  
**Applicant Name:** Tyler Goodmanson for Jeffary & Julie Lewis  
**Address of Proposal:** 9112 Fremont Avenue North

**SUMMARY OF PROPOSED ACTION**

Master Use Permit to subdivide one parcel into two unit lots (unit lot subdivision). This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots. Existing single family dwelling and duplex to remain.

The following approval is required:

**Short Subdivision** - To subdivide one existing parcel into two unit lots.  
(Chapter 23.24, Seattle Municipal Code).

**SEPA DETERMINATION:**  Exempt  DNS  MDNS  EIS  
 DNS with conditions  
 DNS involving non-exempt grading or demolition, or  
involving another agency with jurisdiction.

**BACKGROUND DATA**

Site & Area Description

Zoning: Single Family 5000 (SF 5000)  
Uses on Site: One single family residence and one duplex.

Substantive Site Characteristics:

This 4,307.7 square foot subject site (the “parent lot”) is an unusually shaped lot that fronts on the east side of Fremont Avenue North. Fremont Avenue North is considered a Non-arterial street, improved with a paved roadway but no sidewalks, curbs nor gutters on both sides of the

street. An existing single family residence and duplex resides on the subject property. The site is not located in any mapped or observed environmentally critical areas.

The properties just south and east of the subject site are also zoned SF 5000. The properties north and west across the street from the subject site are zoned Lowrise (L-1). Development in the area consists of single-family houses and multi-family structures of varying age and architectural style on a variety of lot sizes, consistent with the zoning designations.

### Proposal Description

The applicant proposes to subdivide one 4,307.7 square foot parcel (the “parent lot”) into two unit lots with the following lot areas: Unit Lot A) 2,827.6 square feet and Unit Lot B) 1,480.1 square feet in an SF 5000 zone. The subject site fronts on Fremont Avenue North. Vehicular access to two surface parking spaces for Unit Lot A and one surface parking space for Unit Lot B would be provided via an ingress, egress, and utility easement from Parcel B (AKA 701 North 92<sup>nd</sup> Street).

No development or construction activities are associated with the current proposal. The subject of this analysis and decision is limited to the subdivision of land.

### Public Comments

During the public comment period which ended June 1, 2005, DPD received no written comments.

### **ANALYSIS – UNIT LOT SUBDIVISION**

Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following (applicable) criteria to determine whether to grant condition or deny a short plat:

1. *Conformance to the applicable Land Use Code provisions;*
2. *Adequacy of access for vehicles, utilities and fire protection, as provided in Section 23.53.005;*
3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*
6. *Is designed to maximize the retention of existing trees.*
7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single family housing, and*
8. *Conformance to the provisions of Section 23.24.046, Multiple single-family dwelling units on a single-family lot, when the short subdivision is for the purpose of creating two or more lots from one lot with more than one existing single-family dwelling unit.*

### Summary - Short Subdivision

Based on information provided by the applicant, referral comments from DPD, Water (SWD), Fire Departments (SFD), Seattle City Light, and review by the Land Use Planner, the above cited criteria have been met subject to the conditions imposed at the end of this decision. Detailed discussion of Criterion # 7 follows below.

The lots to be created by this short subdivision will meet all minimum standards or applicable exceptions set forth in the Land Use Code, and are consistent with applicable development standards. As conditioned, this short subdivision can be provided with vehicular access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions. The proposal site is not located in an environmentally critical area; therefore SMC 25.09.240 is not applicable. The proposed plat maximizes the retention of existing trees. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.

### ANALYSIS –UNIT LOT SUBDIVISION (CRITERION #7)

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The unit subdivision provisions of SMC Section 23.24.045 apply exclusively to the unit subdivision of land for townhouses, cottage housing developments, residential cluster developments, and single-family residences in zones where such uses are permitted.*
- B. *Sites developed or proposed to be developed with dwelling units listed in subsection A above, may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.*
- C. *Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. *Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. *Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of King County Development of Records and Elections.*
- F. *The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed short subdivision would conform to applicable standards of SMC 23.24.045 subject to the conditions imposed at the end of this decision. The proposed developments are one single family residence and one duplex structure. The structures, as reviewed under their separate building permits, conform to the development standards of the time the permit application was vested. To assure that future owners have constructive notice that additional development may be limited; the applicant will be required to add a note to the face of the plat that reads as follows: Include the following on the face of the plat: "The lots created by unit subdivision are not separate building lots. Additional development on any individual lot in this unit subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code." A joint use and maintenance agreement will be required as conditioned at the end of this decision.

**DECISION – UNIT LOT SUBDIVISION**

The proposed Unit Lot Subdivision is **CONDITIONALLY GRANTED.**

**CONDITIONS – UNIT LOT SUBDIVISION**

Conditions of Approval Prior to Recording

The owner(s) and/or responsible party(s) shall:

1. Have final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel, or tract created by the short subdivision shall be surveyed in accordance with appropriate State statutes. The property corners set shall be identified on the plat and encroachments such as side yard easements, fences or structures shall be shown. Lot areas shall be shown on the plat. All existing structures, principal and accessory, shall be shown on the face of the plat, and their distances to the proposed property lines dimensioned.
2. Submit the final recording forms for approval and any necessary fees.
3. Add the conditions of approval after recording on the face of the plat or on a separate page. If the conditions are on a separate page, insert on the plat "For conditions of approval after recording see page \_\_\_ of \_\_\_."
4. Add the following note to the face of the plat: *"The lots created by this unit subdivision are not separate buildable lots. Additional development on these unit lots in this unit subdivision may be limited as a result of the application of development standards to their parent lot pursuant to applicable provisions of the Seattle Land Use Code."*
5. Provide a joint maintenance and responsibility agreement for all ingress, egress, and utility easements.

6. Provide an area on Unit Lot B to allow for the posting of address signage for Unit Lot A at a location visible from Fremont Avenue North and provide a covenant and/or an easement to ensure that address signage can be maintained.

Prior to Issuance of any Building Permit

The owner(s) and/or responsible party(s) shall

1. Attach a copy of the recorded short subdivision to all permit application plans for any application for a permit to construct, demolish, or change use.
