## Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle's children, youth, and families through strategic investments in education. DEEL achieves this goal by investing in high-quality early learning services and programs that help children succeed in school, increasing capacity for such programs in underserved communities and strengthening school-community connections.

DEEL is responsible for weaving together early learning programs in the City to provide families with the opportunity to prepare their children to enter school ready to succeed. By braiding and blending resources from the expiring Families and Education and the Seattle Preschool Program Levies; the proposed Families, Education, Preschool, and Promise Levy; the state Early Childhood Education and Assistance Program; and City General Fund, the department seeks to ensure families in the city have access to high quality early learning.

DEEL administers the Seattle Preschool Services Levy, which was approved by the voters in 2014 and expires in 2018. The purpose of the program is to expand access to affordable, high-quality preschool for Seattle's three- and four-year-olds so they enter school prepared to succeed and the academic opportunity gap for children is eliminated. The levy funded a demonstration phase of the Seattle Preschool Program, which began in 2015 and plans to serve 1,500 children by the 2018-19 school year.

DEEL also administers the Education-Support Services Levy, otherwise known as the Families and Education Levy, which was approved by the voters in 2011 and expires in 2018. DEEL is responsible for developing the City's education policy and investment strategy for levy funds to help children succeed in school by increasing access to high-quality programs supporting academic achievement. DEEL builds linkages between the City of Seattle, the Seattle Public School District, and other organizations to ensure successful levy implementation. Levy investments are made in programs that improve academic achievement. To that end, each program undergoes ongoing program evaluation to ensure it delivers on specific targeted outcomes intended to improve academic achievement. The department provides annual reports detailing program targets and results to policy makers and the community.

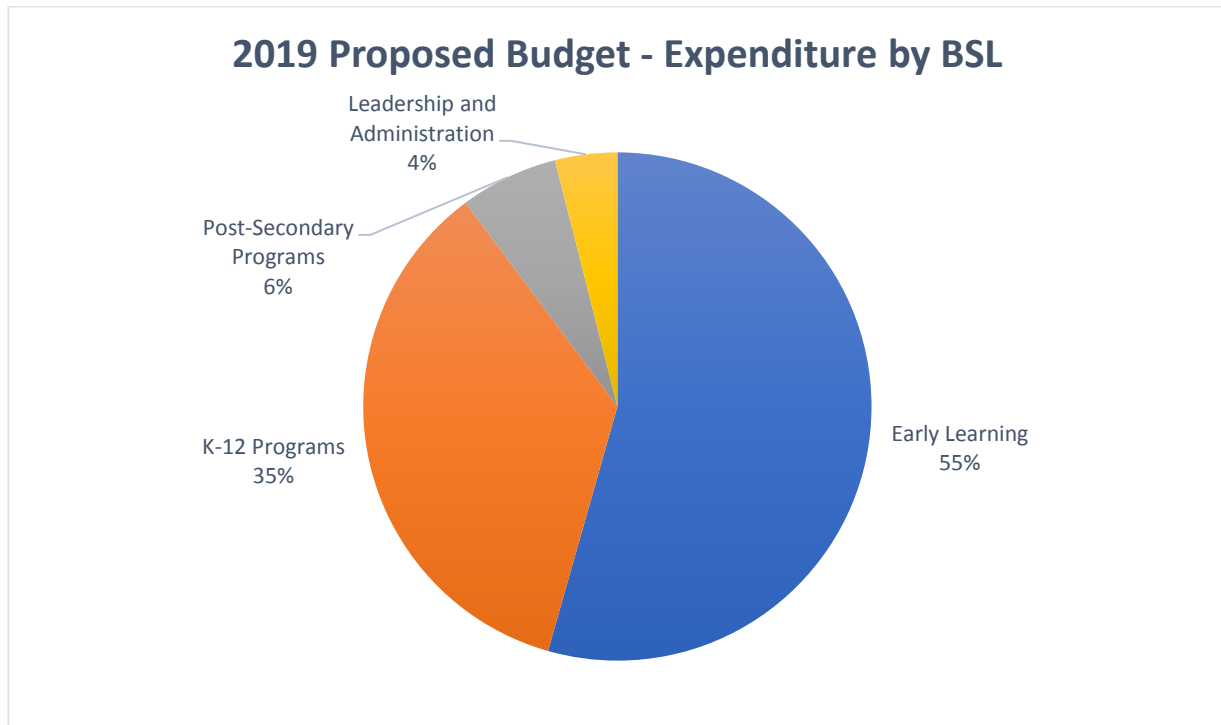

DEEL serves as the liaison between the City and the higher education community on education issues of joint concern. The department builds partnerships with, and facilitates collaboration between, local higher education representatives to increase academic, economic and social advancement. DEEL aligns City investments with institutions' priorities, initiatives and goals to increase student success and higher levels of educational attainment. Part of this work includes implementation of the Seattle Promise College Tuition Program. When fully implemented, the Seattle Promise will provide two years of free college for Seattle public high school graduates, removing financial barriers to higher education facing many Seattle public school students. Seattle Promise students will have the opportunity to obtain up to 90 credits of instruction towards a degree, credential, certificate or pre-apprenticeship program.

## 2019 Proposed Budget - Revenue by Fund

## Budget Overview

DEEL implements its mission with funding from two current levies, both expiring in 2018; City General Fund dollars; state grants; and partnerships with other City departments.

### Family and Education Support Services Levy

In November 2011, Seattle voters approved a \$231 million renewal of the Education-Support Services Levy, otherwise known as the Families and Education Levy (FEL), for the period of 2012-2018. The levy expires and ceases to collect property taxes at the end of 2018. DEEL issued its last cycle of grants from the 2011 FEL for the 2018-2019 school year. Many components of this levy are included in the proposed Families, Education, Preschool, and Promise (FEPP) Levy, which, if passed by the voters, would be effective in January 2019. The 2019-2020 Proposed Budget assumes a partial ramp down of the 2011 FEL budget authority in 2019 and a full elimination of FEL budget authority in 2020.

The 2011 FEL invests in early learning, elementary school, middle school, high school, and health programs to achieve three goals:

- improve children's readiness for school;
- enhance students' academic achievement and reduce the academic achievement gap; and
- decrease students' dropout rate and increase graduation from high school and prepare students for college and/or careers after high school.

2011 FEL investments are aligned with the goals of Seattle Public Schools to double the number of students who enroll in post-secondary programs after high school and/or achieve a career credential. The 2011 Families and Education Levy substantially increases the overall funding available to support children and their families, both in-

# Department of Education & Early Learning

and out-of-school, to help all Seattle's children succeed academically. The following are the six key program areas that were recommended by the 2011 Families and Education Levy Advisory Committee and funded in the levy:

- **Early Learning and School Readiness**
  - 228 children in levy-funded preschool slots for the 2018-2019 school year
  - 42 child care subsidies for levy-funded children
  - 228 health assessments and consultations for preschool children
  - Home visitations for 250 families annually
  - Professional development for 400 early learning educators
- **Elementary School Academic Achievement**
  - Extended learning time and out-of-school time at 21 schools
  - Summer learning for up to 1,200 students
  - Family support for high-risk elementary students and refugee/immigrant and Native American families and students
- **Middle School Academic Achievement and College/Career Preparation**
  - extended learning time and out-of-school time
  - social, emotional, and behavioral support, college and career planning at four schools, case management for college and career planning for up to 600 students
  - summer learning for up to 1,300 students
  - out-of-school time transportation and sports
- **High School Academic Achievement and College/Career Preparation**
  - extended learning time & social, emotional, and behavioral support for ninth graders at five schools
  - college and career planning at five schools
  - case management for college and career planning for up to 400 students
  - summer learning for up to 500 students
- **Student Health**
  - school-based health centers (SBHCs) and nursing services at five middle schools and 10 high schools
  - SBHC, nursing, and family engagement services at the Seattle World School
  - SBHC services for students at the Interagency Academy
  - health care, mental health interventions and community referrals for elementary school students at eight sites
  - a quality control system for mental health providers
  - oral health services for 10 schools
- **Administration and Evaluation**
  - The levy provides funding for staff in the Department of Education and Early Learning (DEEL) to provide oversight, administration, and strategic guidance for levy-funded programs throughout the life of the levy. These staff members are responsible for building strong partnerships with Seattle Public Schools, community funders, and community providers to ensure successful program development and implementation. As part of this program, the levy funds ongoing research and evaluation and staff use this data to make continuous program improvements. This data-based evaluation provides a strong accountability structure for levy programs,

# Department of Education & Early Learning

including a data-sharing agreement with Seattle Public Schools and performance-based contracts tied to achieving specific indicator and outcome goals.

## Seattle Preschool Services Levy

In November 2014, Seattle voters approved a four-year, \$58 million Seattle Preschool Services Levy to fund the Seattle Preschool Program (SPP) Action Plan. The SPP levy expires and ceases to collect property taxes at the end of 2018. The SPP levy has issued its last cycle of grants for the 2018-2019 school year. An expanded preschool program is included in the proposed Families, Education, Preschool, and Promise (FEPP) Levy which, if passed by the voters, would be effective in January 2019. The 2019-2020 Proposed Budget assumes a partial ramp down of the 2014 SPP budget authority in 2019 and a full elimination of SPP budget authority in 2020.

The SPP is an evidence-based program which builds on community partnerships and the existing network of preschool providers. The purpose of the program is to expand access to affordable, high-quality preschool for Seattle's three- and four-year-old children so they enter school prepared to succeed and eliminate the academic opportunity gap in later years.

The SPP levy funded a demonstration phase of the Seattle Preschool Program that began in 2015 with 280 students and grew to serve about 1,500 children by the 2018-19 school year. Program services include the following:

- **School Readiness** funds preschool classrooms and support for Special Populations. In 2015-16, SPP served approximately 280 children in 15 classrooms. In 2018-19, the final school year, SPP expects to serve about 1,500 children in 75 to 85 classrooms.
- **Program Support** funds professional development and training for preschool directors, lead teachers, and assistants to ensure quality teaching.
- **Capacity Building** funds facility construction, renovation, and improvements to increase access to quality classrooms. Capacity building funds were used to support the redevelopment of the Parks and Recreation Miller Community Center Annex with space to serve 80 children in four classrooms. Levy investments also include funding the conversion of Seattle Parks and Recreation community center spaces to SPP classrooms and the addition of four preschool classrooms in the Lake City Family Housing project. The capacity building funds also provide scholarships to teachers seeking degree completion. To date, 19 SPP teachers have received scholarship funds to continue their education.
- **Research and Evaluation** funds evaluation and data system development, including:
  - External evaluators to assess classroom environments and teacher/child interactions.
  - Training for teachers on how to appropriately assess child development;
  - External evaluators to develop and begin a comprehensive evaluation strategy; and
  - Data system development to support quality improvement and evaluation.
- **Contingency** funds provide flexibility for this new investment. SPP relies on resources from state and federal funds, as well as parent tuition based on a sliding fee scale. While estimates of these resources were based on demographic data and information collected from existing providers and funders, the City included contingency funds in case actual recoveries or contributions fall short of expectations.
- **Administration** funds DEEL staff to provide oversight, administration and leadership for the development of the investments identified above. The levy requires continuous quality improvement, strong community partnerships, and transparency in the program's development.

## Proposed Families, Education, Preschool, and Promise (FEPP) Levy

The 2019-2020 Proposed Budget includes budget authority for the first year of spending property tax revenues generated from the proposed \$619.6 million, seven-year Families, Education, Preschool, and Promise (FEPP) Levy. The levy will begin collecting revenues in 2019 and the first expenditures, if voters approve the levy, will be in the 2019-2020 school year. The FEPP Levy is designed to invest in a continuum of services from preschool through post-secondary, to ensure that students are ready to take advantage of the Seattle Promise program and post-

# Department of Education & Early Learning

secondary opportunities. The 2019-2020 Proposed Budget includes budget authority for the first year of the proposed FEPP levy. The proposed budget reflects all the programs that were included in [Ordinance 125604](#).

The FEPP levy focuses on the core connections of investments across a continuum of ages and needs. The objectives of the FEPP levy include the following:

- increase the number of children in quality preschool;
- maintain support for K-12 and community investments, including school-based health services and supports for students most in need; and
- expand access to college for Seattle public school graduates through support for the Seattle Promise College Tuition Program (Seattle Promise).

This continuum of investments is comprised of four building blocks:

- **Preschool and Early Learning**  
This funds preschool for Seattle's three- and four-year-old children. Over the next seven years, the number of children served by SPP is expected to increase from approximately 1,500 per year to approximately 2,500 per year. It also includes funding for child care vouchers to homeless Seattle families so they can complete housing and stabilization activities and a mentorship program for prospective child care providers.
- **K-12 School and Community-Based Investments**  
This area includes supplemental services focused on closing opportunity gaps for students, schools, and communities with a focus on college access and job readiness. It includes funding for the family support program as well as investments in elementary, middle and high schools and summer learning.
- **K-12 School Health**  
This funds school-based health centers, oral health and mental health and will add funding for three more school-based health centers plus partial funding for a fourth school-based health center.
- **Seattle Promise**  
This provides college and career readiness supports at the high school level, and tuition assistance and program persistence and advising supports at the three Seattle Colleges for students who graduate from a public Seattle high school.

## Sweetened Beverage Tax Investments

Beginning Jan. 1, 2018, the City of Seattle imposed a sweetened beverage tax via [Ordinance 125324](#). The sweetened beverage tax (SBT) is a tax on the distribution of sweetened beverages in the city of Seattle. Services funded by the proceeds of the beverage tax are intended to expand access to healthy and affordable food, close the food security gap, promote healthy nutrition choices, reduce disparities in social, developmental, and education readiness and learning for children, assist high school graduates to enter college, and expand services for the birth-to-five population and their families.

The Sweetened Beverage Tax Community Advisory Board has made final recommendations to expand food access programs in the Human Services Department and the Office of Sustainability and Environment, as well as education programs in DEEL, and public health programs in Seattle-King County Public Health. The 2019-2020 Proposed Budget includes continuation of the funding added to DEEL's budget in the 2018 2nd Quarter Supplemental Budget Ordinance; a one-time incremental increase for the Seattle Promise program to help support the College foundation; and a transfer of \$588,000, previously funded by the Families and Education Levy, so the Parent Child Home Partnership Program is fully funded by the SBT funding source.

During the FEPP Levy planning process, several programs that were previously funded by SBT were moved to the new FEPP Levy funding source: the Our Best program manager position; the summer melt program; innovation high school enhancement funding; and culturally-specific summer learning programs will be funded by the new FEPP Levy going forward.

## Department of Education & Early Learning

Finally, the City determined in 2018 that it has collected greater than anticipated revenues from the sweetened beverage tax. As a result, the City will use these revenues to pay for certain programs in various departments that currently receive unrestricted General Fund. The proposed budget shifts DEEL's Child Care Assistance Program and a portion of the Nurse Family Partnership Program to the sweetened beverage tax fund source. This change does not affect the operations of either program.

# Department of Education & Early Learning

## Descriptions of Incremental Budget Changes

### Baseline Changes

#### **Adjustment for Sunset Positions - (\$273,254)/(3.00) FTE**

This adjustment resets DEEL's baseline budget by removing three positions and related costs that were originally added to support the Education Summit and had a sunset date of December 31, 2018.

The sunset positions removed in the baseline process were restored during the levy planning process and are included in the 26 new positions that are added as part of the renewed and expanded education levy.

#### **Citywide Adjustments for Standard Cost Changes - \$750,335**

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, health care, and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. This technical adjustment also transfers internal services costs for Human Resources, Finance and Administrative Services, and Information Technology from Finance General to the department. With this change, department budgets will better reflect support costs. Previously these costs were included in the Finance General budget.

#### **Supplemental Budget Changes - \$555,031/1.00 FTE**

This adjustment reflects changes made through supplemental budget legislation since the last adopted budget. Supplemental budget legislation is developed by the Executive and adopted by the City Council four times a year to provide for corrections to the adopted budget, unforeseen changes in circumstance, new funding opportunities or new policy priorities.

In 2018 the Sweetened Beverage Tax (SBT) Community Advisory Board made its final recommendations for programming. Accordingly, the 2018 2nd Quarter Supplemental Budget Ordinance transferred \$555,031 from Finance General to the Early Learning program in DEEL for investments that will enhance and increase the impact of existing programs that did not have sufficient resources to meet all intended goals. These investments will provide the following enhancements:

- DEEL Birth-to-3 Instructional Coach (\$114,000): DEEL will hire an additional 1.0 FTE Early Education Specialist, Sr. to serve as a birth-to-three instructional coach to support providers that serve infants and toddlers. By adding another coach, the caseload will approximate the current preschool coach to teacher ratio of 1:12 and provide at least 4 hours of coaching each month
- Birth-to-3 Health Supports (\$175,000): Public Health will hire an additional nurse, which will increase its capacity to provide infant nurse consultation and a more comprehensive and prevention focused approach to serving centers with children from ages zero to 5.
- Development Supports (\$166,000): King County Developmental Disabilities Division will expand the Developmental Bridge Pilot Program and increase their reach from serving 50 children per year for a maximum of 6 months to serving 80 children per year without a limit on the length of services.
- Home Visiting (PCHP and Family Child Care) (\$100,000): Additional funds will be used to expand the Parent Child Home Program, both for families and the pilot for Family Child Care providers.

#### **Adjustment for One-Time Budget Additions - (\$200,000)**

This item removes a one-time budget addition in the 2018 Adopted Budget of \$200,000 for a contract to improve educator workforce diversity and a bilingual teacher pipeline. The work to increase teacher diversity will continue and be funded in the proposed Families, Education, Preschool, and Promise Levy.

# Department of Education & Early Learning

## Proposed Changes

### **Add Inflation to Nurse Family Partnership Contract - \$46,072**

This adjustment applies 2% inflation to the Nurse Family Partnership contract with Seattle-King County Public Health, consistent with other public health contracts managed by the Human Services Department. In the 2019 Proposed Budget, the Nurse Family Partnership contract totals \$2.3 million.

### **Sweetened Beverage Tax (SBT) Budget Realignment - \$369,201**

The Sweetened Beverage Tax is a tax on the distribution of sweetened beverages in the city of Seattle. The Mayor has proposed proceeds be dedicated toward the programs that include early learning, Seattle Promise, food access, and other programs recommended by the community advisory board. This adjustment includes the following changes.

Programming shifted to the sweetened beverage tax funding source:

- Parent Child Home Program (\$588,000): DEEL is proposing to fully fund the Parent-Child Home Program (PCHP) using the SBT funding source. The PCHP is an evidence-based, two-year home-visitation literacy program for two- and three-year old children. The program is administered by United Way of King County and reaches approximately 590 Seattle children from families below the federal poverty line. The total PCHP budget will be approximately \$1.2 million in 2019.
- 13th Year Program (\$785,697): Starting in 2018 as part of DEEL's SBT budget, the City has committed to providing \$5 million towards the 13th Year Promise Scholarship, a partnership run by the Seattle College Foundation. In 2018, DEEL budgeted \$1,381,885 towards this commitment. In 2019, this amount will increase to \$2,167,582, with the City's final contribution to this scholarship fund in 2020 with \$1,450,533.

Funding for the following programs will shift from Sweetened Beverage Tax to the proposed FEPP Levy:

- Summer Melt (-\$102,500)
- Innovation High School Enhancement (-\$440,750)
- Culturally-Specific Summer Learning (-\$461,250)
- Our Best Initiative (-\$189,000)

Finally, as part of the 2019-2020 Proposed Budget, \$3.4 million of early education and birth to three services that were previously funded by unrestricted General Fund will now be funded by SBT revenue. This is a dollar neutral adjustment.

- Child Care Assistance Program (CCAP) & Comprehensive Child Care Program (CCCP) (\$2,480,000): This adjustment fully replaces the General Fund portion of the Childcare Assistance Program (CCAP) budget (\$2.3 million) in 2019 and partially replaces a portion of the Comprehensive Childcare Program (CCCP) budget (\$180,000) in 2019. Neither of these funding source replacements will have service level impacts as the funding level is maintained.
- Birth to Three Programs (\$921,000): This fund change replaces unrestricted General Fund for the Nurse Family Partnership program.

### **Families and Education Levy (FEL) and Seattle Preschool Program (SPP) Levies Ramp Down - (\$17,033,739)**

The Department of Education and Early Learning (DEEL) is supported through a variety of funding sources, including the 2011 Families and Education Levy (FEL) and the 2014 Seattle Preschool Services (SPP) Levy. Both these levies expire at the end of 2018. Since DEEL administers most of its contracts by school year, the last school year receiving funding from the FEL and SPP levies will be the 2018-2019 school year. This adjustment reflects a decrease of six months of FEL and SPP related expenditures in 2019 and removes all FEL and SPP related budget

# Department of Education & Early Learning

authority in 2020. Programs from both levies are rolled into the proposed Families, Education, Preschool, and Promise (FEPP) levy that is on the 2018 November ballot.

## **Families, Education, Preschool and Promise (FEPP) Levy - \$39,113,482/25.00 FTE**

The Families, Education, Preschool, and Promise (FEPP) levy will be presented to voters for approval on November 6, 2018. FEPP combines and continues the City's two previous education-related levies: 1) 2014 Seattle Preschool Services and 2) 2011 Families and Education Levies. If voters approve the levy, the proposed FEPP program will cost \$636.5 million over the 7-year period. These costs will be funded by a combination of levy proceeds, prior levy underspend, and delinquent payments. This item establishes funding for each of the four investments areas:

- **Preschool:** This program area represents 54% of the entire FEPP package, totaling \$341 million over seven years, and includes funding for preschool to Seattle's three- and four-year-old children.
- **K-12 School and Community-Based Investments:** This program area represents about 29% of the overall levy, totaling \$188 million over seven years, and includes funding for supplemental services focused on closing opportunity gaps for students, schools, and communities with a focus on college access and job readiness.
- **School Health:** This program area comprises about 11% of the overall FEPP Levy package, totaling \$67 million over seven years, and provides funding for programs and services including school-based health centers, oral health and mental health, among other activities. The proposed levy will add funding for three more school-based health centers plus partial funding for a fourth school-based health center.
- **Post-Secondary:** This program area comprises 6% of the overall FEPP Levy, totaling \$41 million over seven years, and provides funding for tuition support in addition to college and career readiness supports at the high school level and program persistence and advising supports at the college level for students who graduate from a Seattle public school high school and attend any of the three Seattle Colleges.

The adjustment includes several intradepartmental position transfers to realign certain policy and leadership positions within DEEL. Through the FEPP Levy, both the K-12 and Early Learning Division Director positions will transfer into the Leadership & Administration BSL, centralizing the costs associated with the department's executive team. Additionally, policy advisors and specialists from the Early Learning division will transfer into the Leadership & Administration BSL as part of a larger effort to centralize strategy and policy functions across the department.

The adjustment also includes new positions.

- **New accounting unit (4.0 FTE):** Previously DEEL contracted out accounting services to the Department of Neighborhoods (DON). In the proposed budget, DON transfers 2.0 FTE Accounting Tech III positions to DEEL and adds 1.0 FTE Accounting Tech II and 1.0 FTE Financial Analyst, Sr. to supervise the accounting unit.
- **Restore sunset positions (3.0 FTE):** The adjustment restores 1.0 FTE Strategic Advisor 1 that will serve as the department's Outreach Specialist and 2.0 FTE Strategic Advisor 2 positions that will support K-12 programs.
- **New data analyst (1.0 FTE):** This adjustment creates 1.0 FTE Strategic Advisor 1 to serve as a Data Analyst that will support the department in research and evaluation.
- **Coaching and monitoring (4.0 FTE):** The FEPP Levy brings in house coaching and monitoring services that were formerly contracted out.

**Early Learning coaches (13.0 FTE):** The levy increases the number of coaches and intake staff to support the additional classrooms, agencies, teachers, and students that will participate in the Preschool Program.
