RE: Notice of Annual Marine Terminal Industry Meeting
Thursday, December 9, 2010

Dear Interested Party,

You and your representatives are invited to a meeting for members of the marine terminal and shipping industry to discuss Seattle Fire Department Administrative Rule 27.01.09 - *Marine Terminals*. The meeting is held annually to maintain good communication between the Fire Department and the industry.

This year's meeting will be held **Thursday, December 9, 2010, from 9:00 AM to 11:00 AM** at the City of Seattle's Joint Training Facility located at 9401 Meyers Way South.

The purpose of the meeting will be to focus on how well the current rules and inspection program are meeting the needs of both the local marine terminal and shipping industry and the Seattle Fire Department. Topics we would like to discuss include designated storage locations for hazardous materials, separation of incompatible materials, and proper placarding. This list was developed based on facility inspections this past year that have raised safety concerns.

Administrative Rule 27.01.09 was significantly revised in November 1997 and has been modified several times since that time based on comments we have received during these very productive and informative meetings. Participation in this meeting offers you an opportunity to meet with me and express your comments and concerns on the program and rules that impact your day to day activities. I highly encourage you and your representatives to attend.

If you have any questions or comments, please contact the Marine Lieutenant, Deborah Williams, at (206) 386-1340. I look forward to seeing you there.

Very truly yours,

Assistant Chief John H. Nelsen
Fire Marshal
