

# Seattle Fire Department

# Public Information

The Seattle Fire Department is committed to sharing information with the public about the emergencies occurring around the city, fire safety, fire statistics, the fire code, community events, and more. There are multiple avenues online where Seattle residents can gain useful information from the Department.

## Real Time 911 Dispatch

Real Time 911 helps keep the community and the media informed about incidents in their neighborhoods 24 -hours a day. In 2010, this page has been viewed 24 million times.

## Seattle Fire on Twitter

Fire Department followers can get updates on emergency incidents and other Fire Department information via Twitter.

[www.twitter.com/seattlefire](http://www.twitter.com/seattlefire)

## Fire Line Blog

Information and photos of emergency incidents, upcoming events and fire safety and prevention information is posted on the Department's blog.

[www.fireline.seattle.gov](http://www.fireline.seattle.gov)

## Fire Prevention and Safety Information

Information is available on family, home, apartment, business, marina, high-rise, school and campus fire safety. Fire fact sheets are available in multiple languages.

[www.seattle.gov/fire/publicEd/generalInfo.htm](http://www.seattle.gov/fire/publicEd/generalInfo.htm)

## Seattle Fire on Facebook

Information and photos of emergency incidents, upcoming events and fire safety and prevention information is posted on the Department's Facebook page.

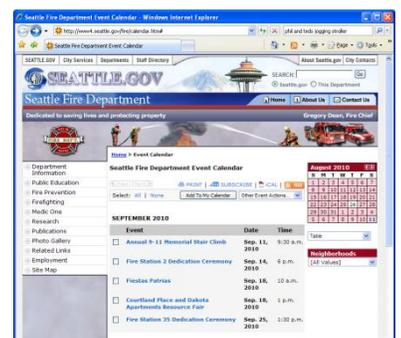

[www.facebook.com/seattlefire](http://www.facebook.com/seattlefire)

## Online Events Calendar

Find out about Department events like new fire station dedications, fire station open houses and fire safety presentations.

[www.seattle.gov/fire/calendar.htm](http://www.seattle.gov/fire/calendar.htm)

## Online Infectious Disease Tracking

Firefighters enter symptom information into an SFD database called "Situation Found" when they treat patients with flu-like symptoms. The symptoms are then tracked and evaluated by Seattle King County Public Health in real-time to identify possible trends in sickness.

[www.seattle.gov/fire/statistics/sitfound/default.htm](http://www.seattle.gov/fire/statistics/sitfound/default.htm)

## Online Permits

The public can search online for permits and permit history by business name or address. Permits can be paid for by credit card over-the-phone or over-the-counter.

[www2.seattle.gov/fire/FMO/permits/permitStatus/permitStatusSearch.htm](http://www2.seattle.gov/fire/FMO/permits/permitStatus/permitStatusSearch.htm)

## Emergency Incident Search

Allows the public to search online for both current fire and emergency medical responses and those dating back to 1994 by address or type of incident.

[www2.seattle.gov/fire/mr/incidentSearch.htm](http://www2.seattle.gov/fire/mr/incidentSearch.htm)

## Online Fire Code

Fire Code regulations and bulletins are constantly used by developers, building owners and architectural and engineering firms. Code information can be easily accessed online.

[www.seattle.gov/fire/FMO/firecode/firecode.htm](http://www.seattle.gov/fire/FMO/firecode/firecode.htm)

## Fire Research and Fire Statistics

Tracks the number of yearly emergencies and average response times for every response unit. The site also has National Fire Protection Association (NFPA) annual reports that provide historical information on structure fires, rescues, injuries and fatalities.
