

Attachment 2: Study Reports

Study number	Study title	Report type in ISR
Geology and Soils		
1	Erosion Study	Interim
Water Resources		
2	Analysis of Peak Flood Flow Conditions Above Metaline Falls	Interim
3	Evaluation of TDG and Potential Abatement Measures	Interim
4	Toxics Assessment: Evaluation of Contaminant Pathways, Potential Project Nexus	No report ¹
5	Water Quality Constituent and Productivity Monitoring	Interim
6	Evaluation of the Relationship of pH and DO to Macrophytes in Boundary Reservoir	Interim
Fish and Aquatic Resources		
7	Mainstem Aquatic Habitat Modeling Study	Interim
8	Sediment Transport and Boundary Reservoir Tributary Delta Habitats Study	Interim
9	Fish Distribution, Timing, and Abundance Study	Interim
10	Large Woody Debris Management Study	Final
11	Productivity Assessment	Interim
12	Fish Entrainment and Habitat Connectivity Study	Interim
13	Recreational Fishery Study	Interim
14	Assessment of Factors Affecting Aquatic Productivity in Tributary Habitats	Interim
Botanical and Wildlife Resources		
15	Waterfowl/Waterbird Study	Interim
16	Inventory of Riparian Trees and Shrubs	Interim
17	Rare, Threatened, and Endangered (RTE) Plant Species Inventory	Interim
18	RTE Wildlife Species Study	Interim
19	Big Game Study	Interim
20	Bat Surveys and Habitat Inventory	Interim
Recreation and Land Use		
21	Recreation Resource Study	Interim
22	Land and Roads Study	Final
Aesthetic/Visual Resources		
23	Aesthetic/Visual Resource Study	No report ²
Cultural Resources		
24	Cultural Resource Study	Interim

¹ Consistent with FERC's October 25, 2007 determination, the Study 4 Toxics ISR report will be filed with FERC no later than August 15, 2008.

² Study 23, Aesthetic/Visual Resources, is a second-year study (i.e., conducted in 2008) and will be reported on in the USR, which will be filed with FERC in March 2009.
