

Seattle City Light Energy Smart Design - Standard Incentives

This Microsoft Excel workbook contains some of the forms you need to fill out in order to complete an Energy Smart Design proposal for energy-efficiency funding for common types of HVAC equipment.

To use these forms, you will need the information contained in the Energy Smart Design Program Manual for Standard Incentives. Please call Seattle City Light at (206) 684-3254 if you need a copy of the Manual.

Please fill out the following information before proceeding; this information is required by the other sheets in this workbook:

Name of Facility where the equipment is to be installed

Facility Address, State, Zip

Contact Person at the Facility

Contact Person's Phone Number

Your Name
