If you are looking to build a five-or-more unit, electrically heated building in Seattle City Light’s service area, The BUILT SMART program offers incentives for installing efficient measures that go beyond the current energy code.

These measures include:
- Extra insulation (incentive based on square footage and type of insulation)
- Efficient windows (incentive based on square footage of U-.33 or better)
- High-efficiency HVAC systems and controls (23 cents per kWh saved)
- Efficient lighting in common areas (incentive based on energy savings)

These measures are optional:
- Efficient whole house fans
- Efficient lighting in-unit
- Lighting controls
- Efficient elevators

We also offer these FREE services:
- Diligent inspections & commissioning services
- Lighting consult from the Lighting Design Lab
- Step-by-step technical assistance
