Pedestrian Luminaires, LED, Post-Top, Transitional

1. Scope

This standard covers the requirements for light-emitting diode (LED), post-top, transitional, pedestrian luminaires.

This standard applies to the following Seattle City Light (SCL) stock numbers:

<table>
<thead>
<tr>
<th>Stock No.</th>
<th>Color</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>014357</td>
<td>Gray</td>
<td>UrbanScape post-top LED luminaire</td>
</tr>
<tr>
<td>014358</td>
<td>Black</td>
<td>UrbanScape post-top LED luminaire</td>
</tr>
</tbody>
</table>

2. Application

LED transitional pedestrian luminaires are:

- Installed in City-designated areas and SCL-designated streetlight districts.
- Post-top mounted on streetlight poles with a 4-in pole-top outer diameter.
- Equipped with built-in photocontrol housing with tool-less access for a standard, three-pin photocontrol.
- Controlled by 20-year design life streetlight photocontrols as specified in SCL 5693.10.
3. Industry Standards

LED transitional pedestrian luminaires shall meet the applicable requirements of the following industry standards:

- **ANSI/NEMA/ANSLG C78.377-2008**: Specifications for the Chromaticity of Solid State Lighting (SSL) Products
- **ANSI C136.10–2010**: Locking-Type Photocontrol Devices and Mating Receptacles
- **ANSI C136.41–2013**: Dimming Control Between an External Locking Type Photocontrol and Ballast or Driver
- **ASTM B117-09**: Standard Practice for Operating Salt Spray (Fog) Apparatus
- **ASTM D523-08**: Standard Test Method for Specular Gloss
- **ASTM D1654-08**: Standard Test Method for Evaluation of Painted or Coated Specimens Subjected to Corrosive Environments
- **ASTM D2247**: Standard Practice for Testing Water Resistance of Coatings in 100% Relative Humidity
- **ASTM G154-06**: Standard Practice for Operating Fluorescent Light Apparatus for UV Exposure of Nonmetallic Materials
- **Federal Trade Commission (FTC)**; Green Guides, 16 CFR Part 260; Guides for the Use of Environmental Marketing
- **IEC 60529**: Degrees of protection provided by enclosures (IP Code), consolidated edition
- **IEEE C62.41.2–2002**: IEEE Recommended Practice on Characterization of Surges in Low-Voltage (1000 V and less) AC Power Circuits
- **IES LM-79-08**: Approved Method: Electrical and Photometric Measurements of Solid-State Lighting Products
- **IES LM-80-08**: Approved Method: Measuring Lumen Maintenance of LED Lighting Sources
- **IESNA TM-15-11 (revised)**: Luminaire Classification System for Outdoor Luminaires
- **Title 47 of the Code of Federal Regulations (CFR), Part 15**: Radio Frequency Devices
- **UL 1598**: Luminaires; UL
4. Requirements

4.1 Luminaire Performance

4.3 Construction

4.3.1 General

The luminaire shall be designed and constructed to meet the requirements of ANSI C136.37.

Luminaire features conforming to ANSI C136.37 shall include but not be limited to the following: mounting provisions, latching and hinging, terminal blocks, dimming, ingress protection, wiring and grounding, and photocontrol receptacle.

Luminaire shall be compliant with RoHS (European Union Directive 2002/95/ED for Restriction of Hazardous Substances). Luminaire shall have less than the maximum concentration values of the following RoHS-restricted substances:

- Mercury (Hg)
- Cadmium (Cd)
- Chromium VI (Cr +6)
- Polybrominated biphenyl (PBB)
- Polybrominated biphenyl ether (PBDE)
- Lead (Pb)
4.3.2. Fixture Housing

- **Luminaire weight, lb, maximum**: 40
- **Effective projected area (EPA), ft², maximum**: 1.7
- **External housing, ingress protection per IEC 60529**: IP65
- **Optical chamber, ingress protection per IEC 60529**: IP66

Luminaire housing shall be cast aluminum and allow for tool-less entry.

All tool-less fasteners, latches, and knobs shall be stainless steel.

Photocontrol receptacle shall be located at the base of the luminaire and allow for tool-less entry.

Photocontrol mounting shall accommodate all City Light-approved photocontrols listed in material standard 5693.10.

Luminaire cooling system shall consist of a passive heat sink without fans, pumps, or liquids.

All aesthetic exterior fasteners shall be zinc-plated, ceramic coated, and corrosion resistant; painted the same color as the luminaire housing or other approved protective coating, e.g. ceramic primer-seal basecoat. Internal fasteners shall be stainless steel.

All polycarbonate components shall be UV stabilized.

4.3.3. Electrical

Power supply/driver shall be UL Recognized for dry and damp locations.

All other electrical components shall be UL Listed or UL Recognized for wet locations.

Luminaire photocontrol receptacle shall be designed and constructed to accept a standard plug type, locking, three-pole, three-wire, streetlight photocontrol, and shall be located at the base of the fixture.

Photocontrol receptacle shall have a minimum of five positions as defined in ANSI C136.41-2013. Two dimming contacts shall be connected to the 0-10 Vdc control signal interface on the power supply/driver with quick connectors.

Rotational adjustment of the photocontrol shall be tool-less.

Luminaire circuitry shall include quick connectors to allow easy separation and removal of driver and power door.

A three-pole terminal block capable of accepting #14 to #6 AWG wire shall be mounted to the housing inside the electrical compartment.

Terminal block shall be capable of operation with a standard #2 flat blade screwdriver.

4.3.4. Mounting

Luminaire shall be designed for post-top mounting onto a pole with a top diameter of 4 inches.

Tenon mounting area opening shall be limited to 1/4-in over the range of tenon sizes and leveling adjustment to prevent entrance of wildlife as specified in ANSI C136.37.

4.3.5. Lens

Lens shall be lightly diffused and resistant to ultraviolet light deterioration.

Lens shall be smooth on the exterior to discourage unwanted growth.
4.3.6. Finish and Color

Finish on housing shall be a powder coating with a minimum thickness of 100 microns and shall meet the salt spray requirements of ASTM B117 and the humidity resistance requirements of ASTM D2247.

5. Detailed Requirements, Stock Numbers 014357 and 014358, Urbanscape

Physical and electrical details for specific luminaires are provided below.

<table>
<thead>
<tr>
<th>System power consumption (W)</th>
<th>37</th>
</tr>
</thead>
<tbody>
<tr>
<td>Weight (lb)</td>
<td>32</td>
</tr>
<tr>
<td>EPA (ft²)</td>
<td>1.7</td>
</tr>
<tr>

<td>4&quot;Ø by 4&quot;</td>
</tr>
<tr>
<td>Dimensions, height by width (in)</td>
<td>34 7/8&quot; by 17 3/4&quot;</td>
</tr>
</tbody>
</table>

6. Testing

Manufacturers shall provide test data that establishes compliance with the requirements of this material standard upon request.

Certificate of RoHS (European Union Directive 2002/95/EC for Restriction of Hazardous Substance) compliance shall be provided upon request.

7. Design Changes

Manufacturer shall inform Seattle City Light in writing of all design changes that could affect the product’s understood or published capabilities.
8. Marking

8.1 Internal Labeling

A readily visible label shall be permanently affixed to the inside surface of each luminaire housing.

Internal label shall meet the requirements of ANSI C136.22.

Internal label shall include, but not be limited to, the following information:

- Manufacturer name and catalog number
- Month and year of manufacture
- Line input voltage
- Frequency if other than 60 Hz
- Driver type, if applicable (may be on driver if readily visible)
- Photocontrol voltage if different from line input voltage
- Lamp type, wattage, and voltage, if applicable (may be on driver if readily visible)
- Plant location
- Input power consumption
- Driver output current
- Driver output adjustment
- IEC IP rating
- Correlated color temperature (CCT)
- IES light distribution type
- IESNA TM-15 BUG ratings
- Serial number

8.2 Barcode

A barcode label shall be provided as specified in the purchase order.

8.3 Component Identification

All UL Listed components shall be labeled or recognized as such.

9. Packaging

Luminaires shall be individually packaged to prevent damage during shipping, inside storage, and casual handling prior to installation.

Each package shall be legibly marked with:

- Manufacturer name
- Manufacturer catalog number
- Product description
- Date of manufacture (month and year)
- Seattle City Light stock number
- Seattle City Light purchase order number

Accessories shall be individually packaged to prevent damage during shipping, inside storage, and casual handling prior to installation.

Each package shall be legibly marked with:

- Product description
- Seattle City Light stock number

10. Issuance

Unit: EA
11. Approved Manufacturers

11.1 Stock Number 014357

<table>
<thead>
