 Your Seattle City Light

SKAGIT CONSTRUCTION UPDATES

Interstate 5 - For motorists traveling on Interstate 5 to the Skagit area this summer, the [Washington State Department of Transportation](http://www.wsdot.wa.gov/Projects/I5/SkagitRiverBridgeReplacement/default.htm) provides alternative route information in regards to the Skagit River Bridge. Expect heavy traffic and long delays at times. Click here for more information.

<http://www.wsdot.wa.gov/Projects/I5/SkagitRiverBridgeReplacement/default.htm>

Newhalem - Due to construction in Newhalem, Main Street is closed to through traffic and parking is limited. Visitors to the Newhalem General Store and Skagit Information Center should consider parking in the lots on the north side of Highway 20. In addition, parking for Ladder Creek Falls is accessible only from Highway 20 and is limited to the small lot near the Gorge Powerhouse bridge.

Diablo Lake - In July work will resume to stabilize the rockslide area near Ross Powerhouse. The Haul Road and the suspension bridge downstream of Ross Powerhouse remain closed to pedestrians. Boat traffic in the canyon area of Diablo Lake may be interrupted occasionally this summer during blast events. Boaters should heed all posted signs.

We apologize for any inconvenience or delays. For highway impacts, please check <http://www.wsdot.com/traffic/passes/passinformation>
