

# BOUNDARY DAM

40th ANNIVERSARY CELEBRATION

BOUNDARY DAM is a double-arch dam that curves both horizontally and vertically, similar to an eggshell. The base of the dam is 32 feet thick and just 8 feet thick at the top. The rim extends 50 feet farther down river than the base.

*Greetings  
from 1967*

## *Celebrating power, people, and progress*

**You are invited to a special dedication  
Thursday, September 20, 2007**
