

## 3rd Avenue NW – NW 105<sup>th</sup> Street to NW 85th Street

## 3rd Avenue NW – NW 105<sup>th</sup> Street to NW 85th Street

**Project ID # 2007-330**

**Type of Improvement:** Sidewalk  
**Neighborhood:** Greenwood

**Approximate Length:** 4750 feet  
**Street Classification:** Minor Arterial

### **Applicant Description of Problem and/or Project:**

**Problem:** Traffic calming is much needed. Speed in excess of 30mph. Multiple vehicular collisions at 90th & 92nd. School children picked up and dropped off on 90th and 3rd. No crosswalks to cross on 3rd no sidewalks also. Residents north of 92nd only have mail delivered on west side of 3rd. Have to cross 3rd to get daily mail. Pedestrian safety issue for those crossing 3rd. see attached. This listing does not include all traffic accident since 1994. there were two accidents in one day in 2006 and the cars crashing through my neighbors fence in 2006.

**Suggested Project:** Traffic-calming crosswalks, sidewalks. No crosswalks to cross 3rd & no side walks also.

### **Potential Solution and/or Comments:**

3<sup>RD</sup> Avenue NW, 85<sup>TH</sup> to Holman

- Replace existing asphalt walkway that is in poor condition with new 6-foot concrete sidewalk for approximately 3,750-feet along the east side of the street.

3<sup>RD</sup> Avenue NW, Holman to 105<sup>TH</sup>

- Construct curb, gutter, 5-foot planting strip and 6-foot concrete sidewalk for approximately 1,000-feet along the east side of the street.
- Some short retaining walls will be required in the corridor.
- Construct new catch basins and storm sewer to collect street runoff.
- Assume that because more than 5,000 SF of impervious area is being constructed that stormwater detention and water quality will be required.

### **Challenges/Tradeoffs:**

- Parking may be prohibited on the east side of 3<sup>rd</sup> Avenue NW.

**Preliminary Range of Cost:** \$ 2,800,000 to \$ 3,600,000
