

NW 87TH St, 3RD Ave NW to Greenwood Ave N

NW 87TH St, 3RD Ave NW to Greenwood Ave N

Project ID # 2007-346

Type of Improvement: Sidewalk
Neighborhood: Greenwood

Approximate Length: 1100 feet
Street Classification: Local Street

Applicant Description of Problem and/or Project:

Problem: This street is a huge danger to pedestrians. The street is used by drivers to by-pass 85th St. and is extremely busy through rush hour traffic. As the road is quite wide, traffic drives down this street very fast. For the health and safety of those of us who live here, please sidewalk this street.

Suggested Project: Traffic calming & sidewalks

Potential Solution and/or Comments:

NW 87TH Street, 3RD Ave NW to Greenwood Ave N

- Construct 5-foot landscape planting strip and 6-foot concrete sidewalk for approximately 1100 feet along the south side of the street.
- Construct new catch basins and storm sewer to collect, treat and detain street runoff.

Challenges/Tradeoffs:

- Existing street width is per City's standard for this zoning and must be maintained. The street cannot be narrowed.
- SDOT may also consider additional traffic calming measures beyond those provided by the planting strip after the impacts of the proposed project are assessed.

Preliminary Range of Cost: \$ 1,070,000 to \$ 1,310,000
