

# Fauntleroy Place SW to 46<sup>th</sup> Avenue SW at SW Cloverdale St.

# Fauntleroy Place SW to 46<sup>th</sup> Avenue SW at SW Cloverdale St

**Project ID # 2007-310**

**Type of Improvement:** Sidewalk  
**Neighborhood:** Fauntleroy

**Approximate Length:** 55 feet  
**Street Classification:** Local Street

## **Applicant Description of Problem and/or Project:**

**Problem:** The existing steep and unmaintained sidewalk is an extension of SW Cloverdale St to 46th Ave SW; it is unsafe and especially dangerous in wet and frosty weather. This walk is used by many citizens and school children. Maps show that there are approximately 60 residences for which this path is the primary pedestrian access to catch the bus on Fauntleroy Way SW, or use the pedestrian stop light at SW Cloverdale to cross Fauntleroy to Lincoln Park. This walk is heavily used. Many of the riders are school children on their way to catch the school bus.

**Suggested Project:** Construct a new sidewalk or steps on SW Cloverdale St connecting Fauntleroy Place SW to 46th Ave SW.

## **Potential Solution and/or Comments:**

Fauntleroy Place SW to 46<sup>th</sup> Avenue SW

- Construct a 6-foot wide concrete sidewalk for approximately 55 feet between Fauntleroy Pl. SW and SW Cloverdale St.
- All or part of the sidewalk will be constructed with landings, steps and handrails

## **Challenges/Tradeoffs:**

- Portion of sidewalk to receive steps would be determined during design. Current estimate assumes continuous stairway with landings and handrails.

**Preliminary Range of Cost:** \$ 120,000 to \$ 160,000
