

Delridge Way SW – SW Andover St to SW Myrtle St

Delridge Way SW – SW Andover St to SW Myrtle St

Project ID # 2007-392

Type of Improvement: Traffic Calming
Neighborhood: West Seattle

Approximate Length: 21,200 feet
Street Classification: Principal Arterial

Applicant Description of Problem and/or Project:

Problem: None given.

Suggested Project: Remove center turn lane & replace them with center planting strips with trees.

Potential Solution and/or Comments:

Delridge Way SW – From SW Andover St to SW Myrtle St

- Install 10-foot wide planted median in locations where left-turns are not necessary.
- Maintain one travel lane per direction.

Challenges/Tradeoffs:

- Median location will have to be coordinated with Fire Department to determine appropriate locations for medians to maintain emergency vehicle access.
- Median location may also have to be modified to maintain access to individual properties.

Preliminary Range of Cost: \$6,800,000 to \$8,320,000
