

Discovery Park Presents

Trail Mix

Nature Lectures for Nourishing the Mind

This winter, learn something new about the natural world and cultural diversity.

Sign up for one or two lectures or for the entire series.

\$10 advanced purchase

\$12 the day of the lecture

\$48 for the entire series

Thursdays 7–9 p.m.

Wild Mushrooms of the Pacific Northwest January 24

Experience the wonderful world of fungi with Patrice Benson, President of the Puget Sound Mycological Society. Enjoy powerful images and displays of books, crafts and foods. Bring mushrooms for identification and be prepared to taste, smell and ask questions.

Wings of Beauty February 7

The amazing world of butterflies will come alive through digital photography. Idie Ulsh photographic editor of *The Butterflies of Cascadia* will share her photographs and knowledge of Pacific Northwest butterflies in this visual feast.

Dragonflies—Rainbows on the Wing February 21

Dennis Paulson renowned dragonfly expert; author of *Dragonflies of Washington* and innumerable scientific papers on dragonflies will share his knowledge through gorgeous photographs of local and “exotic” dragonflies.

Bridges to Understanding February 28

Phil Borges will present his program that engages students worldwide in direct, interactive learning and storytelling to build cross-cultural understanding.

Wild Birds through Photographs March 13

Enjoy a photographic journey of birds by habitat throughout the Pacific Northwest by renowned naturalist and wildlife photographer Paul Bannick.

Killer Whale Tales March 27

Join naturalist Jeff Hogan from *Killer Whale Tales* to experience the world of the orca and other marine mammals of Puget Sound.

All proceeds benefit the **Discovery Park Environmental Education Scholarship Fund**

Register today at www.seattle.gov/parks
