City of Seattle – Benefits at a Glance (Employees with *Most** Benefits Coverage)

Eligibility: For new hires and dependents, coverage begins on your first day of employment if that date is the first calendar day of the month designated as a City business day or the first calendar day of the month designated or recognized as the first working day for the shift to which you are assigned. If your employment begins after this date, your coverage begins the first day of the following month.

Eligible Dependents: Individuals eligible for coverage include your spouse or domestic partner, your birth or adopted children or children placed for adoption, your domestic partner's children who live with you, stepchildren who live with you, and any child for whom you are legal guardian or for whom coverage is required by a Qualified Medical Child Support Order. Adult children are eligible for coverage if they are under age 26. If you add dependents, you'll be asked for documentation to prove their eligibility for coverage through City of Seattle plans.

Enrollment: You must enroll within 30 days of hire. If you fail to enroll within 30 days of your hire date, you will automatically be enrolled for dental and basic vision coverage. Your dental coverage will default to the Delta Dental of Washington plan. Starting with hires after January 2, 2018, if you are newly eligible for health coverage and don't actively elect or waive medical coverage, you will automatically be enrolled in the Aetna Traditional employee only plan, which requires no premium contribution from you.

Dental

You may select from two dental plans – Delta Dental of Washington or Dental Health Services. The dental plans include coverage for eligible dependents. The premium is covered in full by the City of Seattle.

Vision

You may elect a Basic or Buy-up vision plan. An annual eye exam is covered every calendar year for both plans. The premium is paid in full by the City for the Basic plan; you contribute \$10.38 for the Buy-up plan, which has enhanced eyewear options.

You can elect a minimum of \$120 up to \$2,650 per year for the Healthcare FSA and \$5,000 for the Day Care plan. If you elect to participate in this plan and want to continue your participation, you will need to re-enroll each year during the City's open enrollment period.

You may roll over up to \$500 of unused Health Care funds from the current plan year into the following plan year if the carryover results in a minimum account size of \$120.

If you become disabled, after a 90-day waiting period, the plan will pay you a basic benefit of \$400 a month while you are unable to work. The basic long-term disability premium is paid in full by the City. You have the option to purchase supplemental long-term disability benefits (see below).

Retirement Benefits

Seattle City Employees' Retirement System (SCERS I and II)

There are two retirement plans for City employees, which essentially work the same way with some differences in contributions, minimum retirement age, final average salary, and earned benefit per year of service multiplier.

SCERS I (hired and enrolled before January 1, 2017): You contribute 10.03% and the City also pays 15.29% of your salary towards your retirement.

SCERS II (hired January 1, 2017 or later): You contribute 7.0% and the City also pays 14.42% of your salary towards your retirement.

Contributions and earnings are tax deferred. You are 100% vested in your contributions and their earnings. You become vested (eligible for a monthly benefit at retirement age) at five years of service. If you leave City employment before retirement and withdraw your contributions, you will not be entitled to any of the City's contributions.

If you have worked for the state or other local governments, you may be eligible to combine your service time to qualify for retirement.

You have the option of saving more for your retirement through the City's Voluntary Deferred Compensation Plan (see below).

Voluntary Deferred Compensation Plan

Enrollment in the City's 457 Deferred Compensation Plan is voluntary. You are allowed to contribute through payroll deductions. You decide the dollar amount, contribution type and investments options. You may contribute as little as \$10 per paycheck. Enrollment and contribution changes may be made at any time. The City does not match your contributions.

Employee Assistance Program (EAP)

EAP is a referral and counseling service for you and household members. Receive confidential assistance for personal issues such as stress, depression, family and relationship problems, and financial counseling. Each household member is eligible for six free one-hour sessions per issue per year.
