RE: Health Care Reform, City Medical Plans and You

Dear City of Seattle Employee:

This packet contains **important information about health care reform**. Please carefully read the enclosed documents:

- Frequently Asked Questions about what health care reform means for you and your family and City medical plans;
- A required notice about the health insurance exchanges;
- A Washington health insurance exchange flyer to share with friends and family members who don't have access to employer-based health insurance.

You do not need to take action other than:

- Read the enclosures to be knowledgeable about health care reform;
- Share the flyer with someone who doesn't currently have health insurance or who has coverage on an individual plan;
- File the required notice with your important papers.

If you have questions about the contents of this special health care reform mailing, please contact our Central Benefits Unit at (206) 615-1340 or by email at Benefits.Unit@seattle.gov.

Sincerely,

David Stewart
Personnel Director
