AT&T Nationwide Coverage

Check coverage in your area at <http://www.wireless.att.com/coverageviewer>

AT&T GSM handset required. Your phone's display does not indicate the rate you will be charged. Please review your coverage map for areas included in and out of plan. Map depicts an approximation of outdoor coverage. Map may include areas served by unaffiliated carriers and may depict their licensed area rather than an approximation of the coverage there. Actual coverage area may differ substantially from map graphics, and coverage may be affected by such things as terrain, weather, foliage, buildings and other construction, signal strength, customer equipment and other factors. AT&T does not guarantee coverage. Charges will be based on the location of the site receiving and transmitting the call, not the location of the subscriber. Future coverage, if depicted above, is based on current planning assumptions but is subject to change and may not be relied upon.
