

Construction Phase - Duct banks, vault installation, and cable-accessories-  
installation. Location is Yesler to King and Atlantic Union Substation new GIS equipment

Sept 2014 -  
Fall 2015

## City of Seattle

### Department of Finance and Administrative Services

September 12, 2011

All Bidders

#### Reference: Invitation to Bid – SCL 1036 Gas Insulated Switchgear

Thank you for participating in our invitation to bid. We recognize the hard work your teams have put into this effort. It is very much appreciated.

The purpose of this letter is to inform you that the Invitation to Bid (ITB) SCL-1036 is cancelled. Bidder's submittal packages were rejected based non-compliance to administrative requirements or on technical merit including the HPFF connection and clearances.

It is anticipated that an interim and long term Gas Insulated Switchgear equipment (GIS) solution may be implemented including the following dates.

Target Date	Description
Sept 2011	City to define the interim GIS solution and the appropriate delivery vehicle
Spring 2012	Install the interim GIS solution
Jan 2013 - July 2013	City to procure design phase consultant services Duct banks, vault installation and cable-accessories-installation. Location is Yesler to King and Atlantic Union Substation new GIS equipment
July 2013 - Sept 2014	City to enter into the design phase & construction contracting and procurement phase for Duct banks, vault installation and cable-accessories-installation. Location is Yesler to King and Atlantic Union Substation new GIS equipment
Sept 2014 - Spring 2015	Construction Phase - Duct banks, vault installation, and cable-accessories-installation. Location is Yesler to King and Atlantic
