

SDOT Bridge Rehabilitation and Replacement Program

15th Avenue NE at NE 105th Street Bridge Rehabilitation Project Fact Sheet

Bridge Closed for Construction until Mid 2011

SDOT is making repairs to improve safety on the 15th Avenue NE bridge. During construction, the bridge will be closed to all traffic, including vehicles, bicycles and pedestrians.

The recommended alternate route for pedestrians is the loop from NE Northgate Way to Roosevelt Way NE to NE 104th Street, which is about a 15-minute walk.

King County Metro is another option. Route 75 runs on NE Northgate Way and routes 68, 73, 77, and 373 run on Roosevelt Way NE. For Metro timetables and route maps, visit <http://metro.kingcounty.gov> or call Metro's Customer Information office at (206) 553-3000. See map for additional information and route options.

We apologize for the inconvenience and appreciate your patience during construction. The project is scheduled for completion in mid-2011.

Improvements include:

- Strengthening the bridge structure
- Repaving the bridge surface
- Replacing expansion joints
- Adding a separation railing between the sidewalks and the traffic lanes
- Correcting erosion problems along the slope of the ravine under the bridge

Alternate Routes for Pedestrians and Bicyclists

Key

- 15th Avenue NE Bridge Work Zone
- Suggested Alternate Route for Pedestrians
- Sidewalk/Walkway Improvements
- Bus Stops for Route 75 (NE Northgate Way)
- Bus Stops for Routes 68, 73, 77 & 373 (Roosevelt Way NE)

Questions? Concerns?

SDOT is committed to working closely with the community during construction to address concerns about construction activities and detour routes. If you have questions, please contact:
