

Westlake Cycle Track Design Advisory Committee Meeting #2

Agenda

Monday, April 7, 2014 5:30-8:00 p.m.
 MOHAI – Nordhoff Family Learning Center

Meeting purpose

- Share results of studies completed to date
- Share results of business and resident survey
- Discuss additional information needs

When	What	Who
5:30 p.m.	Welcome	Penny Mabie
5:35 p.m.	Adopt summary from Meeting #1 Review updated DAC charter and work plan	Penny Mabie
5:45 p.m.	DAC members share feedback from the interests they represent	DAC members
6:00 p.m.	Discuss information compiled to date and how it informs design: <ul style="list-style-type: none"> • Existing Conditions and Design Criteria • Traffic Circulation • Parking Utilization 	Barbara Lee Kristen Lohse Peter Lagerwey
7:15 p.m.	Break	All
7:25 p.m.	Review business and resident survey	Art Brochet
7:45 p.m.	Observer comments to DAC	Observers
7:50 p.m.	Next steps	Penny Mabie
8:00 p.m.	Adjourn	All

Committee members and interests represented

- Warren Aakervik, freight interests
- Martha Aldridge, Lake Union Park users
- Andrew Austin, non-vehicular commute trips
- Devor Barton, pedestrian interests
- Karen Braitmayer, Westlake Ave North business owners
- Dave Chappelle, Lake Union floating home and live-aboard interests
- Thomas Goldstein, Cascade Bicycle Club
- Amalia Leighton, transportation engineering
- Sarah McGray, bicycle interests
- John Meyer, air/water transportation/tourism
- Martin Nelson, Westlake Stakeholders Group
- Peter Schrappen, Lake Union marina operator/boat moorage tenant interests
- Cam Strong, Westlake Stakeholders Group

DAC Glossary

- **Cycle track:** Protected bicycle lanes that are separated physically from moving vehicles and distinct from pedestrian walkways
- **Three Types of Bicyclists:**
 - Enthused and confident: People who will ride with basic bicycle facilities, such as bicycle lanes.
 - Strong and fearless: People who will ride regardless of the extent and quality of bicycle facilities.
 - Interested but concerned: People who would be willing to ride a bicycle, or ride more often, if conditions were improved.
- **Non-cyclists:**
 - No way, no how: People who will not or cannot consider riding a bicycle under any circumstance.
- **Green pavement:** Markings on pavement to indicate that a space will be used by both people on bikes and people who are driving.
- **Major Truck Street:** An arterial street that accommodates significant freight movement through the city, and to and from major freight traffic generators. The street is typically a designated principal arterial. Major Truck Streets generally carry heavier loads and higher truck volumes than other streets in the City. SDOT uses the designation of Major Truck Street on an on-going basis as an important criterion for street design, traffic management decisions and pavement design and repair.

Meeting ground rules

- Start/end on time
- Silence cell phones
- Come prepared
- Listen respectfully
- Speak from interests, not positions
- Participate in the process
