

USE FEE ESTIMATION WORKSHEET

Non-Arterial

Section I: Determine area of use and 10-day periods for calculation of use fees

1) Determine Area of Use (Square Footage):

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \boxed{a} \underline{\hspace{2cm}}$$

Length (Lineal feet) Width (Lineal feet) Area/Square Footage (sf)

2) Determine number of "10-day periods" based on the duration of Project:

$$\underline{\hspace{2cm}} \text{ divided by } 10 = \boxed{b} \underline{\hspace{2cm}} \text{ (round up to the nearest whole number)}$$

No. of days in project Total # of 10-day periods

3) Calculate the estimated use fees:

If \boxed{b} is 27 or less: fill out Section II. If \boxed{b} is 28 or more: fill out Section III.

Section II: Use Fee Estimation (up to 27 periods)

find corresponding amount from \boxed{b} ↓ 1: \$0.00 x _____ (sf) = \$ _____ 2: \$0.00 x _____ (sf) = \$ _____ 3: \$0.00 x _____ (sf) = \$ _____ 4: \$0.10 x _____ (sf) = \$ _____ 5: \$0.20 x _____ (sf) = \$ _____ 6: \$0.30 x _____ (sf) = \$ _____ 7: \$0.40 x _____ (sf) = \$ _____ 8: \$0.50 x _____ (sf) = \$ _____ 9: \$0.60 x _____ (sf) = \$ _____ 10: \$0.80 x _____ (sf) = \$ _____ 11: \$1.00 x _____ (sf) = \$ _____ 12: \$1.20 x _____ (sf) = \$ _____ 13: \$1.40 x _____ (sf) = \$ _____ 14: \$1.60 x _____ (sf) = \$ _____	↓	find corresponding amount from \boxed{b} ↓ 15: \$1.80 x _____ (sf) = \$ _____ 16: \$2.20 x _____ (sf) = \$ _____ 17: \$2.60 x _____ (sf) = \$ _____ 18: \$3.00 x _____ (sf) = \$ _____ 19: \$3.40 x _____ (sf) = \$ _____ 20: \$3.80 x _____ (sf) = \$ _____ 21: \$4.20 x _____ (sf) = \$ _____ 22: \$5.00 x _____ (sf) = \$ _____ 23: \$5.80 x _____ (sf) = \$ _____ 24: \$6.60 x _____ (sf) = \$ _____ 25: \$7.40 x _____ (sf) = \$ _____ 26: \$8.20 x _____ (sf) = \$ _____ 27: \$9.00 x _____ (sf) = \$ _____
--	---	---

Section III: Use Fee Estimation (if more than 27 periods)

1) Determine use fees for 1st 27 periods

$$27: \$9.00 \times \underline{\hspace{2cm}} = \boxed{c} \$ \underline{\hspace{2cm}}$$

square footage from \boxed{a}

2) Determine number of additional 10-day periods

$$\text{Enter amount from } \boxed{b} \underline{\hspace{2cm}} \text{ minus } 27 = \boxed{d} \underline{\hspace{2cm}}$$

(additional 10-day periods)

3) Determine use fees for additional 10-day periods

$$\text{Enter amount from } \boxed{d} \underline{\hspace{2cm}} \times \$1.20 \times \underline{\hspace{2cm}} = \boxed{e} \$ \underline{\hspace{2cm}}$$

square footage from \boxed{a}

Use Fees for 1 st 27 periods	+	\boxed{c}	\$
Use Fees for additional 10-day periods		\boxed{e}	\$
Total			\$

****Please note: other fees may be incurred based on the type of Use applied for, including, but not limited to: Issuance Fees, Inspection and/or Review Time**

USE FEE ESTIMATION WORKSHEET

Arterial

Section I: Determine area of use and 10-day periods for calculation of use fees

1) Determine Area of Use (Square Footage):

$$\underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \boxed{\text{a}} \underline{\hspace{2cm}}$$

Length (Lineal feet) Width (Lineal feet) Area/Square Footage (sf)

2) Determine number of "10-day periods" based on the duration of Project:

$$\underline{\hspace{2cm}} \text{ divided by } 10 = \boxed{\text{b}} \underline{\hspace{2cm}} \text{ (round up to the nearest whole number)}$$

No. of days in project Total # of 10-day periods

3) Calculate the estimated use fees:

If **b** is 12 or less: fill out Section II. If **b** is 13 or more: fill out Section III.

Section II: Use Fee Estimation (up to 12 periods)

find corresponding amount from b ↓ 1: \$0.10 x _____ (sf) = \$ _____ 2: \$0.20 x _____ (sf) = \$ _____ 3: \$0.30 x _____ (sf) = \$ _____ 4: \$0.50 x _____ (sf) = \$ _____ 5: \$0.70 x _____ (sf) = \$ _____ 6: \$0.90 x _____ (sf) = \$ _____	↓	find corresponding amount from b ↓ 7: \$1.30 x _____ (sf) = \$ _____ 8: \$1.70 x _____ (sf) = \$ _____ 9: \$2.10 x _____ (sf) = \$ _____ 10: \$2.90 x _____ (sf) = \$ _____ 11: \$3.70 x _____ (sf) = \$ _____ 12: \$4.50 x _____ (sf) = \$ _____
--	---	---

Section III: Use Fee Estimation (if more than 12 periods)

1) Determine use fees for 1st 12 periods

$$12: \$4.50 \times \underline{\hspace{2cm}} = \boxed{\text{c}} \$ \underline{\hspace{2cm}}$$

*square footage from **a***

2) Determine number of additional 10-day periods

$$\text{Enter amount from } \boxed{\text{b}} \underline{\hspace{2cm}} \text{ minus } 12 = \boxed{\text{d}} \underline{\hspace{2cm}}$$

(additional 10-day periods)

3) Determine use fees for additional 10-day periods

$$\text{Enter amount from } \boxed{\text{d}} \underline{\hspace{2cm}} \times \$1.20 \times \underline{\hspace{2cm}} = \boxed{\text{e}} \$ \underline{\hspace{2cm}}$$

*square footage from **a***

Use Fees for 1 st 12 periods	+	c	\$
Use Fees for additional 10-day periods		e	\$
Total			\$

****Please note: other fees may be incurred based on the type of Use applied for, including, but not limited to: Issuance Fees, Inspection and/or Review Time**
