University Area Transportation Study

Final Report

LIST OF TABLES

Table 4-1 Projected Growth in University Population ................................................................. 4-3
Table 5-1 Highest Bicycle Accident Locations in the Study Area (1991-1996 data) ..................... 5-5
Table 5-2 Highest Pedestrian Accident Locations in the Study Area (1991-1996 data) ............... 5-6
Table 5-3 Transit Service Summary to and from the U.W. Campus ............................................. 5-12
Table 5-4 University Area Neighborhood Bus Routes ................................................................. 5-13
Table 5-5 Daily Traffic Volumes, 1985 and 2000 .............................................................. 5-18
Table 5-6 AM Peak Hour Traffic Volumes, 1985 and 1999 .......................................................... 5-21
Table 5-7 PM Peak Hour Traffic Volumes, 1985 and 1999 ......................................................... 5-22
Table 5-8 Definition of Level of Service (HCM 2000) ................................................................. 5-31
Table 5-9 PM Peak Hour Corridor Travel Time and Level of Service Results ......................... 5-35
Table 5-10 Highest Traffic Accident Locations at Intersections in the Study Area (1991-1996 data) 5-37
Table 5-11 Highest Accident Locations at Mid-Block Locations in the Study Area (1991-1996 data) 5-38
Table 7-1 Historical Population and Employment Growth ......................................................... 7-2
Table 7-2 2010 and 2020 Households and Employment Forecasts in the Study Area ............... 7-4
Table 7-3 2012 Estimates of Bicycle Users for U.W. Campus .................................................. 7-7
Table 7-4 Comparison of 2010 and 2020 Daily Traffic Volumes with Existing Volumes on Selected Arterials ........................................................................................................ 7-11
Table 7-5 2010 PM Peak Hour Traffic Volumes Compared with Existing Volumes on Selected Arterials ........................................................................................................ 7-12
Table 9-1 Project Evaluation for Eastlake Ave E/ Campus Parkway/NE 40th Street Corridors .... 9-4
Table 9-2 Project Evaluations for Montlake Boulevard NE/ Pacific Street Corridor ................. 9-5
Table 9-3 Project Evaluations for Major East-West Corridors, Major North-South Corridors and I-5 Crossing Improvements ................................................................. 9-6
Table 9-4 Project Evaluations for University Village Area Access ............................................ 9-7
Table 9-5 Project Evaluations for Transit/HOV Access and Small Scale Improvements ............ 9-8
Table 9-6  Project Evaluations for Light Rail Station Area Improvements and Traffic Signal Modifications........................................................................................................ 9-9

Table 9-7  Project Evaluations for Areawide Strategies and Freeway Ramp Storage Expansion ................. 9-10

Table 11-1 Project Impacts on High Pedestrian and Bicycle Accident Locations................................................. 11-2

Table 11-2 Project Impacts on High Vehicle Accident Locations ................................................................................. 11-4
Table 11-3  Corridor Travel Speed (Two-Way Average Miles per Hour) for Existing Conditions (1999) and with Recommended Projects

Table 11-4  2010 Corridor Travel Speed (Two Way Average Miles per Hour) with No Action and Recommended Projects

Table 12-1  Local Revenues

Table 12-2  Major Grant and Loan Funding Sources for Transportation Projects
UNIVERSITY AREA TRANSPORTATION STUDY

Final Report

LIST OF FIGURES

Figure 1-1 Recommended Projects in the Campus Parkway/University Bridge Area ........................................ 1-7
Figure 1-2 Recommended Projects in the Montlake Area .............................................................................. 1-8
Figure 1-3 Recommended Projects in the North-South & East-West Corridors ............................................. 1-9
Figure 1-4 Recommended Projects in the I-5 Right of Way ........................................................................ 1-10
Figure 1-5 Recommended Projects in the University Village Area ............................................................. 1-11
Figure 1-6 Recommended Transit and Small Scale Improvements ............................................................... 1-12
Figure 1-7 Recommended Projects in the Light Rail Station Area ............................................................... 1-13
Figure 1-8 Recommended Freeway Ramp Expansion Projects ..................................................................... 1-14
Figure 4-1 Potential Sound Transit Light Rail Routes .................................................................................. 4-8
Figure 5-1 Pedestrian Crossing Volumes at Street Intersections (PM Peak Hour) ........................................ 5-2
Figure 5-2 Bicyclist Crossing Volumes at Street Intersections (PM Peak Hour) ........................................... 5-4
Figure 5-3 Transit Service Summary to University Study Area .................................................................... 5-11
Figure 5-4 City of Seattle Street Classifications within the University Study Area ....................................... 5-16
Figure 5-5 Year 2000 Average Daily Traffic Volumes ................................................................................. 5-19
Figure 5-6 Year 2000 PM Peak Hour Traffic Volumes ............................................................................... 5-20
Figure 5-7 PM Peak Hour Distribution: NE 50th Street Link East of I-5 ....................................................... 5-24
Figure 5-8 PM Peak Hour Distribution: NE 45th Street Link East of I-5 ....................................................... 5-24
Figure 5-9 PM Peak Hour Distribution: Montlake Boulevard Link on Montlake Bridge ......................... 5-25
Figure 5-10 PM Peak Hour Distribution: Eastlake Avenue East Link on University Bridge .................... 5-25
Figure 5-11 PM Peak Hour Distribution: Roosevelt Way and 12th Avenue NE Links South of NE 65th Street .......................................................... 5-26
Figure 5-12 Daily Traffic Volumes Trends for North-South Arterials ......................................................... 5-28
Figure 5-13 Daily Traffic Volume Trends for East-West Arterials ............................................................... 5-29
Figure 5-14 Daily Traffic Volume Trends for Bridges ............................................................................... 5-30
Figure 5-15 1999 PM Peak Hour LOS and Average Delays (North Study Area) ......................................... 5-33
Figure 5-16 1999 PM Peak Hour LOS and Average Delays (South Study Area) ......................................... 5-34
Figure 5-17 PM Peak Hour Corridor Travel Speed and Corridor LOS ..................................................... 5-36
Figure 5-18 Work/School Purpose Trips Attracted ..................................................................................... 5-40
Figure 5-19 Non-Work Purpose Trips Attracted .......................................................... 5-40
Figure 5-20 Work/Purpose Trips Produced ................................................................. 5-41
Figure 5-21 Non Work Purpose Trips Produced ........................................................ 5-41
Figure 6-1 Areas of Pedestrian and Bicycle Travel Problems .................................... 6-8
Figure 6-2 Areas of Transit Problems .............................................................. 6-9
Figure 6-3 Areas of Vehicle/Roadway Problems ..................................................... 6-10
Figure 7-1 Zone System for the Study Area ......................................................... 7-3
Figure 7-2 Year 2010 and 2020 Daily Traffic Volumes ........................................ 7-9
Figure 7-3 Year 2010 PM Peak Period Traffic Volumes ......................................... 7-10
Figure 7-4 2010 Intersection LOS (Without Recommended Improvements) ......... 7-14
Figure 8-1 Eastlake Ave E/Campus Parkway/NE 40th Street Corridor Improvements ..... 8-2
Figure 8-2 Montlake Boulevard NE/NE Pacific Street Corridors Improvements .......... 8-3
Figure 8-3 Major East-West Access Corridors Improvements, Major North-South Access Corridors Improvements ............................................................. 8-4
Figure 8-4 Interstate-5 Crossing Improvements ................................................. 8-5
Figure 8-5 University Village Area Access Improvements .................................... 8-6
Figure 8-6 Transit and HOV Access Improvements .............................................. 8-7
Figure 8-7 Light Rail Station Area Improvements ............................................... 8-8
Figure 8-8 Freeway Ramp Storage Expansion Improvements (SR-520, I-5) .............. 8-9
Figure 8-9 Eastlake Avenue E, Campus Parkway and NE 40th Street Corridor ......... 8-11
Figure 8-10 Montlake Boulevard NE/NE Pacific Street Corridor Improvements ....... 8-15
Figure 8-11 Montlake Boulevard/SR 520 Improvements ...................................... 8-20
Figure 8-12 Street Channelization at NE 65th Street and 25th Avenue NE .............. 8-23
Figure 8-13 HOV Queue Bypass Lane Improvement at NE 45th St. & 7th Avenue NE .... 8-27
Figure 8-14 Pedestrian/Bike-Only Overpass at 47th St. over I-5 ............................ 8-29
Figure 8-15 New Pedestrian/Bike Connection between Burke-Gilman Trail and U-Village at 47th St. ...... 8-30
Figure 8-16 Improvements in the Vicinity of NE 55th St. & Ravenna Boulevard ........ 8-32
Figure 8-17 NE Blakely/30th Ave. NE/Union Bay Place Corridor Improvements ....... 8-33
Figure 8-18 I-5/NE 45th Street/NE 40th Street Area Access Improvements ............. 8-38
Figure 8-19 Extension of SR 520 Eastbound On-Ramp ... 8-42
Figure 8-20 I-5 Dual On-Ramp Improvement at NE 45th Street ......................... 8-53
Figure 11-1 2010 Intersection Level of Service with Recommended Improvements .... 11-8
Figure 11-2 2010 Intersection Level of Service with No Action ........................... 11-9
Figure 12-1 2001 CIP by Program Category .................................................... 12-3
Figure 12-2 2001 CIP by Fund Source .............................................................. 12-3
