

CONSTRUCTION NOTICE

JUNE 2015

Construction at Lake City Way NE and NE 145th will begin June 12

On **Friday, June 12**, the Seattle Department of Transportation (SDOT) will begin construction of pedestrian improvements at the southeast and southwest corners of Lake City Way NE and N 145th Street.

Upcoming Construction Schedule and Impacts

This schedule is dependent on weather and may change

Weekend and Night Work 6/12 – 6/14

Beginning Friday, June 12, at 6 PM, through the afternoon of Sunday, June 14, traffic lanes at the intersection of Lake City Way NE and NE 145th Street will be shifted and reduced as crews complete roadway restoration and storm drainage installation. Construction will take place around the clock to reduce impacts on the community.

NOTE: Evening construction, including pavement removal using impact breakers, may be performed until 10:00 PM under the conditions of a noise variance.

After work is completed in the roadway, crews will begin construction to remove and replace the existing curb ramps, as well as upgrade signal poles and electrical. There will be temporary lane restrictions, pedestrian detours and impacts to transit stop. This project is anticipated to be complete by mid-August.

Project elements include:

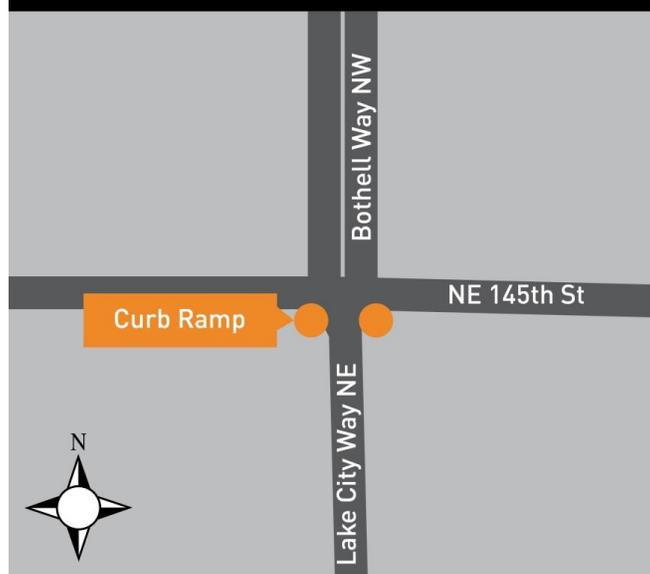

- Upgraded curb ramps to comply with Americans with Disabilities Act (ADA) standards
- Signal replacement and upgrades
- New storm drainage
- Roadway restoration

Community outreach

SDOT will continue to keep the community informed as this project moves forward. We will provide additional advanced notification before driveway access is restricted.

Feel free to contact the project team with any questions or concerns using the information provided below.
