

Potential Bicycle, Pedestrian, and Freight Benefits

NW Market Street / 24th Avenue NW

Pedestrian and Bicycle Modes

- Revised traffic signal operation will reduce pedestrian delays
- Bike lane continuity on 24th Ave. NW, to the north
- Wider curb lanes promote bicycle travel

Freight Mobility

- Increased intersection lane widths will be provided on major truck routes
- Conditions for trucks turning from industrial area south of NW Market St. not expected to change significantly
- Traffic signal operations will eliminate conflicts in opposing left-turn movements
- Parking removals not expected to adversely impact local deliveries
