

Major construction on the N/NW 85th Street & Greenwood Avenue N Paving Projects is now **complete!**

Less than one year ago, the Seattle Department of Transportation (SDOT) began major roadway work on the two-mile stretch of N/NW 85th Street between 15th Avenue NW and I-5, and on Greenwood Avenue N between N 85th Street and N 73rd Street. These heavily traveled arterials are vital to many north Seattle neighborhoods, carrying over 40,000 vehicles per day. Major construction is now complete, however, some wrap up work is ongoing. We want to **thank you** for your support and patience as we completed these much needed improvements.

Sincerely,

SDOT and the N/NW 85th Street and Greenwood Avenue N Paving Projects Team

Fall 2012
