

HOW CAN SEATTLE IMPROVE FREIGHT MOBILITY?

SDOT is developing a Freight Master Plan (FMP) to address the characteristics, needs, and impacts of freight mobility. To help ensure the FMP represents the needs and priorities of freight stakeholders, we need your input!

Please click on the link below to take a short survey and let SDOT know what you think.

www.surveymonkey.com/s/SDOTFMP

- Where are the major chokepoints in the freight network?
- What is one thing the City could do to help you move goods more efficiently?
- What is the biggest challenge you face when moving freight?

Take the survey and let SDOT know! The responses we receive will help shape the policies and projects that will make freight movement in Seattle more reliable, efficient, and resilient.
