

SDOT builds TRAILS

If you don't have to go far, get out of the car, look for a trail where it's sweet to use the power of your feet.

SDOT builds ROADS for BUSES

When lots of
people need to go far,
bus lanes and buses
are the real star.

SDOT uses ECO PANS

Eco Pans keep cement out of streams, so fish can breathe in water that's clean.

SDOT plants TREES

We plant trees that make our city green, create homes for birds and make the air clean.

SDOT stores chemicals SAFELY

We store
chemicals safely so
they won't spill,
because toxins in the
environment can make
us all ill.

SDOT RECYCLES!

We recycle and don't waste gas, so our natural resources will last and last.

SDOT builds smooth SIDEWALKS

We build
sidewalks that are
smooth and neat,
so you can get out of
the car and use
your feet.

CONGRATULATIONS!

We hope you
enjoyed the game
and learned
something
new along
the way.

YOU MADE IT!!!

Claim your
prize and learn
even more ways
to help Save
the Earth!
