GREENWOOD TRANSIT AND SIDEWALK PROJECT – N 90TH ST TO N 105TH ST

Update on construction between N 100th St and N 103rd St

As you probably know, crews are now working on Greenwood Ave N north of N 100th St to install new sidewalk and other improvements. We expect the work to last at least 8 weeks, weather permitting. There will be sidewalk detours and on-street parking restrictions during the work.

The work is progressing from south to north, generally in this order:

1. Install storm drain at N 101st St, N 102nd St, and N 103rd St, which takes a few days to complete. We may close these streets at Greenwood Ave N during working hours.
2. Remove old concrete and install new curb and gutter. There will be a backhoe, construction materials, and other equipment on-site.
3. Once the concrete in the new curb and gutter is dry, crews will remove more old pavement and install the new sidewalk and driveway entrances. We will make every effort to maintain continuous driveway access. If crews need to assist with driveway access, we will provide more information ahead of the work.

How we will keep you informed

In addition to these updates, the project foreman may talk with you, particularly 1 to 2 days before the type of construction changes. The project foreman knows the construction schedule best and will be able to coordinate your requests.

Please help us keep you informed

Consider joining our project email list by emailing GreenwoodAve@seattle.gov. We will only contact you about this project.

WHAT TO EXPECT DURING CONSTRUCTION

- Work hours Monday through Friday, 7 AM to 4 PM
- Noise associated with construction equipment
- Potential restrictions to on-street parking and side street access
- Pedestrian detours
- Reduced speed limits through project area
- Traffic cones and flaggers to direct traffic – bicyclists merge with traffic

To learn more about transit detours, visit metro.kingcounty.gov/alerts or call 206-553-3000
